Editors Note

Our senior year has come to an end and it was busier than ever. After working hard with some of the most dedicated people, we've created a great yearbook to share with everyone. Senior year is a memorable one and we hope that this yearbook will capture those memories. This year's yearbook staff has been incredible. We've been together for the past three years and have ended on a great note. Mr. Wojtal was a tremendous help this year and deserves a huge thank you for all of his patience and hard work. We hope you enjoy the yearbook and the years you have left here at Gorham High School.

Good luck class of 2006!

In Memory Of

Dan Clark

Dear Mr. Clark,

Since the day I was a freshman in high school, you were always there checking in making sure everything was going well. Then at the beginning of this year, for some reason, I realized you were not here. Well, it definitely hasn't been the same without you, especially in math.... Sometimes you and I both didn't get it, but you never gave up, and you made sure that in the end everything was good. Well, now I have decided to check up on you and hoping that in this case, everything will end up good as well. And yet, here we are once again, not quite knowing why things worked out the way they did and not having an answer, but don't give up. There are so many more things to learn in life than what's inside a book. I find that the biggest lessons in life are in life itself. You were a teacher to us all in both these cases.

I find myself always asking how math is going to help me when I get out of school. Well, I've thought about it and decided that unfortunately life is like one big math test. It's hard, you can't get away with cheating, sometimes you make mistakes you can't erase, it is full of problems and riddles that have yet to be solved, it doesn't always provide the answers to your questions, and it is possible to fail. But, I reluctantly admit that there are benefits to it as well. For example, you can always use trial and error when making your decisions. The number two is even better, because when you've made mistakes you can't erase, you always get a second chance. You can review and revise the things you already know to help solve problems. You can always ask for help on questions in order to find the answers, but sometimes it is hard when there is more than one answer to choose from. And yes, it could be all a trick question.

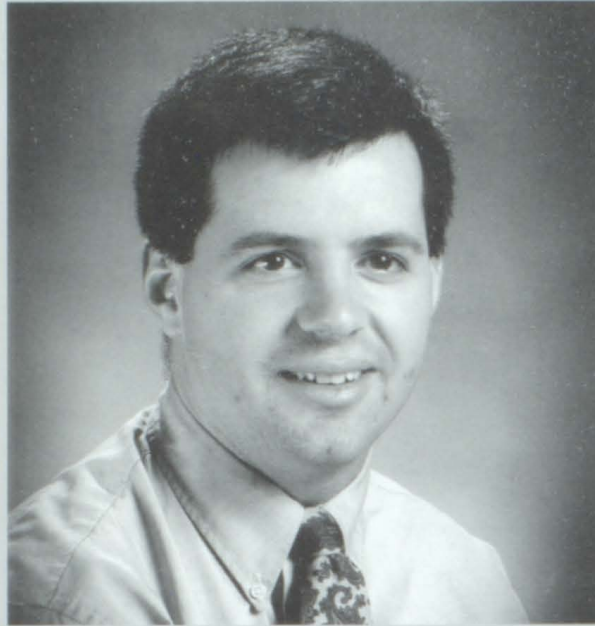

When you are stuck you can always go back to the basics. Multiply love by a thousand, divide hate by itself, add love and kindness, and always subtract the negative from the positive. As bad as you may be at all of this, if you try and practice hard, then success is one of the probabilities. No, we all can't get straight A's, but hopefully with the help of people like you we can get something out of it, walk away with a better level of understanding than before, and finish with a good report. There are a number of things that you have helped me with; I can't count them all on one hand. Calculators don't always work while you're trying to count your blessings. So all in all, I would just like to say thank you for not only being my school teacher, but also teaching me life long lessons along the way. Many years from now I will look back on my notes and recall all the things you did for me. I will remember what a great, thoughtful, and dedicated teacher you really were. It will take us all a little time to move on to the next point, but I want you to know that you will be on my mind and in my heart each step of the way. Thank you once again for everything you have taught me.

With much love and great thanks,

C.C. Frick

Teacher Dedication

Bill Bennett

Mr. Bennett taught us all a valuable lesson about the human condition. He taught us that even though we live in a world where microscopic organisms can take the life of a strong human being in a year's time, we should continue to live life with purpose and dedication. He taught us that regardless of what life throws our way, we should continue to fulfill our obligations to the people around us. Most of all, Mr. Bennett taught us the importance of courage and fortitude. For these lessons, and his math lessons, we have all been enriched for the rest of our lives.

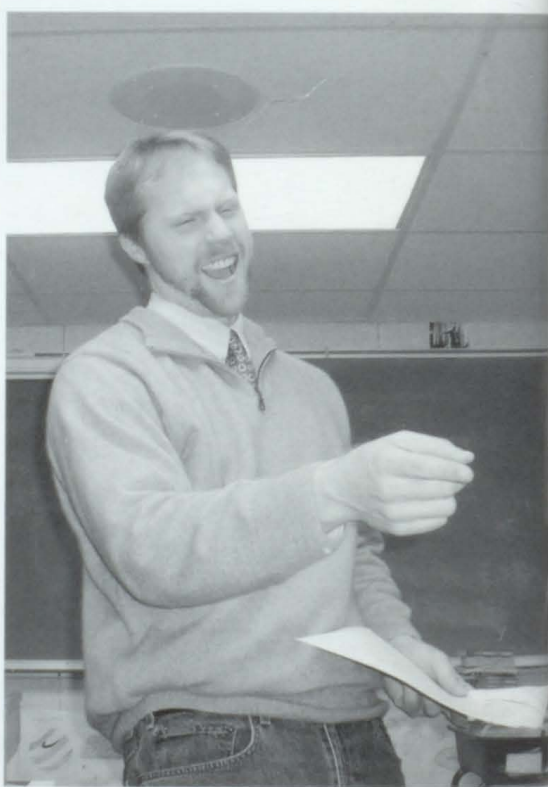

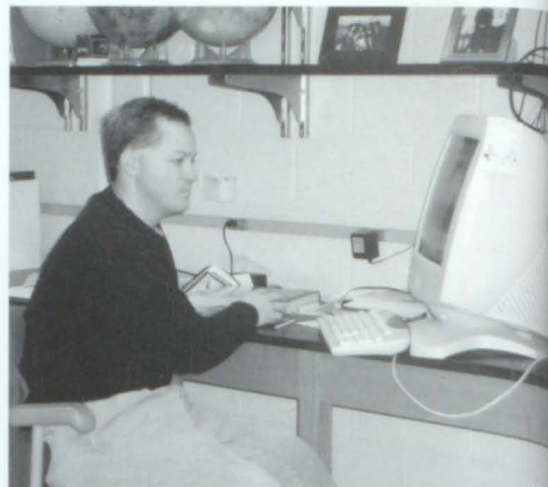

-John Drisko

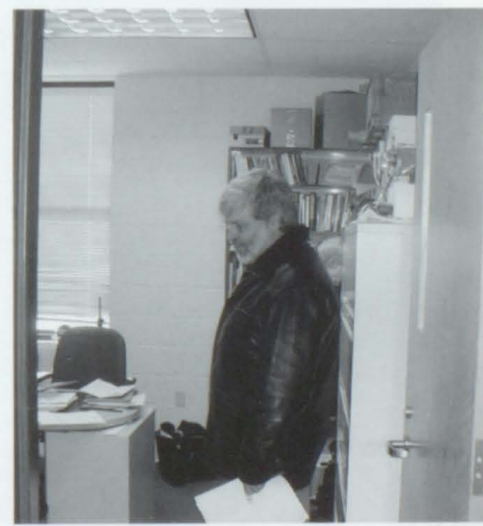

This year's yearbook is dedicated to a mentor, a hero, and a friend of everyone who has attended Gorham High School. We would like to recognize the tremendous work and effort he put in here. He was an outstanding math teacher, football coach, and math team coach, which is just the least of what he did for us at GHS. He would always lend a helping hand to anybody who needed it and was the kind of person who would never receive a gift or compliment without giving something back. Although he is not with us anymore, he will always be watching over us and still inspiring everyone with his warm heart. This yearbook is dedicated to and in memory of Mr. Bill Bennett.- Adam Kidder

Bill Bennett was a special human being who had the rare ability to see and draw the best out of others. His patience, sense of humor, and common sense approach to dealing with problems made him an invaluable member of the school and the community. Beyond this he was the consummate family man. He was very deserving of this year's yearbook dedication-surely many from the class of 2006 will remember him always.- Kevin Jenkins

Advisor's Message

Seventeen Again

You have opened this book to remember. Take a step further. For a day, be seventeen again! Try something you've never done before! Learn something new! Question a truth! Do something with friends! Lighten-up, don't be totally in control! Enjoy being alive!

If you do this, it doesn't matter if you're twenty-seven or seventy-seven. You'll be seventeen again. Your whole life, sorrows and joys, failures and triumphs, will be ahead of you. You will be renewed.

Enjoy life,

Mr. Adams

Class Of 2006 History

For many of us, this journey started thirteen years ago, in a small classroom, filled with nervous toddlers. Clutching our parent's hands, we were shell-shocked, not understanding how fast our education would fly by. The years progressed, we moved from grade to grade modeling ridiculous haircuts and leggings. We lost some friends and made new ones, quickling gaining inches and maturity.

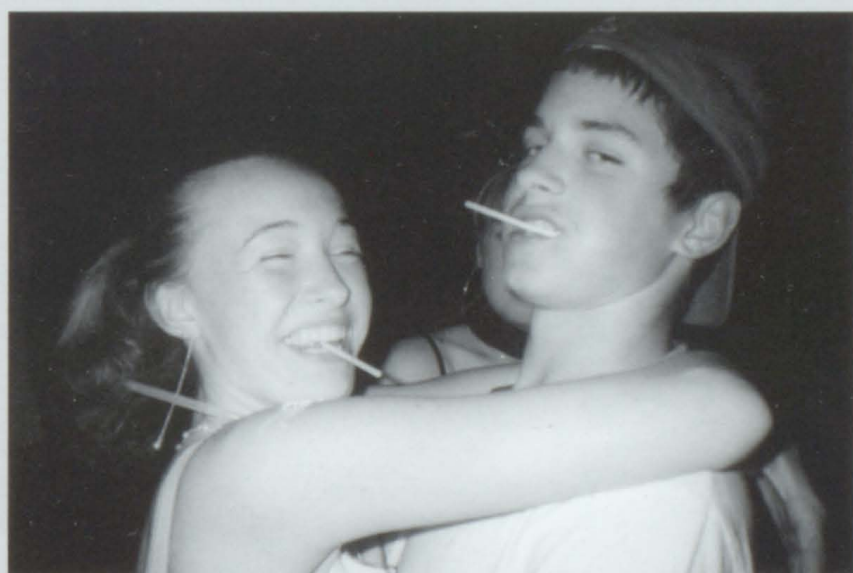

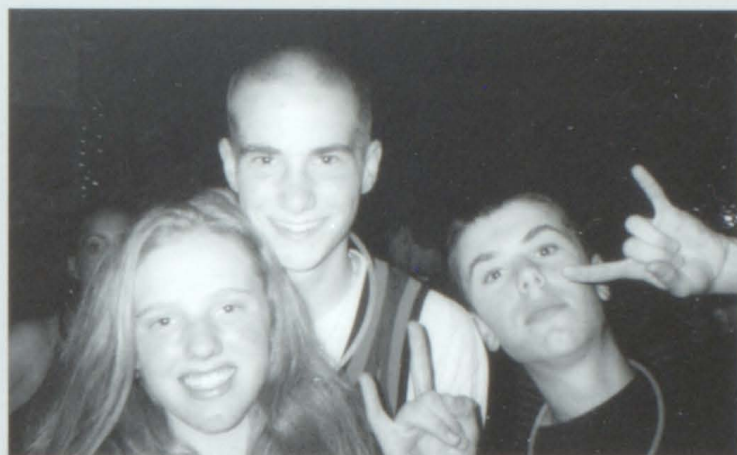

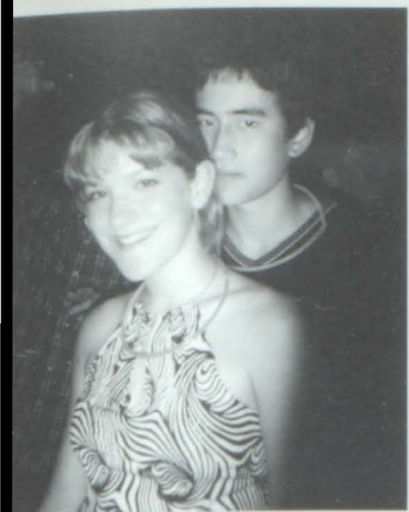

Before we could blink, we were at Village. In fourth grade, we started our nervous journey all over again, small fish in a big pond. We gained a year, and when starting 5th grade, we were pros; we looked at the shaky fourth grades with sympathetic amusement and envied our sixth grade peers. By the next year, we were ready for middle school, and our big pond looked miniscule. We were destined for Shaw.

Though our beloved Shaw was disheveled and slightly hazardous, it was the closest thing to adolescence we had ever known. We learned maturity in a way no other 8th graders had, through our nations need for unity. We experienced many firsts at Shaw, our first dances, first "relationships", first kisses, and first lockers, first detentions, and our first glimpse of freedom.

Our next step was high school. Although our first year flew by, our high school days seemed to stand still. We walked in on the first day freshmen year and looked up to the seniors as gods, with their college applications and life plans worked out. They were sports stars, musical sensations, and super geniuses. They were what we aspired to be, and four years could not come soon enough. Despite the overwhelming accomplishments of our fellow students, our class began to set standards from the start, in sports, the arts, and academics. We continued onto sophomores year; we were invincible, feeling as if we ruled the school with only one year under our belt. The feeling of invincibility followed us into junior year, where we were confronted by SATs and prom. Now, we find ourselves in the final hour. Senior year. The god-like feeling has disappeared, and been replaced by an overwhelming fear of change and excitement. In some ways, we are the same 14 year olds who walked in on an early day in September, eager for what is to come. But now we are being pushed towards the future, to the schools we will attend, to the jobs we will hold, to the loves we will find and to the experiences we will grow old with. As a class, we met the precedents set by our elders, and achieved greatness in every aspect of high school, and I know that we will continue this tradition everywhere we go.

Congratulations and Good Luck Class of '06!

I won't list my friends because you know who you are, and to you I offer a friendly poke! You are the coolest bunch of uncool people I have ever met, and I wouldn't have had it any other way. I am not sure what to say about high school except that, without it, I wouldn't be who I am. I am not sure if this is good or bad, nor do I care because I am happy with how I turned out. Finally, if there is anything I learned during my high school years it is that driving brings out the stupidity in people. I do mean all people. I feel like the biggest idiot when driving. Think of the things we could apply our stupidity to if it wasn't wasted on this environmentally hazardous means of transportation!

Heddo, Goodbye!

It flew by so quickly...

But I managed to learn a little

Here's what sticks out the most:

1. God has a place for all of us.

2. Spanish is like a computer. Hm?

3. No substitute for work ethic.

4. No substitute for good friends.

And on the latter, you all know who you are. I love all of you.

It's been real, GHS.

Even if we only had an hour

Mom and Dad: Thank you for letting me find my own footing but for pushing me all the way. Ted: Good luck, find something you love and go for it. To everyone else, making it here was never the question, only how we did it was up in the air and now it's done so here it is: beaches, mud fights, "snotalicious" camps, backyards, pool parties, paddling, skiing or trying to, crazy clothes, skateboarding down the hill, Latin period 7, sledding, cooking steak, hair cuts, bridge jumping, "squish him like a bug," Christmas tree chases, scooting around like a dog, roller-skating, chairlifts, scratched tables... Congratulations 2006! We've all finally made it. I know for me that these past four years have been more than I could have ever asked for. To my friends that have always been there for me, I can't thank you enough. You are the reason I have had such an exciting four years. To my family, I love you all lots and I really appreciate the fact you have always been there for me to turn to. I don't know where I would be without you all and the terrific memories we've shared. Life just wouldn't be the same without perma-oogers, "s"entials, pueден, construction cones, hunk-a-saurus, running through tick-infested fields, bathrooms that double as libraries, juice & cider, and of course meow. I can't wait to see what the next years will hold. Thank you and good luck 2006!

The friends and acquaintances I've made in GHS still never cease to amaze. Even after years of close familiarity, they continue to confuse, surprise, horrify, and honor me. I couldn't have asked for a more pleasurable group to graduate with, and I wish everyone luck in the future. And, years down the road, I hope we all find some way to implement these fantastic thesis-paper-writing skills of ours. Such education is precious, obviously.

The relief that comes with saying High School is over can't be summed up in words for me. What a struggle, what an adventure. We all learned a lot about ourselves this year, like who we are and who we're going to be. Whether it was being hassled in English class or playing football with friends, we were changing and discovering ourselves, hopefully for the best. I couldn't have done it without my friends, especially my BF ZF and my GF DD. Good luck to everyone.

Someone once told me that, "High School is like a fart in a spacesuit." And to this day I haven't the faintest idea what that means. I can't believe that it's been four years. High school has been full of good times, especially times spent with friends!! I would like to say that summer vacations are the best part of high school, but they aren't. I had the most fun in and out of school during the year and that's all because of my friends. Charlotte, Anna, Matt, Ben, Elliott, and Jon, you guys have been stead fast friends since middle school and some of the best memories are with you. SP, HW, MF, JL, MK, SP, TL, RD, EM, SE, JG.

To all those who have ever loved me; to all those who ever ventured to call me friend...Thanks. To those whom I would term friends, we've shared a varying range of experiences; most of which have been asinine indulgences in nefarious puerility. We've partaken of many frosties and INTENSE cribbage matches. We've contributed to America's moral decline, with our vaunted vulgar vernacular, which is always "classy, karing, classy." Sometimes it worries me that we obstreperous hellions of society are to inherit this earth, but I laugh it off; I've already built up enough bad karma, everything else is icing on the cake, so I don't despair over it, I crack open an apple beer and let the chips fall as they may, for I deserve everything that comes, as do all of you. That's all. Sarah Roberts is cool.

Above all, I would like to thank my mother, father, and sister for their care and support for my endeavors. I would also like to thank all of my friends, present and past. You all know who you are, you've all affected me in one way or another, and I think very highly of you. And to the rest- classmates and acquaintances- it's been a pleasure. Really. Now that I have successfully avoided superfluity, I'd also like to do the same with one of those tasteless, hackneyed "inspirational" quotes. :-< ("All the world's indeed a stage And we are merely players Performers and portrayers Each another's audience Outside the gilded cage." High school has gone by a lot faster than I ever imagined it would, and it's going to be sad to leave this place. GHS will always be the place where I made great friends and learned invaluable lessons, whether I wanted to learn them at the time or not. I'll always remember the fun times we've all had. The past four years really have been the best in my life, and I want to thank all of my family, friends, and teachers who were there with me the whole time. They all know who they are. This is finally it! The end of High School, and the begining of the rest of life! The last four years have certainly been memorable and enjoyable, if not far too short. Suffice to say that these years would not have been nearly as easy or beneficial for me without the obliging support of my parents and family. For that I must extend a great deal of gratitude. Likewise, High School would not have been nearly as entertaining without the camaraderie of my friends and colleagues. CB, JB, KF, BF, SH, KJ, MS, JG, EB, SS, and many others I'm sure I've forgotten-thanks for all the good times! Good luck to the rest of the graduating class of 2006, and may you all find happiness and satisfaction in your future endeavors!

When I came here my sophomore year from Virginia, I'd have to say that I was pretty nervous. It was a new school, new start; I didn't know anybody and I barely had any family. However, you all made me feel welcomed and introduced me to jolly ol' GHS. I just want to say thank you to all of you. I want to thank all my friends and family. Thank you Mom for raising me and instilling in me the knowledge and values that I will need in life. Thank you Dad for all your wisdom and for pushing me to always do my best in everything. It's been a great three years and I will never forget them. The class of 2006 is utterly THE BEST and I will miss you all. Good luck in the future and stay classy '06. Congratulations Gorham High class of 2006! We finally did it.

Brenna Nicely

The future is like the present, only longer and more expensive. It's not what it used to be, but for some reason, we think it will be better tomorrow. The future is full of silence, unpredictable and inexpressible, until we can put it to music. Opera is when a man gets stabbed, and instead of bleeding, he sings. Wagner is better than it sounds. Listen for meaning, not notes, because notes don't matter. Music is an invisible anomaly; we cannot understand it, we cannot give it reason, no one can fully master it, and our minds cannot conquer it; Those who try are amateurs. And hell is full of musical amateurs. I will not be one of them.

Jacob Nicely

Well I've learned to read, so I guess it's time for me to go. It's been fun, I can't believe its time to actually graduate. Why try? I know why
The feeling inside me says
It's time I was gone clear head, new life ahead
I want to be king now not just one more pawn
Start a new chapter, find what I'm after
It's changing every day
The change of a season is enough of a reason
To want to get away
Fly by night, away from here
Change my life again
Fly by night goodbye my dear
My ship isn't coming
And I just can't pretend
Quiet and pensive
My thoughts apprehensive
The hours drift away leaving
my homeland playing a lone hand
My life begins today

Ah yes my last year in high school, the end of the beginning. School had its rough times, because school has a tendency to do that to you. There were also some really good times that were to be known and people we shall remember. Thank you Kat, my wonderful girlfriend who brought serenity to my otherwise unequal world. The boys team had a lot of fun this year. We had a lot of boys come out for the team this year which helped us to finish 10-5 and 6th in the state meet.

The girls team had a great season. We had enough girls to place in the meets. Everyone worked really hard as a team and improved drastically as the season progressed. It was a lot of fun!

Our team really played well this season. There is a lot of talent, and we've come far playing together as a team. We did a great job in class A, ending our season 13-2-1. The team was close and everyone had an important role. It has been a great four year trip for the seniors!

This year we easily made the transition into class A. As last years defending state champions, we knew that teams would be out to get us. But did that stop us? No! we finished the regular season 13-1 with a 13 game winning streak. Class A playoffs, look out!

You have given us so much love, laughter and joy over the last 18 years. What fun we've had... Rangeley, camping, skiing, snowmobiling, boating, family vacations, spaghetti dinners, annual trips to Pittsburg, and many more good times to come. What memories we have...what's even better is that I know that we have so many more to come. You can always make me laugh and you always were there to keep me on track! Keep that same fun-loving attitude you have. It really makes you who you are! Enjoy life after high school and have fun, especially when I come visit! I may be your younger sister, but you know that I will always be there for you. I don't tell you enough how much I look up to you. You are the most constant person in my life and we will always be best friends. I wish you luck with everything that you do and I know that you will be successful. I love you sis, Meg

Take your time ... Don't live too fast,
Troubles will come, and they will pass.
Go find a woman and you'll find true love,
And don't forget son,
There is someone up above.

And be a simple kind of man.
Be something you love and understand.
Be a simple kind of man.
Won't you do this for me son,
If you can?

Forget your lust for the rich man's gold
All that you need is in your soul,
And you can do this if you try.
All that I want for you my son,
Is to be satisfied.

Boy, don't you worry... you'll find yourself.
Follow your heart and nothing else.
And you can do this if you try.
All I want for you my son,
Is to be satisfied.

Will:

It has been fun to watch you grow. We are proud of
the young man you have become. You bring joy to
everyone that knows you.

You will make new friends wherever life takes you.
Enjoy every day, but remember where home is.

Love Mom, Dad and Diana

Phil Reed

Philip, be a simple kind of man.
Come and sit beside me, my youngest son
And listen closely, to what I say. If you do this
It will help you some sunny day.

Take your time... Don't live too fast,
Troubles will come, and they will pass.

Forget your lust for the rich man's gold
all that you need is in your soul;
and don't forget son,
there is someone up above.

You can do this if you try.
All I want for you my son,
is to be satisfied. -LS-

Chelsea Rondeau

From the very very moment you were born there was a sense of purpose in you. A need to plan and work and see things through to the outcome you intend. You work hard when you could take it easy. You play hard when you could slack off. You have a commitment to whatever you make up your mind to do ... "I am going to walk", you walk. "I am going to ride my bike", you ride. "I am going to learn to dance", you dance.

"I am going to learn to drive", you drive.

There will be times when things you do do not go according to your plan. Just remember, if you did the best you could then it was not meant to work your way.

I hope I have taught you even a fraction of what you have taught me and all who love you. You are wonderful, bright and thoughtful person - daughter, sister, friend, and more. No matter what you do, make it all yours. Follow your dreams, follow your hearts and your instincts all are solid, all are good. Don't be afraid to make mistakes, sometimes we learn more from our errors than in the moments we shine. Do your very best, no matter what you do, no one can ask more than that of you and you won't be satisfied with any less. You have made us so very proud Chels and I know you will continue to do lots more of the same.

Love, Mom xoxo

Chelsea Rondeau

Boog - You're the greatest sister I could ask for. You've helped me with a whole lot I couldn't have dealt with alone. Always remember I'm here for you so you can have someone who can help you deal. Least I could do, you know? I can't thank you enough for everything you've done. And I can't tell you how much I'm gonna miss you. "It only works when it's not your sister."

- Kelly Nicole, I love you sissy.

Jonathan Crawford

Dear Jonny,

You have grown into such a fine young man and continue to make us so proud. You are everything we dreamed you would become and more. Your exurbance for life gives us joy and we love your smile. So, now you are graduating and will start your new life in the Midwest next year. The only thing that makes lettting you go so bearable is knowing how happy you will be as part of the

Notre Dame community at Holy Cross (and hopefully Notre Dame one day!!!). We have always admired you for following your dreams and setting high aspirations. We hope the world will be kind to you. Always give your best, seek balance, take time to play, always speak from your heart and love life as much as you loved it as a little boy. Appreciate all that is beautiful, keep that smile and laugh alot, find inner peace. Never fail to see the good in people, and continue to learn everyday. Never lose touch with good friends. Stay committed to your dreams and cherish life. We will always be behind you! Go IRISH!

With love and pride,
Mom, Dad and Jamie.

A wee bit of time ago our little lad did play....
Then quick as a wink, you're off and on your way.

Though you are number three in our family
You always strive for the best you can be
From outgrown jackets to tennis rackets
You'll be an "Ace" in any race!

It's hard to let go, but we want you to know
though you've heard "Do as your told," we
wouldn't trade you for a pot of gold.
Thanks for all the love, humor & fun. We're so
proud of you, our son.

Love, Mom, Dad, Matthew, and Jennifer.

The Group

A bond has grown between us,
A special friendship we have made,
One to last a lifetime,
And hopefully never fade.
You're the one I turn to,
When I lose my way,
And you know that I am here for you,
Every night and everyday
I can trust you with my secrets,
And keep nothing locked inside,
You know everything about me,
I have nothing left to hide.
I'd be lost without you.
But if we were ever far apart,
We'd still be bound together,
Because you're always in my heart.
So I hope by now you realize,
And I hope that you can see,
That if I ever lost you,
I'd be losing part of me.

XOXOXO

Becky,

Over the years you have amazed me with your deep sense of care and concern for others. You've bowled me over with your winning smile and your sense of maturity.

I have watched every step you've taken towards the person you are today and I am very proud of you.

You are off to college now, yet another step to who you will be tomorrow. I know I have to let you go now, but I will always remember the first time I held you and I didn't want to let go. It will be so much harder to let you go this time because I don't want to miss a moment of your life. It has been so unbelievable and I have enjoyed every moment.

You are precious to me and I love you - MOM

Matt Wyman

Well Matt you have finally made it to graduation! Looking back was it really all that horrible? We would like to thank you for being the kind of a person every parent hopes their child will be. From go-kart racing, to motorcycle racing, to stock car racing you have learned how to handle the disappointments as well as the victories in life and have always come out a stronger and better person because of them.

As you pursue your dreams and passions, take some time from working hard and always find time each day to relax and have a little fun!!

Love,
Mom, Dad and family

Devin Pearson

Hey Devin

While the uniform has changed a little, and ya got just a little bit more facial hair, one thing has remained constant between these two photos: You are an independent, creative person who does his own thing. You will make an excellent Air Force pilot and end up looking more like the kid in the battle dress uniform than a high school swashbuckling pirate (no beards in the Air Force, sorry.) As you journey down the driveway for college, we offer an Irish Blessing to guide you:

May the road rise to meet you,
May the wind be always at your back,
May the sun shine warm upon your face,
The rains fall soft upon your fields and,
Until we meet again,
May God hold you in the palm of His hand.

With All Our Love Always

Love,

I hope you never lose your sense of wonder
You get your fill to eat but always keep that hunger
May you never take one single breath for granted
God forbid love every leave you empty handed
I hope you still feel small when you stand beside the ocean
Whenever one door closes, I hope one more opens
Promise me you'll give faith a fighting chance
And when you get the choice to sit it out, or dance
I hope you dance ... I hope you dance
I hope you never fear those mountains in the distance
Never settle for the path of least resistance
Give the heavens above more than just a passing glance
And when you get the choice to sit it out or dance
I hope you dance... I hope you dance
Time is a wheel in constant motion always rolling us along
Tell me who wants to look back on their years and wonder
Where those years have gone
I hope you dance ... I hope you dance

Sarah,

As I was looking for a quote to use I realized that nothing would be able to sum up the past 15 years we have spent together. A few lines will never be able to show how blessed I am to have someone to share the memories of my childhood. Granted, we've had our ups and downs, but we always come out to standing strong in the end. Thank you for always being there to put the band-aids on my boo-boos, to be my partner in crime, and my shoulder to cry on. I know you will go on to achieve amazing things and I am proud to call you my sister.

Brad,

You have grown up to be a wonderful young man. You have many great qualities about you, but the ones that stand out are: 1. You have goals and dreams and are willing to work hard to achieve them. 2. You are very intelligent, must have acquired this from me! ha ha. 3. You are genuinely nice person. Your compassion for others is one of your best attributes. Don't ever lose this quality when striving for your dreams. You have what it takes to become whatever it is you choose to be. What I want most for you in your future is to live life to the fullest and enjoy yourself on your journey. I want you to know that wherever you are, you are always in my thoughts. Josh Tanguay

Josh,
It has been such a wonderful and exciting journey so far. It is my hope that you continue to discover all that is around you. May you continue to look at life with your sense of humor and when times are hard, remember your faith, as it will always carry you. Remember the many friendships you have made in high school and the adults that have mentored you. Never lose site of who you are and always have the courage to stand up for what you believe in. I am so proud of you Josh. The greatest reward of being your mother is telling people that you are my son!

Love you,
Mom

Josh,
I find it difficult to express the pride in you I carry with me each day. From the first time I held you to each time I watch you drive away, my pride in you overwhelms me. Your accomplishments, in a short period of time, are many, but they pale in comparison to what is yet to come. Hold fast to your beliefs, may they guide you in the days to come. Take comfort when difficulties come your way knowing that you have fulfilled a great part of life.

Stay true to yourself and always remember we love you unconditionally and are so very, very proud of you. Thank you for 18 wonderful years.

Memories

I remember the time when I fell off my bike and you helped me back on. When I thought I only had a brother and I looked deeper and realized I had a friend. It was a friendship that no fight and no amount of hate could take away. A brother who was there when I got hurt and a brother who was there to defend me so I wouldn't get hurt. I thought I lost him once and it took that one time to finally realize what I had, and what I had was love. No matter what college or wherever God takes you in life we will always have our friendship and all those memories.

Love your brother and friend

We are so proud of all you have accomplished, and what is yet to come. Along with high morals, you are kind, compassionate, intelligent, respectful, and funny - qualities that will take you far in life. May you never long for love. May your struggles make you stronger. May you laugh everyday and enjoy life's simple pleasures. Follow your dreams and do what you love. Have no regrets! We will always love and support you in all you do - good times and bad. You have truly made being your parents a blessing and a pleasure.

Congratulations, you are standing on the threshold of life. Your hard work and diligence has paid off. This time of celebration brings memories of joy and love. From watching you scream at 8 years old while an iguana sat perched on your head to the strange sadness we felt as you drove away the night you received your license. Your mind is sharp and your heart is warm. Your love of Christ and family will always be a safe harbor in the storms of life. With great joy we will watch as you experience the world and what it has to offer. With great sadness we will come to grips with the dwindling time we have to share a Saturday morning batch of pancakes. Go make your mark on the world and know that we love and will always be proud of the man you have become.

We love you,
Dad

Graduating from high school is one of the first big milestones in all our lives. This is both an exciting time and a time of regret as you leave the old and known behind and embark on the next venture in your life - college. You have come so far; from that little guy I used to ride bikes on the beach with to a fun loving young man with so much to offer the world. I hope you enjoy the next phases of your life with you as you accept the path God has chosen for you.

With love,

I love you,

You always said "When I'm 18 I'm outta here" Guess I didn't really believe you because now that it is almost here I don't want you to go. Yes, I want to see you move on and have an exciting life, and yes, I'm being selfish when I say I don't want you to go. It's just that I will miss you so. I'll miss your gentleness, your smile, your sweetness, your helpfulness, your generosity, I'll even miss your occasional bad moods. However, I think the thing that I will miss the most is your fairness and the way that you never judge people. I don't think I have ever met anyone who so respects the privacy of others as much as you do, I hope that never changes. May all your hopes and dreams come true, and I'm sure that if you dedicate yourself to all you do in the future, the way you did when you wanted to dance, you will be successful. Yes, of course I had to mention your dancing, because I was so proud of you and how you made it happen in spite of the obstacles, and yes, I hope you continue it some day.

So, congratulations on your accomplishments this far, best of luck in all you do, and don't forget to have fun along the way.

Love, Mom

Elizabeth "Biz" Fontaine

We knew you would do just fine in school when at age 4 you told your teacher that you were very mature for your age. You have not stopped surprising your teachers, friends and parents with your unique life observations and wit.

Whether playing piano, guitar or saxophone, your talents never cease to amaze us. We are so proud of your many musical accomplishments and awards.

You have a good kind heart. Your firm beliefs of right and wrong and your willingness to take a stand, sets you apart. Above all else, you have always been true to yourself. We love you and are proud of you.

Chelsea Tanguay

Chels - No words I write down can explain the last 14 years we've spent together. From dress-up + dolls, sharing clothes + make-up, boy talk + rides in the car, we've laughed through it all. You have been such an inspiring and unique person to be around and I can't imagine what I'll do without you around everyday. I hope you go far in life and always follow what your heart tells you... wow, such a motherly thing to say. Anyways, keep dancing if it's what you want to do, and make sure you get what you want out of life. Thank-you for all the memories, laughs, car rides and hours of talking we've had together. I'll always be here for you to talk to. I couldn't ask for a better big sister ... You basically rock.

Love always,
"smelly"

To My Darling Daughter,

From the first moment I saw your beautiful face I knew you were a gift. What I didn't know was how wonderful it would be to watch you grow up. I've cherished every moment, for it goes by too fast... learning to read Hop On Pop, "cheese girl" sandwiches, learning to swim and eating strawberries at Grammy's pool, the jeans and t-shirt stage and the shorts and boots, becoming a sister-twice, learning to NEVER argue with you because you're always right, Mrs. Carlson's class, your 8th grade car project, DSOM, Knicks, NYC, California, how spectacular you looked for the prom, how gracefully you handled the adversity life can offer, how admirably you faced problems head on, how beautifully you offer friendship, how enthusiastically you learn, how fearlessly you tried new things (cheering and lacrosse) and gave it your all, how willing you are to do what's right and how you stand strong for what you believe in.

Now you're all grown up and ready to head out and start the next chapter of life as an adult. The doors are wide open and you can choose anything and everything. Have a fantastic time in college. It's time for me to share my gift with the world!!! You will do great things, Chelsea ... go for it!

I love you my darling daughter.
- Mom

Wow! Can you believe 18 and graduating already? When you were born it was one of the happiest days of my life. You were such a fast learner, your first word, first tooth, first step, earlier than the average kid, but then again you were not average. Over the years you've excelled in education and dance, you had all the right friends. You became a big sister and an excellent mentor to them both. There is no way you could make me any prouder than I am now. Whatever you choose to do in life I'm behind you 100%. Follow your heart and dreams, enjoy life, have a great time at college, I love you so much. Thanks for being you.

Dad

To My Granddaughter,

Chelsea, I hope all your dreams come true. Just keep that winning personality and beautiful smile and all the doors will open for you. Love you, Gramma and Carl.

Chelsea:

Ever since you were a little girl we knew that this day would come. No matter what you did you excelled in it. You are a special granddaughter to us. Good luck in college. Love, Papa and Nana.

I hope you never lose your sense of wonder
You get your fill to eat
But always keep that hunger
May you never take one single breath for granted
God forbid love ever leave you empty handed
I hope you still feel small
When you stand by the ocean
Whenever one door closes, I hope one more opens
Promise me you'll give faith a fighting chance

And when you get the choice to sit it out or dance
I hope you dance
I hope you dance

Dear Chelsea,

I'm glad you are my sister and I love you very much.

Love,
your sister Jackie.

You surprised us by arriving 16 days earlier then expected, and we have been in awe of you ever since.

From Cary to Gorham, we moved north before you learned to speak "southern," but North Carolina will always be a special place for us.

From the preschool to the high school, you've grown not only in feet and inches, but also in maturity and knowledge. Your teachers and coaches have prepared you well.

You have been a loyal and generous friend, a caring and protective brother, and a loving and thoughtful son and grandson. You have worked as hard off the field as on the field, and been ready for every challenge. Your muscles came from lifting weights, your strength of character from within. Papa and Nana Carole would be proud.

From T-ball to baseball, from soccer to roller hockey, from basketball to football, you've played them all and been a champion in every one. Your goals have a plan and your plans have made your dreams come true.

From Scotty to Coach K., from coach Marquis to Coach Kilborn, from the Concord Blue Devils to the Duke Blue Devils, from Dave Matthews to Kiss, we share your passion to succeed and for the very best life has to offer.

We'll miss your Friday night under the lights, Keep your feet on the ground and keep reaching for those stars. Always carry a nail, remember the rules of Ken and Buck, and never take any grief from anyone!!

Where will we go from here? I can't wait to see! The possibilities are endless, and you have so very much to offer! Use your gifts; leadership, creativity, your sense of humor, your strong sense of logic, your charisma, which shines through in your beautiful smile. Keep God close. Don't be so quick to judge. You might miss something really great.

We have certainly faced our share of ups and downs, you and me. We struggled some. We laughed a lot. Through it all we were always able to talk, and I am very glad for that. Thank you for always being there with a hug when I needed it most.

It has been an interesting ride Elliot, and I would not trade away one minute of it! I treasure every memory and I love you so very, very much!

Kevin,

My youngest, my challenge, my friend. It has been amazing watching you grow into a fine young man. You are one of the most intelligent, kind and funny people I know. I have not always agreed with your choices, but you have always followed your heart, and I admire that. Though you have chosen difficult paths for yourself I want you to know that I will always have your back. Continue to believe in yourself and fight for what is right. Do not be afraid of what others may say or do, but go into the world with your head held high and go after whatever it is that you want for yourself. I believe in you son and I know you will find your way to happiness and fulfillment.

I love you, and always will.

To my inspiration,

You made mornings worth getting up for, with your bright and sunny smile. To watch you grow for the last 17 years has been an inspiration and delight. I watched you make friends, help the handicapped and be with the seniors at Gorham House because you wanted to. I've seen you overcome all obstacles placed in front of you, despite the fact you were told you couldn't do it. This goes to show you'll be great at whatever you do in life. Stay strong, stay loyal, and stay free.

wondering what comes next

Now is next--
still awkward grace still straight on
but gazing through her own camera
and we are left to wonder

Our baby girl is growing up. A whole new life awaits. Writing this makes me feel like I am saying good-bye while I fully realize we, as family, are just embracing a new dimension in your life. I hope that we have helped you build a great foundation. We are proud of you and of all your accomplishments, both personal and academic. Your success, your being, is not an accident but a result of hard work, integrity, sacrifice, and family love. Remember that we love you, respect you and totally support you in everything you do. We'll continue to give advice but will respect your decisions. You're a young woman now and your life is truly your own.

Love,
Mom & Dad

You will always be my "bundle." I love you and I am very proud of you.

Ryan Letourneau

Ryan- Where have all the years gone? They have flown by so fast and I would do it all over again in a heartbeat. Being a mother to you and Sara has been my greatest joy. It has been a road paved with many, many blessings and some sorrows. I know that if your father were here, he would tell you how proud he is of you and the person you have become. Ryan, you are a kind, compassionate, strong guy with such a great sense of humor and, oh, such a contagious laugh. I love to hear you laugh and you are a pleasure to be around.

Ryan, I love you so very much and I am so proud of you. You know what you want and you have a very definite plan for your future. Continue to reach for your dreams and make sure you stop and enjoy life along the way.

Love, Mom

Dear Ryan, How can I say how very proud I am to be your sister? You have been my friend and partner in crime. You know you can always come to me for anything. We have been through so much, and you have always been there for me, as well. I am so proud of who you have become and the goals you have set for your future. You AMAZE me with your determination and passion you never do anything half-way. I know that you will have a fantastic time in college and you will accomplish anything you set your mind to.

I hope you always know that I love you and I am so grateful that God blessed me with such an amazing brother, even if you ARE taller than me. I love you and am so proud of you.

Congratulations, Ryan. You should be very proud of yourself.

Love, Sara.

How can I find words to tell you what it means to be a part of your life as you have grown into a young man with clear goals for your future. It has been very important to me that I have been a part of the many activities that have shaped your life. I have loved our many conversations in my kitchen and look forward to many more.

I wish you success in all you do and I am very proud of you.

Love, Moo moo

We have shared such great times-sledding, planting bushes, building model trucks, dancing, boogie boarding, brunches, and card games.

I wish you the best as you graduate from high school and pursue your law enforcement career, whatever you do, I know you will approach it with tenacity, intesity, commitment and wisdom.

I am proud of you, and look forward to creating more memories.

Love, Bo

Brittani Fleury

Brittani,

From the moment you were born, we knew you were special -- you were such a sweet baby. As you grow, you developed a beautiful, kind and generous nature -- you always seemed to be giving to others. We'll never forget the parties you planned for your friends, your willingness to volunteer whenever needed, the countless t-shirts you made.... We couldn't be more proud of you and all of your accomplishments.

It's difficult to believe eighteen years have passed. We'll treasure our memories and anxiously await what the future holds for you. There's no doubt in our minds you'll be successful in your life. Your artistic talent, intelligence, incredible work ethic, fierce independence and compassion will help you achieve whatever goals you strive for. Please remember we're always here for you if you need us and we love you more than words can say.

Love,
Mom & Dad

Big sister, you are going to college soon. I'm going to miss you yelling at me and making fun of me [believe it or not]. But most of all, I'm going to miss having you around. I love you no matter how many clothes you steal from me.

Mucho Love your little sister,
Lauren

Caitlyn Gruver

To my Caitlyn,

The years have passed so rapidly. So many times I looked back to your childhood. I think of the first time I watched you walk toward me, your arms stretched straight out. I remember pushing you on the swing set hearing your first words, and our bicycle rides together when it seemed you and I were the only people on earth. I think back to holding you in my arms as a tiny baby, and I think of that sigh you made - the sigh that made me want to stay home from work and stare into those beautiful eyes all day. Watching you weave your own path in life has been exciting for me. The changes you have gone through just these past few years have been amazing. From the time you were a little girl until now, I knew you would grow up to be someone very special. You touch my heart in a way no one else can. I have the confidence in your ability to find your place in the world. You will always be my monkeys, my sunshine. I love you to the moon and back.

Daddy.

Sugar Bear,

I am very proud of the beautiful, independent, young woman you have become. Your journey is now just beginning. Always remember to stay true to yourself and follow your dreams for they will take you far. And remember, I'm always only a phone call away! Love you so much,
Mommy xoxo
