# Editor's Notes

Wow, my senior year has come to an end faster than I would have ever imagined. Another yearbook has been completed, yeah! I had an awesome year working with all of you yearbookers and I will definitely miss being your editor. Everyone worked really hard. The vacations we spent at the school and the afternoons spent toiling over the future work of art all showed me how dedicated you were. Mr. Wojtal and Mrs. Cuffey, thanks for all your help, the book would have been a disaster without you. This yearbook took a lot of work to finish and I hope that everybody will be happy with the way it turned out. I am!

Good luck class of 2005!

Chrissy Miner

# Teacher Dedication

# *Scott Caulfield*

This year the yearbook is dedicated to one of the most dynamic teachers of our time, Mr. Caulfield. Some might have had the pleasure of being one of his students at Shaw School, while others were lucky enough to have him as an American Studies or World History II teacher. If you had him as a 7th grade teacher, you'd probably remember the math survey project gone wrong, or perhaps "Og", the caveman whom Mr. Caulfield attempted to do his best impression of by jumping on the tables.

It is not an understatement to say that in some way, we have all been impacted by Mr. Caulfield. Whether it's in school, or on the track, he is the best multi-tasker known to mankind. His passion for history has inspired many and his love for teaching has gone beyond any required.

When you step into his class, you should be prepared to take at least two pages of notes. And if you don't know how to make an outline, you better learn quickly. His in-depth knowledge of history and his unique teaching ability leaves you thinking about things you would have never thought about, had you not taken his class. His determination leaves you speechless and yearning to someday have as much creativity and mental drive as he does. Sometimes, you have to wonder if this man ever sleeps.

He has always been there to offer extra help whenever needed and makes it his goal to make sure every student understands the information. Whether it's in school or on the track field, he would never give up on a student. Anyone who has sat in on one of his classes immediately detects the desire he has to instill knowledge in his students. As a result of Mr. Caulfield's high expectations and standards, he has molded his pupils into determined and knowledgeable students. Mr. Caulfield is more than just a teacher though. As an advisor to the History Club and a track coach, he has impacted the lives of so many students and will for many years to come.

We're so glad that you decided to come back to Gorham! The class of 2005 dedicates this yearbook to Mr. Caulfield.

# Advisor's Message

A class advisor is many things, wears many hats, and has many responsibilities, especially in the senior year with graduation imminent and omnipresent. When the last few fund raising activities are discussed, the class advisor has to be a financial planner to ensure that the class is on track to pay for caps, gowns, flowers, speakers and other expenses associated with this most hallowed of ceremonies. When the class trip is discussed the class advisor has to be a vacation expert to be sure that the choice is reasonable, acceptable to students, parents and administrators, and that the arrangements for travel, accommodations and activities are carefully planned. And then there's graduation itself. This is what tests the true mettle of the class advisor. Not for the faint-hearted, this is the big one. Attended by thousands, and viewed by many more in snapshots, videos, and picture cams, this event is the highlight of the school year. When asked this fall to take on the Class of 2005, I anticipated and fretted a bit, having already been a senior class advisor, about all of the responsibility involved. Little did I know that I had nothing to worry about. Under the competent direction of Jan McFarland, the previous advisor, the class had already raised nearly enough money to cover their expenses. In addition, the Executive Committee, made up of the class officers, Josh Lortie, Meghan Clements, Megan Mathieu, Kristen Ellsworth was a well-organized, capable group who operated with an ease and maturity beyond their years. I had only to sit in on meetings and listen while decisions were made with efficient independence - for me it was like watching a well-oiled machine on auto pilot. The funds were raised, the graduation planned, the class trip organized; all the details for ending the year done! I can't imagine a better group of kids to work with than these officers and the Class of 2005. I say this because I have made meaningful connections with many of these seniors - in the classroom, on the stage, around the building, and on the playing fields. We've studied together, performed together, and played together; we've debated, discussed and even argued; we've joked, jibed, and kidded around; we've laughed a lot and cried a little; but what I'll remember most is the fun we've had...and we did have fun. Now we're heading out for new adventures together and so I want to wish them well - for a life of productivity, health and happiness. As for me, my sailboat is rigged and ready, my hammock is strung and my library is well stocked. Oh, and I'll keep a bag packed. AAAAAAAAH!

# Class of 2005 History

"And by and by Christopher Robin came to an end of things, and he was silent, and he sat there, looking out over the world just wishing it wouldn't stop."

- A.A. Milne

And so it began, for many of us, over twelve years ago, only miles away from where our Gorham education now dwindle, and the memories of it begin. Looking back at kindergarten pictures one can discern a glimmer in the eyes of their old classmates; the very same glimmer that could be seen in the eyes of our prom dates, best friends, acquaintances, and albeit, perhaps a nemesis or two.

However, many faces were still missing. We picked up a few more classmates at Narragansett or White Rock Schools, as we played innocently on the playground, at gym or art, or on the bus rides home.

Our class itself first came together fully for fourth grade at Village School, in 1996. Our dreams were massive, and our heads were held high. We never imagined the journey that we would be undertaking during the eight years to follow.

Our three years at Village passed all too quickly, yet junior high seemed to pass not quite quickly enough, as we entered the crumbling antique known as Charles C. Shaw Junior High. Shaw School it was called, and it was during our two years here that many of us truly started to grow up, first experiencing the disasters known as zits, rejection, and detention. Yet we survived, and, dare I say, flourished. For here, as well as at good old Gorham High School, we learned about ourselves and discovered our true passions, ranging from the arts to athletics to, horrors, academics.

Yet none of us will ever forget our first days at GHS. Green little freshman. Yet we grew up, whether we did so too quickly or too slowly, I guess we shall never know. We watched as the upperclassmen; our heroes, role models, and friends, all became seniors and marched out of the school, leaving us to swallow their dust and blaze a trail of our own.

And what a trail we did blaze, taking fine arts, athletics, and extracurricular activities and organizations by storm. Wherever you entered on this path to a GHS graduation in 2005, you added your wisdom and personality to a class hundreds of teachers raved about. Soon we shall move on, off to follow our dreams, wherever they may be found, whether they be in college or working world, America or beyond. Now it is left to our GHS successors to attempt to fill the massive void caused by our absence. And believe me, that void is larger than you realize.

I leave you with this quote:

"Time wasted is existence. Time used is life."

Best of Luck

There once were some little people who lived in little holes. They were known as the little people in the holes. One day there was a rainstorm causing all the little people to drown in all their little holes. And the little people were no more. ALAS! The little people had good karma and were reincarnated into pikmin. Thank Buddha!

Buddha aside, I would like to thank anyone who ever listened to my made-up words or random babbling and just laughed it off. I will miss you all. Good luck and goodbye.

This life is a gift of freedom and self realization. Your dreams are only as far as the reach of your hand. If you have the courage to dream it you must have the potential to achieve it."I would rather be a superb meteor, every atom of me in magnificent glow, than a sleepy and permanent planet. The proper function of man is to live, not exist. I shall not waste my days trying to prolong them. I shall use my time."

Truthfully, you'd be surprised how little I knew even up to yesterday.

Oh, the fun to have, to live the dreams we always had. And oh, the songs to sing, when we at last return again.

"dancing all night and having a blast, living each day as if it's the last" I'll stay happy but always remember the hard times, they are what mold us and make us stronger. I'll make my own path and stick with it no matter what. We are who decides who we are and who we want to be. I've learned to take life as it comes to me, "unexpected moments are dancing lessons with God," and above all, I've learned to live to love and love to live. thanks to everyone who has made me who I am today and is helping become who I want to be.

There are times when you must push Yourself to excel and stand up for what You believe in, but I've always wondered, what's the sense in rushing through life when you can lay low, smell the roses and enjoy life? I will always fight with pride and I will make ends meet, but I will never forget to grin at the sunset and laugh with the wind... Thanks everyone who made the past four years what it was: my family who I will love always and couldn't have done without (MDKK), my teachers and coaches who pushed me to be more than average and most of all my friends who were there with me to jump every bridge. Ah caught you smiling at me,  
That's the way it should be,  
Like a leaf is to a tree, so fine.  
Ah all the good times we had,  
I sang love songs so glad,  
Always smiling, never sad, so fine.  
As we walk down the country lanes,  
I'll be singing a song,  
Hear me calling your name.  
Hear the wind within the trees,  
Telling Mother Nature  
'bout you and me.  
Well if the sun shines so bright,  
Or on our way it's darkest night.  
The road we choose is always right,  
So fine.

If you think high school is tough, well, you're probably right. But from my years of experience here, I've learned it isn't so bad. As long as you have at least one good friend, don't give up on your work or yourself, and don't sleep in a dog-house, then you'll be all right. Take it from me.

Now that high school's over, there's only one thing you really need to know. Many years ago prince darkness Gannon stole one of the Triforce with power. Princess Zelda had one of the Triforce with wisdom. She divided it into 8 units to hide it from Gannon before he was captured. Go find the 8 units Link to save her. Please look up the manual for details. Now I'm going to quote some music because I can. "I know the secret song now They wouldn't tell me But somehow I found out Yeah!" Mr. Bungle Trust me on this one, those lyrics have a very deep meaning. You just don't get it cuz I'm a l33t hax0r.

To GHS, for all of my years of hopes and frustrations, daydreams and nightmares, happiness and woes. Thanks to my teachers, all of whom became my mentors. Thanks to my family; Mom, Dad and Kate, your criticism and praise told me when to shut up and when to stand tall. And now, after years of overachievement, I look forward to only one thing: love. All else will fall into place after it. God bless, and good bye.

: Echo fading  
We can't let go  
Did you flash out long ago?  
Go on  
Fade out  
Before I get stuck  
Talking to somebody like you  
Do you live the days you go through?  
Will this song live on  
Long after we do?:

(Take a breath hold on tight  
Spin around one more time and  
Gracefully fall back  
To the arms of grace)

: I'm not going to look back.

No quote from someone famous, just my own advice: Living for Jesus is hard. I won't say you can do it, because YOU can't; JESUS can. Even your desire to live for Him must come from Him. Any life that is truly Christ-centered has NOTHING to do with you and EVERYTHING to do w/ Christ. Read Psalm 73 (The story of my life). M&D: You have no idea how grateful I am for you putting up w/ me for 18 years. Track team—these 4 years have been our time. We truly are #1. Phil & Shane: 2¢ gas runs, water bottle theft at lunch. "I did NOT sleep in the doghouse!"—Shane, TL: 2 more years, this is your time. ES: Fun in AU at MUN (BigMan Scott!) and Chem. To the people I met this year but didn't know when I wrote this: you should be in here, too.

Jonathan Larson Thanks to my family & all my friends who helped me through the past 18 years. "They say that these are not the best of times, but they're the only times I've ever known." It's hard to believe just how fast these last four years have gone by. It's been a lot of fun, and I think I've learned a lot. I want to thank my family, friends, and teachers for helping me throughout high school. By the time we read this the Red Sox will already have won the World Series. I think I'll keep this thing short and sweet like everything else I've written over the last few years. I wish you all good luck in whatever you decide to do after high school.

"I hope that one or two immortal lyrics will come out of all this tumbling around" -Louise Bogan In all my high school years, everyone always said to work diligently and prepare for the future. No motivational speaker ever lead a motto of "back off; take it easy." This is the most important thing I've come understand in this time. I've learned to let go of some things, and to accept that some of my future is beyond my scope. There's no purpose to Machiavellian success; process is often more important and meaningful than the end result. "Never has the world seemed so fresh and precious. Have a cup of tea and rejoice. I've hurtled through these 4 years with a reckless abandon yet everything has worked out with an uncanny neatness. (Douglas Adams) Yea, these high school years have been great. We had it so easy! And that's to laugh and smile and dance and sing! Always look on the bright side of life! Always look on the light side of life! (Monty Python) Goodluck everyone. Slater! Jennesa

I wanted a perfect ending... But I've learned the hard way, that real life doesn't have a clear beginning, middle and end. Life is about not knowing, having to change, taking the moment and making the best of it, without knowing what's going to happen next. Thanks Mom & Dad for being there through everything, I couldn't have done it without you! Kelly you are my love, my hero and best friend always! It is hard to believe that we are at the end of our HS years. These 4 yrs have been ones I'm sure to never forget. Well I'd like to leave this school on a high note but I fear if I try saying goodbye with too much class I'll look like more of a fool than if I were to just give a shout out to all my friends and call it good. Not that looking like a fool really phased me before, what with screaming like a girl at pep rallies picking fights with kids twice my size in the lobby, and falling countless times in and out of class, but regardless, I want to say goodbye the right way. So I'll just thank my family friends and teachers for helping me through high school. I'd also like to thank JEB for Always backing me up when I needed it. I couldn't have asked for a better friend. Thank you all, and goodbye.

Juliana Van de Krol

Good luck for the rest of high school to Jacqueline, Bert, Jessie, Jessica, etc. I love you kids and I'll miss you always. Don't forget, Cows rule!!!

"I'm at my best when I'm exhausted and under pressure." -Jimmy Page. How right he was, who knows- how many times I found myself completley exhausted from a week of school, only to have some sort of test on Friday or to have to get up and give a presentation to the class on a subject which i wasn't keen. Even though at times it was too much to handle it was still fun. There were some great times but I'm glad to have gotten through all of it smoothly.

Janessa Waters

Don't be scared to fly alone,  
Find a path that is your own  
Love will open every door  
It's in your hands,  
The world is yours  
Don't hold back and always know,  
All the answers will unfold  
What are you waiting for,  
Spread your wings and soar.

It is difficult to pinpoint the single thing that stands out most about Gordon Strout. It may be his inspirational directing, his incredible set designs, or maybe it's because he knows every famous (and not so famous) British author...ever. Whatever it may be, Mr. Strout's unique energy and exceptional talent will be terribly missed for many years to come. I am certain that Gorham High School will not be the same without him.

Most kids in my junior English class cringed at the thought of reading Macbeth. After our first reading, however, their opinions were drastically altered. It was somewhere in between the waving arm movements, the mastered British accent, and his jumping up onto a desk that the students became enthralled. Mr. Strout's rendition of one of Shakespeare's most memorable soliloquies, for the record, would have been praised in a Broadway theatre! But as usual, he did not give himself enough credit and hopped down from the desk when he was finished like nothing important had happened. I guess twenty-three years of teaching English gave him just the right amount of time to perfect such an exquisite performance.

I was fortunate enough to work with Mr. Strout in nine theatrical productions, in addition to having him as my teacher. His passion and hard work both inside and outside of the classroom were contagious and his influence was and still is truly remarkable. I cannot think of any other person whom I respect and admire more. I am honored to have experienced the overwhelming inspiration and dedication that is Gordon Strout, and I am amazed at his ability to affect every student- class after class and year after year, even in rooms full of Red Sox fans. We all wish you the very best in the future and thank you for your endless contributions to Gorham High School.

# Memorable Firsts

We were at an eighth grade semi-formal dance, and U2's "It's Beautiful Day" was playing... He looked down at me and asked, "Can I kiss you?" I nodded my head... When the chorus started he leaned down and I received **My First Kiss**.

-Kelsi Hawkes

On **My First Day of High School** I was walking down the hallway when a junior picked me up by my backpack! He moved me and then some girl yelled at me for walking on the wrong side of the hallway! It made me want to go home. - Victoria Miner

One of **My First Jobs** was in Cape Cod, at The Flying Bridge restaurant. It was the kind of place where you cooked right on the table. It was a tourist place, so we were always busy. My first day there, they handed me a 750lbs swordfish to clean- which I had never done before. It took me eight hours to gut, clean and chop up the whole thing. -Mr. Caulfield

# Most Embarrassing Moments

In freshmen english class we were reading Of Mice and Men. The day we watched the movie, the tragic ending took me by surprise and I laughed involuntarily. My teacher publicly scolded me and asked me if I was heartless and cold. I was mortified.

-James Dougherty

In fifth grade I was outside playing soccer during recess and I was wearing sweatpants that day. When we got back inside, the teacher asked if anyone wanted to read a book to the class. I volunteered and sat on a stool in the front of the room, legs perched on the bar. I had a big hole in the middle of my pants and didn't even know. My classmates all laughed at me. -Colin Hurd

Friday hiphop classes used to always have the most observers on "watch day." Many of my friends were there and the teacher asked me to show my competition number. The very first move I did was a split, and unfortunately, I was wearing jeans. I ended up ripping the crotch of my pants in front of all my friends! -Chelsea Rondeau

On my birthday, my sister called the school and got Mr. Drisko to make the entire lunchroom sing "Happy Birthday" to me. That wouldn't be so bad now, but I was only a freshman then. -Kyle Olsen

Today is your graduation day and then you will be getting ready to go to college. It seems like only yesterday that the nurse put this beautiful little girl in my arms. We looked down at you and we knew right then and there that you would turn out to be a wonderful joy in our lives. We just didn't realize how much of a joy. You have gone above and beyond our expectations. We are so proud of you and know that you will achieve every goal in life that you have set for yourself and more. It seems like just yesterday when you looked at us for the first time with those big blue eyes. It was love at first sight. You always had that "natural ability" to accept nothing but the best. At every step in your life you would raise the pole one more notch.

Our little girl has grown into a beautiful young woman, one that any parent would be proud of.

You have given us so many memories and we look forward to sharing many more.

Congratulations Pumpkin, we love you.

## There is no Friend like a Sister

There is no better friend like a sister-  
There is no one more loyal and true...  
And even when sisters are different...  
Their likeness comes shining through!

Perhaps it's a family resemblance-  
That strengthens the bond they share..  
Or maybe it's just that sisters live life with  
a similar flair!  
A sister remembers your collegehood-  
She knows more than you will admit...  
Of times you were Little Miss Perfect...  
And times you gave others a fit!  
She has seen you in some situations-  
When silence just will not suffice...  
And managed to get by with those sisterly  
words of advice!

There is no one who is more in your corner  
And no one you are more grateful to.  
There is no better friend than a sister...  
And no better sister than you!

Words can't even begin to describe how proud we are of you. It seems as though just yesterday we were fighting over whom would hold you next. Now you're a strong and talented woman, and we find ourselves leaning on you. You might be 'called' our "younger" sister, but we look up to you, we respect your opinion, and listen to your advice. To listen, to laugh, to comfort, and to care, you can always count on us, we will always be there!

We love you sis!

Mammie and Papa have always thought the world of you, as well as your whole family. As Mammie used to say, "Grant, you're such a fine, handsome, young man!!!"

# Christopher Hopper

Christopher,

Writing this makes me happy and sad; happy to know that you have grown into such a fine young man, sad because I wish you were little all over again. Who would have known the road ahead of us that was so full of bumps and turns would be so good!! I did not do this by myself. Being a single parent I had plenty of help.

Thank you to the grandparents, aunts, and uncles who showed you things that molded you into who you are today. Thank you to the teachers who spent countless hours teaching you to get ahead in this world with an education.

Thanks you to all the parents in the community who watched over you as parents do. Thank you to the people who believed in you to give you a job and, in turn, gave you confidence.

All of these people who have come into your life gave you a little bit of themselves to you that molded you into the greatest young man a mom could ever ask for!

My wish to you is to be true to yourself. This is just the beginning of your life, so take it and run with it! Achieve! Conquer! Love the most of it!

Lots of love and kisses,  
Mom

Chrisco,

So long ago seems like yesterday and even though there is no rewind button on life, it's nice to know that for a few refreshing moments each day we can pause to reflect on the good times we shared. We may not have been "traditional", but for all the miles between us, we always made the best of it. Maintaining that closeness is something I will always be grateful for. It allowed us to go places, do fun things, and meet people - each of which enriched both of our lives. Whether tossing a ball, sledding, building snow forts, "bangin" bluefish in the sound, camping out with the scouts, taking a "rip" on the Harley, or strumming six strings by the campfire; it seemed like the more that time went, the more we got to know each other and the more we got to learn about life.

Through the years I watched you grow from a little boy into a fine young man. Sure, we hit our share of bumps, yet each one made you more whole as a person. Always remember son, that where you've been in life-good or bad-has a lot to do with where you're going. Where you've been in life has everything to do with who you are. Things happen for a reason yet they always seem to turn out the way they're supposed to.

From the time you were very small you've shown the ability to conquer many things including adversity with your grit, determination and enthusiasm for everything you do. You've demonstrated hope, and where there's hope there's vision. Where there's vision, there's purpose. You always seem to find that. When people said you were too small you felt like you had something to prove, but you never had to prove anything to me, (or for that matter, anyone who knows you for what's in your heart). You just wanted to prove it to yourself. That's your style. You bring a lot of truth to the words "it's not the size of the dog in the fight, it's the size of the fight in the dog."

Now that this part of life's journey will soon reach its end, another chapter will begin and in that I hope you continue to find purpose. Your efforts till now have made so many people proud of you and I'm sure that as time goes on there will be so much more that you will accomplish that will make us all even prouder. Always believe that life is full of opportunities. Take the time to seek them out, and always know that things will turn out the way they're supposed to. I love you pal.

Daddo

"Ability is what you're capable of doing.

Motivation determines what you do.

Attitude determines how well you do it."

Lou Holtz

Ben, I didn't realize how fast the years would fly by. I guess that is a blessing, for it is hard enough to let go and send you on your way to start your adventure called life. It seems it was only yesterday that I was negotiating nap time with you. It took you a while to figure out that a "rest" always turned into a nap anyway. You still like to think you got away with something, and we still let you think that! Over the years you have honed your negotiating skills, and learned to be more creative with your arguments. I hope that we have given you the tools you need to be successful in life, whatever path you choose.

We are proud of the young man that you have become. You are an intelligent, thoughtful, kind, compassionate, respectful young man of character and integrity with a terrific sense of humor. Those qualities will take you far in life. We have been through some rough times together and you have always amazed me with your strength, courage and maturity. When you apply yourself, you always will achieve your goal. You must learn to trust your own judgement more and dare to try and fail, get up and try again. Knowing yourself and being true to yourself are the keys to happiness. In and tried your hardest, but you are the one you have to look in the face every day for the rest of your life. Work hard, do your best, always tell the truth and do the right thing.

"The truth of the matter is that you always know the right thing to do. The hard part is doing it."

General H. Norman Schwarzkopf

Live with intention and intensity.

Walk to the edge.

Listen hard and pay attention.

Don't overlook the little things, sometimes they mean the most.

Practice wellness and self care.

Listen to that inner voice, it will never steer you wrong.

Play with abandon,

Laugh every day.

Choose with no regret.

Continue to learn and learn something from every person you come in contact with.

Appreciate your friends.

Do what you love.

Work your hardest and do your best even when it is not required.

Like who you are for you will spend a great deal of time with yourself.

Make a difference.

Live as if this is all there is....because it is.

May you always find the joy in life. May you never want for friends, work, or love. May you always end each day knowing you did the best you could. May you find the thing you love in life and find a way to make a living at it. May you never stop learning and growing and trying to improve. May you never lose your compassion. May you never forget the struggles and challenges you faced to get to where you are, for they make you a stronger, better person. May you never become too busy to watch a sunset or notice a rainbow. May you always know that you are special and loved.

Pursue your dreams and turn them into reality. Your destiny is in your hands and we know you can do whatever you set your mind to. Go, learn, do, experience, live. We are proud of you and will always be here for you. Love, Mom and Randy.

# Kyle Joyce

Dear Kyle,

When you were young, just a small boy,  
In nature, you'd find the simplest of toys.  
To you, a marching insect enthralled,  
While across a flower petal it crawled.

A stick became the mightiest of swords  
As the backyard kingdom was explored,  
Taking on imaginary foes,  
Of whatever form that you chose.

A rock that glittered in any way,  
Was a treasured possession without delay.  
A feather found blowing in the wind,  
Was tucked in a shoebox with a sweet grin.

As you enter this new time in your life,  
And if ever you are faced with strife,  
Look for the beauty you did as a boy,  
The simplest things will bring you joy.

We are so proud of you!!! Congratulations!!

Kristina...As I watch my first granddaughter turn into a fine young lady I can't help but cherish the special bond we share. As I think of your graduation day I remember all the special times we shared. You are my Newberry's girl, my pageant girl, my jazz girl and my cheerleader. I am proud to have you as my namesake. I have always cherished the light you have shown in my life. Now I look forward to seeing you share your light with the world. Love Grammie

Kristina...From the six year old I bought pom-poms for, to the ten year old I took to cheering competitions, who would have thought that I would be going to see you not only be a part of States but to take runners up. I'm so proud of my cheerleader. You do nothing halfway. With all your heart and soul you do your schoolwork, cheering and most if all love your family. Now I look forward to seeing you start the next part of your life and always know I will be cheering for you and all the successes you will gain in life. I love you with all my heart. Love Aunt Leola

Kristina...I love you more than words can express. All of your achievements in life have inspired me to be a better person. I look up to everything you do. (Even cheering!) You deserve everything that is coming your way and so much more. Dad may not be alive physically today but he lives bigger than ever in our hearts. Thank you for being there for me. In every great stride you make, always remember he is very proud of you. We need to live life to its fullest because that is what he wanted us to do. You proudly march during graduation, go to college, get married and be happy in life. Remember no matter what goes your way you have a family always here for you. Kristina, you are my best friend for life. I love you Kristina, Stephanie

Dearest Kristina...You came into my life late, however, the pleasure of knowing you and seeing you grow from 15 to 17 has a special place in my heart. You are a lady, a friend, my niece (thanks to your mom marrying my brother and if I could have picked you from the start I would have. Kristina, when I think of you I see sparkling blue eyes ready to take on the world and what it has to offer. You give all that you have to offer. You give all that you have to offer it, which is a lot, honey. I love you and my life is better for having the privilage of knowing you. Your old Aunt Pam

Kristina ... I wish that I could have been part of your life from the beginning, but I wasn't lucky enough to meet your mother until you were already an energetic, fun loving 13 year old. These last four years have gone by in a blink of the eye. Now you are beautiful, mature young woman preparing to leave home and begin your life. You enjoy life to the fullest: you are a serious student, an athlete (yes, cheerleaders are athletes), and someone who has captured a special place in my heart forever. I will always remember our morning talks about Rams sports, cheering, and the Patriots and especially your ethusiasm for all of them. I could not have asked for a better daugther. I hope that you always keep a hold on your love of life and family. I can't wait to see the great life you will make for yourself baby. Always know that I am proud of you and that I love you now and forever. Greg, your step-Dad.

Kristina ... When you were born I discovered what "love" really meant. I had one wish for you, "For you to be who YOU wanted to be." Kristina, you are so much more then I could have ever hoped for in a daughter. You have made me proud each and every day of your life. You are always successful at everything you do because you do all you can to be the best. Begin the best is different in everyone's eyes. What is important is that you always do what is best for you and whatever level you achieve is a success. I want you to go to college, take it seriously, but also I do want you to be young and have fun. Explore the world and new friends. Be outgoing and adventurous. Be proud of your accomplishments and stand tall. Reach for the moon and the world will be yours. Love, Mom

Dear Eliza,

It's difficult to absorb the reality that our little Peanut is graduating from high school. Then again, maybe it's not. After all, you've always looked deep within yourself to discover and understand what's important and, once you have grasped it, you've always stood up strongly and unapologetically for what you believe. We've learned a lot with and from you the last 18 years, Liza, and that's just the beginning...

You go, girl! You're ready to soar, and we're so proud of you.

Blue-eye blonde with a raspy voice  
Once again God made a perfect choice

A beautiful angel he sent to me  
A delightful addition to our family

The second born child but soon to be middle  
You stood your ground from the time you were little

Inquisitive and charming, funny and smart  
Adorably cute, but deep down you're all heart

Cooking, dress-up, making snowman, playing ball  
Raising pets and going on vacations, we did it all

Fiercely competitive, unbeatable you seem  
An opponent's worst nightmare, a coach's best dream

I wish you a life full of acceptance not rejection  
And may you always have a mirror to check your reflection

I am so very proud of the person you are  
Keep making good choices, in life you'll go far

But wherever life leads you, adventures big or little  
You'll always be in my heart, in that place in the middle

Love, Mom

## For Nick

It snowed the day you came home  
for the first time. A big big snow.  
Such a tiny baby. Such a new life.

That moment was just last week it seems.

But somewhere in that week you grew to 6'2";  
played soccer, baseball, basketball; collected pogs  
and Pokemon; went through a hundred skateboards;  
broke an ankle; got contacts; made it to the kitchen  
on your little hands and knees and then on to Florida,  
Australia, San Diego and South Bend; you climbed the stairs  
for the first time and then Traveler and Katahdin. You left great  
impressions with all those you touched. It will snow again next  
week and a tall and handsome young man will leave home to  
start his own life. Our best gift to you is our deepest love,  
affection and admiration for all the joy you brought,  
for all that you have been and for the  
wonderful person you have become.

All our love,  
Mom & Dad

# Nick Wallace

To Nick,

A dream is in the mind of the believer,  
and in the hands of the doer.

You are not given a dream  
without being given the power  
to make it come true.

Bother - Nate

## Shannon Bostrom

To our Miss Mary Sunshine...

It seems like just yesterday we wondered if you would make it to your 3rd birthday, what with your habit of "looking left and walking right." We blinked and you were 5 and off to school. You decided one day you didn't need a bus to get you there and we should not disturb the "experience" growing in your closet. Just as quickly you were in junior high and a social butterfly. It didn't matter who the teacher put you next to, there was something to talk about. Another blink and here you are graduating and heading off to college. You have become a person who is not afraid to voice her opinion and you have the knowledge that not all learning occurs in a classroom. To quote Mark Twain, "I never let my schooling interfere with my education." Your enthusiasm will take you far and never forget how much you are loved.

Mamuchka and Dad

## Jenna Caswell

Dear Jenna,

It is such a joy to have you in our lives whether you're singing, dancing, playing the piano, watching baseball, running, or just being you.

We love you so much and will always be here for you.

# Mandy Pastore

"What We Always Wanted"

A beautiful girl full of hopes and dreams,  
One that would laugh at her brother's schemes

She'd dance to the beat of a different drum,  
Yet always expecting to be part of the fun

Twirling her way into all our lives,  
With her raven hair and hazel eyes

Italian skin and temper too,  
Never underestimate the power of you!

The wrath of Mandy experienced by all,  
Especially those within the inner walls

Twinkling the ivories at Christmas time,  
Always the center of everyone's eyes

Bossy shoes were worn with pride,  
Reminding us of her independent side

She'd possess the poise and personality of none  
other,  
While surviving the years (she felt) in the shadow of  
her brother

Entertaining us with numerous sports,  
Never failing to amuse us with more wins than loss'

Cheering herself successfully to the top,  
Unafraid of any sudden flips or drops

A flyer continually reaching for the highest star,  
While never letting her heart stray too far

In Papa's eyes you'll always be  
His replica of "Mini Me"

In my eyes you'll always be Mandi with an "i"  
A strong and beautiful "individual" to be proud of.

We love you always and forever.  
May you follow your dreams wherever they lead.

~Love, Mom, Papa, and Joey

# Bryan Carr

Bryan,

You brought a smile to our face when you were born and from that day you have forever kept that smile on every one you ever met.

Your laughter how contagious-you amazed us both with your humor, strength, kindness, intelligence and most importantly your compassion.

I know that the road you are about to encounter will be new, exciting and difficult but we will always be there just as we always have.

I would have loved for your Grandma & Grandpa Anderson to have witness their first grandchild to have entered college, but I'm sure their smiling down from heaven.

You have your Nan & Pap who think the world of you and are so proud of all you have accomplished-many a football game, baseball game they attended. The praise and compliments that were paid to them because you were there to help with one of their many Antique Shows.

I have to say I could not be any more proud than I am right at this moment.

From Samantha who I know at times was just like the typical little sister to the fine young woman she is today-to your father who couldn't be any more proud of you and myself your Mom, the one job in life that I wouldn't trade for anything

We love you Bryan Spencer Carr!!! Congratulation!!!

We are so very proud of these events yet we are more proud of the man you have become over these 18 years. A godly man of compassion, honesty, integrity..... keep your eyes on Him.

We love you,

# Marc Joyal Myers

Okay, so basically all parents love their children. That's the easy part. What's more remarkable, Marc is that yours actually like you, respect you! We couldn't be more proud of the man we see you becoming. We've always known that you were astonishingly funny and bright and talented. Even as a little boy you were diligent and determined. But in the past few years you've shown strength, resilience, compassion and an indomitable spirit that has taken our breath away. And combined, these are the qualities that make you an unstoppable force, and an exceptional son and an amazing brother and friend. Honestly Marc, there's nothing holding you back. Just ride the wave because it's totally worth the trip. I hope this doesn't seem trite to you because I could not be more sincere. Don't ever doubt the tremendous and limitless capacity that you possess, to enhance the world that you inhabit and the people who are lucky to join you along the way. And don't ever doubt how grateful Dad and I are for you. Don't have regrets and don't be afraid to fall. You'll get up. And oh yeah, have fun Marc, keep making people laugh until they cry.

We Love YOU,  
Dad and mom

And I love you too!!!!

# Kate Guimond

When you become a parent you naturally wonder how your child's life will evolve. How will they develop socially and mentally? What disciplines and activities will they be attracted to? Will they respect others and be inspirational? Will they be a good role model? Will they understand how necessary it is to study hard and develop a strong work ethic? Will they appreciate and embrace the wisdom their parents and other with more life experience try to convey to them? Will common sense and good instincts be second nature? Will they see the world as the wonderful place it is with limitless opportunity? As your parents Kate, we couldn't possibly be more proud of you. It's been our pleasure to watch you mature and grow to be an outstanding individual. We know you're capable of great things and your future holds many blessings. You've made our little world special beyond what words could describe. Now it's time to show the rest of the world what terrific person you are.

Dear Derek,

You've grown and matured into a strong, focused young man. I am very pleased with your many accomplishments over the years. I have enjoyed watching every minute! You've done an outstanding job balancing being an honor student, playing sports, scouts, and working part-time. I am especially proud of your recent contribution to the town of Gorham. The sign for Robie Park was an excellent idea for an Eagle Scout project. Obtaining the rank of Eagle Scout will help you throughout your lifetime. Great job!

You've always been kind, courteous, and easy to get along with. These are all qualities that I've always admired. Also, I truly appreciate your helpfulness in stepping up and taking on some added household responsibilities. You have been a pleasure to be with, fun to travel with, and sure know how to make people laugh. I can always count on you to cheer me up! I am going to miss you when you head off to college. I know that you will do well in the engineering program, make the right decisions, and be successful. You have what it takes and true integrity, Derek!

Please don't forget who loves you, what's important, and who is always here for you. Your sister Diana sends her love, too, and wants you to know that she is very proud of her brother, "Diggy." Best of luck, Derek! Love always, Mom, John, Diana, Abby, Auntie Sheila, Uncle Richard, Pat, family, and friends. :)

We've finally landed,  
And believe me, I'm glad.  
We began empty handed,  
Now it's all that we have.

We've waited years for this moment to come.  
All the tolerance paid off.  
Our wounds have healed nicely,  
And we're finally done.

We'll cut ties and forget old faces,  
Living only with memories of the people and  
places.

This free ride ends tonight,  
And I wonder if we're ready to face this.  
But we know that we'll make it.

This is thank you to some,  
And good luck to the rest.  
Our presence will always leave a scar,  
On jolly GHS.
