## *Note From The Editors*

Having been friends since the age of three, it was extra special for us to collaborate as editors this year. We are very pleased with the result and hope you enjoy it. This yearbook could not have been possible without the help and admirable dedication of Mr. Wojtal and his long arm. We would also like to thank Hannah Lilly and the rest of the amazing yearbook staff. Even the random people that came and ate our food made the experience all the more enjoyable for us. Here's to the Class of 2008 and the many great yearbooks to come.

## Lauren Elizabeth Hawkes

The big cheese, it just fits! If you have ever known someone who loves following trends, crowds or directions Lauren Hawkes is the complete opposite. Her smile could brighten the worst of days, and her laughter was as contagious as yawns. Whether you were a classmate, a friend, or an acquaintance, she probably touched your life in some way. She had no problem with speaking her mind or just being a complete fool in front of anyone. If you ever wanted an honest answer or you just needed a good laugh, Lauren was the right person to go to. She was always the life of any party. Lauren was the type of kid that didn't let anything bring her down; it was her way or the highway. Many of us lived our lives revolving around her, whether she wanted the attention or not. She lived her life without a care in the world until she was diagnosed with leukemia.

Through her three year battle with cancer she remained positive. She could always bring a laugh into her sterile, white hospital room with her stories of evil nurses and rogue doctors. She brought smiles to the entire hospital as she walked down the hall with her IV pole in one hand and a string of ducks in the other. Nobody would bother asking, that was just Lauren. Her time with us here on Earth came to an end on July 21, 2003. We would like everyone to remember Lauren as the girl that could make any room brighter, the one that could get a laugh out of every awkward situation, the one that taught us all to live life to the fullest because you never know how your hand could be dealt.

*"Life is like pudding: all mushy but yummy."* - Lauren Elizabeth Hawkes  
May your smile in heaven shine as brightly as it did here on Earth.

# In Memory Of

## Brandi Kathleen Coleman July 13, 1989 - March 18, 2007

Brandi Coleman was born on July 31, 1989 to Charles and Gail Coleman. She has an older brother, Marcario who is currently in the Marines, a younger sister, Dezi Coleman, a sophomore at our high school, and a younger brother, Charlie, who is in eighth grade at our middle school. She was training to get her black belt at Fourniers Karate School. The black belt was presented to her family after the accident. She was also in the public safety class at Westbrook Arts/Technology School. She had such a big heart and loved everyone that she met. She loved to be outside, go skating, to be with her friends from Westbrook, and she always had a huge smile on her face. You always knew when she walked into a room because her smile would light it up. She was a best friend to everyone and will forever be greatly missed and loved by many.

### *Thinking of You with Love*

We thought of you with love today,  
But that is nothing new.  
We thought about you yesterday,  
and the days before that too.  
We think of you in silence,  
We often speak your name.  
All we have are memories,  
And your picture in a frame.  
Your memory is our keepsake,  
With which we will never part.  
God has you in His keeping,  
We have you in our hearts.  
A million times we've wanted you.  
A million times we cried.  
If love could only have saved you,  
You never would have died.  
It broke our hearts to lose you.  
But you didn't go alone.  
For part of us went with you  
The day God called you home.

# Farewell

## John Drisko, Principal

Mr. Drisko, we take this time and space to say "Thank You" for your dedication and effort in all things at Gorham High School. You have given new meaning to the title of Principal, leading Gorham to the forefront of Maine's secondary educational systems. You offer wisdom and support to all around you, and you encourage humor and enthusiasm in everything that we do. None who have matriculated or worked under your tutelage here at Gorham these past ten years will ever forget your freshman or senior year exaltation, "Who am I and what do I stand for?" You have made us all think of our place here in this country and on this earth, hopefully for the betterment of mankind. Your years here have truly changed the face of education and character of Gorham. You have made a difference in thousands of lives and for this we thank you. Go forward with peace and love. Good luck and Godspeed.

Sincerely,

The students and staff of Classes of 1999 - 2008

## Kevin Jenkins, Math Teacher, Coach

Mr. Kevin Jenkins has served as the inspiration for many during his years at Gorham High School. Basically famous among students as "The Best Teacher They've Ever Had", he also merits respect in his dedication to his love for athletics. A member of the USM Husky Hall of Fame, Mr. Jenkins has carried his love for basketball onto Gorham's own court and takes great measures to instill this passion of "Pride, Tradition, and Excellence" in his players. Also a former president of the Maine Basketball Coaches Association and former member of the Maine

Basketball Commission, his experience and craft in the sport has led his teams to victory. With a record of more than 350 wins, 11 Western Maine Finals, 8 State Championships, and the winning of the Golden Ball in 1996 and 2000, his history at Gorham has truly been memorable. He gives this same devotion to his students in the classroom. All the while, Mr. Jenkins sets an example for the community, balancing his demanding career with the even more-demanding roles of parent, coach, and mentor. His enthusiastic, determined presence at Gorham will be sorely missed, and we wish him all the best in whichever future is in store for him.

## Mrs. Pamela Thompson, Literacy Specialist

After twelve years of building the literacy program at GHS, Mrs. Thompson leaves students and teachers with the tools required to build literacy skills and the confidence to be successful in their endeavors. Her legacy remains.

On behalf of Mrs. Thompson's students, I would like to say how much we really appreciate her compassion and support. Mrs. Thompson's classroom is a place where we come for a quiet, peaceful environment. Everyone in her class bonds together like a family because of the warmth and security that Mrs. Thompson provides. She strives for each of her students to be successful and makes sure that each individual feels special in some way or another. Not only does this woman blow us away with her intelligence, but her generosity and grandmotherly touch helps us get through each day; with a smile on our faces. It is an honor to have had such a devoted teacher by our sides for this long. Mrs. Thompson will be truly missed, especially by all the students that she made great impacts on throughout our years at GHS.

# Advisor's Message

We can only see a short distance ahead, but we can see plenty there that needs to be done.  
Alan Turing

The only way to do great work is to love what you do. If you haven't found it yet, keep looking. Don't settle. As with all matters of the heart, you'll know when you find it.  
Steve Jobs

Doubt is the origin of wisdom.  
René Descartes

It is not knowledge, but the act of learning, not possession but the act of getting there, which grants the greatest enjoyment. When I have clarified and exhausted a subject, then I turn away from it, in order to go into darkness again. The never-satisfied man is so strange; if he has completed a structure, then it is not in order to dwell in it peacefully, but in order to begin another.

Carl Friedrich Gauss

I don't have a problem with someone using their talents to become successful, I just don't think the highest calling is success. Things like freedom and the expansion of knowledge are beyond success, beyond the personal. Personal success is not wrong, but it is limited in importance, and once you have enough of it it is a shame to keep striving for that, instead of for truth, beauty, or justice.

Richard Stallman

Quotation confesses inferiority.  
Ralph Waldo Emerson

To the Class of 2008:

I came to Gorham High School as a teaching intern in Mrs. McCarthy's math classroom in the fall of 2004, as you were beginning your freshman year. A lot has happened since then. I've learned a tremendous amount from the faculty and students here these past four years and I'm sure you have too.

I had many of you in class as sophomores my first year here as a "real" teacher. And it has been a pleasure to get to know you and work with you inside and outside of the classroom since then. I have learned a lot from you and I hope that some of you have learned a little bit of math from me.

Serving as your class advisor for the past two years has been my pleasure. The hard work of your previous advisor, Ms. Kennedy, and your class officers has made my job easier.

I hope you all continue your educations, formally or informally, because education is really a lifelong process. And I hope that each of you finds something that intrigues you to pursue in your studies. Beyond that try to do something in life that you can be proud of and that you enjoy doing.

Good luck!

# 2008 Class History

For the last 12 years life has been all about education, but education is the last thing I remember when I think back on our past. Our memories are not filled with math equations and history facts, but instead with sports games and parties. We built reputations only to have them knocked down. We made new friends and lost some old ones, and all along the way we learned and grew as people. Leadership, responsibility, and initiative (I think I can safely say that our class was the first to produce its own snow day) are all traits that have been taught to us and in turn have been displayed throughout our years in the Gorham school system. Although some of us have been lost and others have been picked up, many of us in the class of 2008 have been here from beginning to end and all of us have spent some time receiving an education in Gorham.

It started with kindergarten where we learned to cut, color and glue, something that some of us never should have made it through. We also starred in our first play, *Billy Goats Gruff*.

Some of us moved on to Narragansett, others to White Rock. There we discovered kickball and what a real playground was. At Village it was more of the same, and recess became our favorite subject. We also learned what a distraction a Nerf football can be when taken apart and left unattended.

When we reached the middle school we were able to experience Shaw, long since past its prime, before it was wisely closed down. We were rewarded for working through the conditions by being the first group into the new middle school. There as a group we were separated into houses for the last time. When we graduated middle school, we were on our way to the last chapter of our K-12 years.

Moving up from the new middle school where we were the top dogs to the bottom level of the high school was a big change. However, once we had adjusted to being freshmen and all the benefits that came with that status, we stormed through the next three years, picking up both athletic and academic accomplishments along the way.

We became known as the bubble group because of both our size and our wide range of talents. I could list off achievements and brag about our superiority, but I will refrain from stating the obvious. Instead I'll say that this class, the class of '08, has been one that will be remembered. Who knows what we will do after this, but I do know that wherever we go we will leave our mark, just as we have here in Gorham.

While looking for a good quote I found one that said, "A witty saying means nothing", but I ignored it and put the next one in anyway.

Well Class of 2008 it's been quite an adventure. From the first moment I walked into Mrs. Tassey's homeroom, I knew that this school was going to be a bit... different. But, boy, ya'll sure have made my high school career both terrifying and thrilling, like a rollercoaster ride with all sorts of unexpected loops and drops. Both you guys and the awesome teachers of GHS taught me to always question the world and hold tight to my faith, because life's a bumpy ride. I know this will sound corny and you'll probably roll your eyes, but I'll keep ya'll in my prayers.

Good Luck '08

Some people believe that without history our lives amount to nothing. At some point we all have to choose: do we fall back on what we know, or do we step forward to something new? It's hard not to be haunted by our past. Our history resurfaces time after time after time. So we have to remember sometimes the most important history is the history we're making today.

We came, we saw, we conquered! Wow. I have been so blessed. I've learned and experienced more in these last 4 years than many can in a life time! I've learned that 1) God is super Amazing! 2) Don't freak out about the things that really don't matter at all, and 3) ALWAYS look on the bright side of life "whistle". My friends are the best, my best friends are even better. They made the transition into a new school a lot easier, and without them my life the past three years probably wouldn't have been as interesting. For that I am eternally grateful. Wow, it still hasn't hit me yet that high school is almost over. What a ride it's been so far, both stressful and enjoyable, from those tedious 20 page reports to kickin' back in study hall just chillin' with my friends. I'll never forget the good times I've had at this school and the many lessons I've learned. I just want to thank all my teachers, my coaches, and my family for pushing me not to accept mediocrity, to never give up, and, most of all, to be the best person that I can be. High school has come and gone. I couldn't have done it without my parents and teachers who helped me from the start. When I came into GHS I realized what a change it was for me and over the past 4 years I got to see myself change as well. I can't believe I made it and now I am ready to enter the new world next year. "Wait! What is that? It's not a big it's not a plane. That means it must..... A.U.F.O"!!! Ha ha.

Just like to say thanks to all of you who have been there for me, and to those who have come into my life in the recent years. All of you have made the past four years great and I will always remember them. The best of luck to the class of 2008.

Wow four years gone already. I would never have been able to make it through without the help and support of my friends. Mr. Wojtal was one of my teachers but will forever remain my friend. I also need to name my friends that graduated last year, Dave, Mike, Matt, and of course Brian. I can't name all my friends but they have all helped me a lot. Two people I would like to recognize the most are Josh Ward and Alyssa Ettinger, I love you both and you've helped me a lot <3. Thank you all.

Scott Ekin

So, it's been a real fun ride here at good old GHS. I'm gonna miss it. To my mom and dad, thank you for the encouragement throughout everything I've done. Mom, I'd have gotten nowhere without all your rides + support, thank you.

All of my friends, thank you for everything, I can honestly say that I would not be where I am without most of you, I love you all.

Good Luck class of '08!

Four years goes by in a flash. One day you're a freshman, now the seniors count down the days left 'till graduation. A lot has changed in the last four years, I never would have imagined joining the army. Now I'm in the army and I have already been to basic training. I'm here to finish strong and make it the best year at Gorham High School. To all my friends and family good luck. Thanks Mom and Dad.

Alyson Fearon

I want to first start w. thanking my parents for always being there for me. Without your guidance and love throughout the years I would be nowhere near who I am today. Meg & Cody - you're irreplaceable. To my friends; I've got so many memories that I'll always hold on to, and keep close to my heart! To the track team; it's been an amazing four years! And finally to the class of 2008; good luck, I'll be seeing you soon!! <3

2008, it was never a question if we would make it, it was a question of how we would cross the finish line. To my family, thanks for always being there to support me. To Alison, thanks for helping me through all those times when I had no idea what was expected of me. To all my friends, I won't list names because I'll forget someone and they'll be annoyed. Well it's been fun, think of all those times we've had. To everyone else, thanks for helping me become who I am today.

Matthew Fenton

Congratulations to the Class of 2008. I still remember my freshman year thinking, "There's no way that'll be me in four years." This write-up proves it can happen. Looking back, the time has flown by. Mom & Dad I love you - couldn't ask for better parents. Brittany you have been my closest sibling and I can't imagine these past 17 years without your presence. Jim and Paul, you have been such great brothers, I can only hope to be as successful as you guys one day. IP AB my best guy friends 3 years running. The trio will stay close long after college. To the students and faculty of GHS, you've made me the person I am today. For that I am forever grateful. GHS will be greatly missed, but the memories will last forever.

Veniamin Filatova

I came from Russia to Portland, from Portland to Gorham. Been hard, but I made it. No one was helping. But after I met Mrs. Beckwith, she gave me nice help. She helped me a lot in English and grammar. I started to learn and changed after working. Now I am proud of myself and my progress, because I have knowledge of God and the studies.

Tatiana Filatova

I want to say thank you for all the help over these past two years. A big thank you especially to Mrs. Beckwith for her huge help at GHS. Thank you to all my teachers, my counselor and principal. Thank you also to my Portland HS teachers and a big thank you to my church friends especially (P.O., G.K., F.K., S.A., P.F., K.A.) Thank you to my parents and my family. I love you all!!!!

Thank you to the ones who helped me grow and the ones who taught me how. Friends and acquaintances, I couldn't have done it without you. I will miss you all so dearly. Finally, we have reached the beginning of what actually matters. We're all off to new and better things, it will be strange without all of you. I wish you all well, good luck.

Look how far we've come

Wow! I can't believe that we are finally going to be graduating. It seems like yesterday we were all playing together at recess. I have had such a good school experience and I wouldn't change a thing. I thank my mom for always telling me that I could do better and never giving up on me when I didn't do my best, and dwayne for always being there for me when I needed help and telling me that it would be okay. After I graduate I plan to go to college after summer gets over for medical assisting to pursue my dream of being in the medical field. So, congratulations class of 2008, we did it! I hope everyone makes all their dreams become reality.

As the culmination of twelve years of education approaches, one's mind is torn between the parting of everything they have known and the anticipation of a ripe, yet uncertain future. When considering how I have spent my precious childhood, I am confident that it has been fulfilling, even extraordinary, leaving me entering the outside world in a comfortable and cocksure state. Thanks to all my friends for providing me with company and experience, what we learn from each other is invaluable. The remainder of our lives will be exponentially engrossing. Personally, I'm quite excited.

High school has left me with some of the best experiences I've had in my life. Every new year has brought about new friends and returning old ones. Mom, Dad, I especially thank you for putting up with me. I'm really proud to be apart of our family. Ben S, after all the years we've been friends, I still don't understand you. To all my other friends, BL, t-man, BH, TJ, CL, GG, JA, LV, JG, KT, JE, MD, NH, EW, and anyone else who regularly shares a laugh or 2 with me, keep in touch.

See ya GHS.

High school was a terrific ride. To all my friends: keep it real and never stop having fun. To my family: I would like to thank all my brothers for helping to shape the kind of person I am today (I am thankful to have a lot of patients). Ma and Pa, you two have helped me with all of my problems I love you all. HBT thanks for all the good times. Now that my time is over in high school I would like to tell all of the students under me, Let the good times roll.

Leaving school already... QQ of doom. But seriously, thank god it's finally over, finally a respite from work. And because I have nothing else to say, I'll do some quotes:

"Some are born great, some achieve greatness, and some have greatness thrust upon them."

"Never cry over spilled milk."

Floating down a river, one must always make the choice; to paddle against the current or to flow along with it. But then comes the wind, waves, and the spaz in the front of the boat who just wants to jump up and down. Put it all together, and it doesn't matter if you go with the current or not, but people will sure remember when you flip the boat and end up splashing about in the water.

Here's to all the times ending up in the water!

Thanks to everyone in the past 4 years, in all the spectacular successes and failures. It's all been fun!

MUN, 172, PWM, FC, TTQ, SC, and all the other acronyms I can't fit here, good times!

"Living might mean taking chances but they're worth taking" Mum & Dad- thanks for supporting me & pushing me to be the best I can be. I can't thank you enough. Love you both. "You never really leave a place you love, part of it you take with you, leaving a part of yourself behind" Well '08, it's been fun. Good luck!

I want to thank my mother and father for always being there and keeping me in gear. I also want to thank my friends for four great years.

Thanks and good luck class of 2009, 2010, and 2011.

To success,  
for how it shows us we can.  
To hope,  
for how it keeps us going.  
To failure,  
for without it, we learn nothing.

Thank you family, friends,  
school, nature, and humanity,  
for teaching me.  
And please,  
don't stop.

"Come writers and critics, prophesize with  
your pens..."

We've all grown a lot in these past four years. It's weird to think that most of us will never see each other again, but we will always have our memories. Our ideas and our imagination are life long, with which, we create relationships with other human beings, and continue to connect with others all over the world. It is my hope that with our high school diploma we can move on to more knowledge and experience more life changing events. Now we are thrown into the adult world, and we have to start making it on our own. No matter what roads we take, I hope that we all are able to pursue our dreams and live the life we've always dreamed of.

Basically I don't have any life long friends at this school like most of you, in all actuality most of you don't know me. I moved here from an island by San Francisco, California, just before I began my first and last year at Gorham High School, and have been forced to survive this very drastic change. I would like to thank the few of you who have tried to make this experience bearable, and I look forward to hopefully getting to know the rest of you better. I honestly hope your journeys take you out of Gorham, because believe me, there is a lot more out there in the world. Congratulations Class of 2008 and Good luck.

# Girls Varsity Soccer

This year we had another extremely successful season. Finishing the regular season with a record of 13-0-1, we entered the playoffs with a #1 ranking. At that time we were also ranked #7 in the nation. In the playoffs we beat Portland and Cheverus to reach the Western Maine final, where we beat Greely. We then headed to states for the 4th year in a row on a 52-game winning streak. We faced Waterville, and after a back and forth game, we beat them 2-1. It never would have been possible without our amazing fan support. Another state title was ours. Another dynasty continues...

Everyone's life is a grand series of moments. Some good, some bad, but all help create the person that you are. When we look back at you growing up, there are many moments that stand out in our minds that capture the real you!

It was the moment that you were born and brought happiness to a grieving family. It was the moment that you were told that your family was changing and you stood with a relief and courage and said "It will be ok Mom." It was the moment that we cut your hair short and you cried your heart out, but the next day you held your head up and smiled. It was the moment that you lost your friend, and your friend and you cried and grieved for the loss. It was the moments at home when you cracked a joke or brought humor to some way too serious moments. It was the moment that you stood up for your classmate that could not stick up for himself. It was the moment that you cheered the loudest for your little brother, when you could have been off with your friends. We hope that these life experiences will only make you stronger for the next moment. Our family would not have been complete without our middle child. You have been adored and cherished your whole life! We love you! Here's to your next great MOMENT!

Love you!

Mom, Todd, Erin, Rachael and Cooper

## Blaine Gaudet

So many good times have gone by fast. You've grown to be a fine young man. Amazing, how fast the years go by, so enjoy every moment. Reach for your dreams son, you can have it all if you try. You have made me so proud. Keep up the good work.

Luv Ya,  
Dad

## Anthony Salpietra

What an experience it has been raising you! You are a wonderfully unique individual, and we are so proud. Your honesty (though often crossing into the "too much information" realm) has always been of your strengths, one I hope remains with you through adulthood. Please keep these thoughts close as you move on from our home: Life doesn't get much scarier than the deer in your own front yard, and there will always be Ramen noodles to return to. We hope you have learned from us the importance of love, friendship, and the humor of sarcasm.

Much Love, Mom and Kevin

## Sean Wylie

Sean,

From the happiest baby ever born to literally not letting go at daycare...

To skirts-only in kindergarten to that leopard-print headband to favorite yellow leggings...

To always cheerful/smiling/helpful/glowing/engaging/funny/silly...

To climbing Mt. Washington to girls' weekends to Myrtle Beach to Scottsdale to yoga to brownies and coconut shrimp.....whew!.....to my dearest daughter who, amazingly, is also my dearest friend! The world awaits you...live, love, enjoy!

You are the sunshine all around me, you are the music in my soul!

Si les amis étaient des fleurs, je vous sélectionnerais!

I love you,  
Mom

## Elizabeth G. Demski

We said we wouldn't embarrass you with sloppy talk, so we'll just stay with the facts:

You're beautiful  
You're intelligent  
You're kind  
You're witty  
You're competitive  
You're a fantastic musician

You have a quality that is not only rare, but of the utmost value: integrity. We're so proud of you and what you have achieved so far. In the years to come, you will surely excel at whatever challenges you take on. Jess, we'll miss you like you wouldn't believe (so much for not being sloppy!) We're very excited for you as you expand your horizons, but we'll always, always be there for you, whether you need us or not! You'll always shine like a bright star wherever you go. You're brilliant! We love you more than maybe you'll ever know.

# Ryan McMullen

Ryan,

Congratulations and thank you for being a great son, brother, cousin, and friend!! We are very proud of you and all of your accomplishments so far. I could fill a page with all of the happy memories of you growing up...but I know I promised you I would keep it short! =) A few memories that are top on our list...dancing at all the family weddings, taking your own training wheels off with Dad's tools, practicing your writing skills on the car and all of your Gorham Recreation games from K-6; especially your Gorham Jr. Grizzlies days! Remember the stereo blaring "Eye of the Tiger" and the theme to "Rocky" at 5:00 am? I know Dad will cherish those the most...

Katie,  
People say that time flies when you are having fun. That must explain why time has flown since you have been around. I love being your mom and sharing your life experiences with you. I'm not quite sure that I am ready to see you leave for college next year but I know that you are ready for your next adventure. And you know that I will always be a phone call or text message away, so please share! Make sure to take chances and roll with the punches. Always please remember to: Laugh hard. Love much. You are NEVER alone!

Mom

Skate,  
I am very proud of you and everything you have accomplished. I know I may have never told you this, but I really admire you. You are a strong and courageous young woman, traits that sometimes I feel I lack at times. When you haggled with that street vendor on Broadway in NYC and talked him into giving you two purses for the price of one, I knew my little girl had grown up. I will really miss you. I love you!

Dad

# Katie Nordfors

Congratulations Katie!!

I am proud of how far you have come and how much you have changed over these past few years. I wouldn't have wanted to grow up, or couldn't imagine playing "Stuffed Animal Olympics", selling our bookmarks to "drunk people at bars", or being in KNT, with anyone else but you. You are such a mature and determined person, I know you will be amazing at whatever you do. Remember that you will always have your brother to talk to as we both keep "growing up". Happy grad times!!

Love, Nick

Congratulations Katie!!

# Andrew Arena

Andrew,

We are so blessed to have you in our lives. Have we told you that enough? Probably not.

You were born two days early, and we've been on your schedule ever since. You've kept us scrambling to keep up at every growing stage, but as your Mom-Mom Ruth told us, these are the best times of parents' lives. Maybe we didn't always agree, but overall she was absolutely right. We cherish the times from Whitney Ave, and going on honey tree hunts, Texas preschool days in cowboy boots and hat, dish towel super hero capes, to Village school plays and of course, ALL the sports.

Did we let there be too much emphasis on those sports? Probably. But truth be told, we loved watching you play them all. The focus, energy, and passion you gave each season was exceptional. So many more times we should have taken the moment to say, "Wow! We are so proud of you!"

We look at you and see both the little boy and the young man... and like what we see.

We love you,  
Mom and Dad

We have been blessed to  
have you as a son and we'll

as you pursue your dreams.  
You have the talent, passion,  
and determination to do great  
things and the compassion,  
conviction, and beliefs to  
become an even greater  
person than you already are.  
We love you and wish the very  
best for you!

## Leigh Maniscalco

Leigh AKA Binky,  
The doctor and your father had to catch you at  
birth. You always moved fast. Gymnastics, track  
and field hockey. You excelled at the state level  
in all of them. Academics, art and athletics are a  
great combination. Keep that competitive spirit  
going. Nothing can slow you down. Just  
remember to shoot for the moon. Even if you  
miss you'll land among the stars. We've always  
been so proud of you. Congratulations, with all  
our love.

# Lindsay Hansen

Dear Lindsay,  
We knew this day would come but we didn't realize how quickly it would get here. Seems like just yesterday we were putting you on the bus for kindergarten and now we'll soon be sending you off to college. During this time you've grown into an amazing young lady. Your sweet and gentle spirit, your determination to always do your best and your strong faith in God will enable you to follow your dreams and achieve much. Remember that each day is a gift to be cherished so make each one count! We are so very proud of you.

It's so hard to believe that our little boy will soon be leaving Gorham High School. We wish you the very best as you begin the new chapter in your life. We are so proud of you and are proud that you have grown to be a wonderful young man.

Bobby, we THANK you so much for all your hard work and right choices. We will always be there to help whenever needed. We know there is a wonderful future ahead. We love you very much,

# Jesse Garza

As you step out to make your way in this world, I can't help but wonder. What great things might you accomplish? What wonderful adventures await you? In what ways will the world be a better place because of you?

You have so many qualities I admire. You embrace with passion the things you love. You have a wonderful sense of fairness. You are smart and trustworthy and loyal. You surround yourself with good friends.

Be patient. Use that stubbornness to your advantage, but don't close your mind to all that others have to offer. Don't let worry or fear get in your way. Listen to God.

*"The path twisted and turned and rose and fell, and the poor old Hoover became very tired indeed. ...As for the rest of them, they were in the highest spirits. The lamp craned its long neck every which way, exclaiming over the views, and even the blanket soon forgot its fears and joined in the general spirit of holiday adventuring. The toaster's coils were in a continual tingle of excitement. It was all so strange and interesting and full of new information!" From The Brave Little Toaster by Thomas M. Disch*

Jesse, I am so proud to call you my son. I don't know where the years have gone, but I am so thankful for all the memories I have of you growing up - memories I will always and forever cherish. I love you more than you can ever know! Mom

You have always marched to the tune of a different drummer, and where most parents lead, we've learned to follow. You have taught us to slow down, smile more often, be more patient, and accept people for who they are. Your love of theater from Brooks to Broadway has enriched our lives. Your love of song and dance has kept our home filled with music. You are the music in our lives and the song in our heart. You are also our calendar girl! Always making us look good by reminding us when it's someone's special day. We hope that you will always be the sweet, compassionate person that you are today. Your nickname: Sparkles suits you perfectly, because that is what you do, SPARKLE. Keep on singing and dancing and watch for *GREASE*! We are so very proud of you and will love you always. (Isaiah 43:5) Love, Mom & Dad

"What time is it? Summertime! School's out scream & shout!" (I got the lyrics from your constant singing, so thanks!!) You've graduated-Now let the fun begin. We've had some fun times, 2 words- Chia Sen!!- and we've had some rough times during our 19 years of sisterhood. Brownie is always more than a dessert. And, us rocking against the waves in the party boat isn't the Tippy you love. And, Whosie- Whatst!!? Your love for animals is only 2nd to your love for people. Elizabeth,

It seems a short time ago that you were born and in a blink of an eye, you're breaking out into the world. How the time has flown; gosh, you're a young woman now.

In a flash, you grew in age and grace. So while we can still 'catch' our little girl, we want to say that you've given us pride in so many ways-- our bundle of joy, our precious toddler, our lovely teenager, our beautiful young lady.

Elizabeth, the world is yours and as you approach this next phase of life, know that we are proud of you. We thank God for you, and consider it a privilege and a blessing to be your parents.

Our hearts' desire for you:

"We pray that God will fill your heart with dreams.

Jon, the past eighteen years have truly gone by in the blink of an eye. As you graduate from high school we hope you know that raising you has truly been one of our greatest joys. You have grown up to be a well respected, responsible young man and you have made us incredibly proud every step of the way. We are grateful for the wonderful circle of friends you have earned over the years who have added to our lifetime of memories of you growing up. We wish them great success in their futures. At the age of six months you found your voice and soon began to talk, your first steps of life were taken at ten months when you tried to walk.

It was at the age of five, another chapter of life began, You stepped onto the bus for school looking like "Our Little Man".

You've had great shining moments like each shot on goal you'd catch, the strikes you threw in baseball, and winning the tennis match. We saw the man you had become when you turned sixteen years of age, Obtaining your license and a car and deciding which college to engage.

You are Brianna's big brother, and together your friendship will grow, Just ask your older cousins, as they will agree it is so.

Perhaps your greatest influence which no one can compare,

Your manners, humor and rapport with kids were due to Nana's care.

You are off to college now; it's time to turn the pages, Another chapter has begun, another one of life's stages.

So here's a message to you, son, we'd like to share out loud,

We love you very much Eric, and you always make us proud!

Love,

Emily,

Where did the years go? You have been such a blessing to us and the whole family. You have become a leader for so many.

We cherish our time with you. You were always the spiritual one in the family, even as a little girl. As a faithful member of the body, you embrace your responsibility to help carry the load of others.

Please remember  
that we love you very much and will  
always be there to help you bear your own.

You will always be our baby  
but to Jack you will always be Mom.

*(Our) wish, for you, is that this life  
becomes all that you want it to,  
Your dreams stay big,  
and your worries stay small,  
You never need to carry  
more than you can hold,  
And while you're out there getting  
where you're getting to,  
I hope you know  
somebody loves you,  
and wants the same things too,  
Yeah, this, is (our) wish.*

Em,

Wow, it seems like just yesterday we were playing dress up and fighting over who got the top bunk at camp. Now you're a senior and about to start an amazing new chapter of your life. Where did the time go? You've grown from my baby sister into a determined, outspoken, talented, beautiful young woman, and I couldn't be prouder and be more blessed to be your big sister. Thanks for being my confidante, my singing partner, and my fun, crazy other half. You have so many wonderful gifts to offer to the world, so take every opportunity and live your dreams. Whatever path you choose in life, remember that I love and support you 100%.

You came into this world with red hair and a distinctive chin, and your sharp mind and keen sense of humor have always kept us on our toes!

When you were a toddler, a stranger commented that you were an "old soul" -- someone who is wise beyond years.

You have continually amazed us with your talents: from speaking your first words at 10 months, to your beautiful singing voice and love of music, to the treats you create in the kitchen. You have the determination, intelligence and drive to be and do anything in this life. Always remember we are here for you and love you unconditionally, forever.

Jim,

Friends forever...

We've travelled some miles, the fireworks, the parties, the laughter, the smiles.

We couldn't ask for a better person to be our son

You've captured life's secret...work hard and have fun

Spray painting, rebuilding an engine, flying a plane

Master the challenges and never complain

Thank God you can't choose your parents

For us you'd probably discard

There's no glory working out back in the junkyard

With your contagious smile and facial stuff

You're humble and unassuming, a diamond in the rough

From birth to graduation life passes too fast.  
Our love, our pride, our memories will last.

We love you with all our hearts

# Laura Shaw

Congratulations! You've been running to keep up with three older sisters since you could walk. The hours spent in the car taught you patience at a very early age. You don't remember the year there was no radio, and everyone had to sing! One constant in your life has been your love of dance. The recitals and competitions reflect the time and energy you have put in, as well as your talent. A trip to Funtown's the highlight of the summer. We looked forward to the Haunted Hayrides and a field hockey team sleepover at our house in the fall. Winter meant ski trips and skating. We took road trips over holidays and school vacations, creating many lasting memories of our time spent together. It's been a wonderful rollercoaster ride that we wouldn't think of changing. Next year will begin a new chapter in your life, opening up a world of opportunities.

You have so much potential, put it to good use. Keep believing in yourself and remember that character is shaped through hard work and an old station wagon! We are proud of the young woman you have become.

# Blake Lambert

Dear Blake-

We've looked back so often  
At how quickly time has flown  
From birth to graduation  
As a young man, how you've grown

A smiling happy baby  
You were as easy as could be  
And it wasn't long before you were  
The proud "Big Brother" of three

School years have passed quickly  
You've learned how to write and read  
And experiences have taught you  
When to follow and when to lead

You step up when it's needed  
And it's easy now to see  
That you do have what it takes  
To become what you wish to be

How far your next steps lead you  
And the decisions that you make  
Determine your life's adventure  
It's all part of the path you'll take

Make the most of opportunities  
And memories you won't forget  
Use your confidence to try  
Cast away doubt and regret

Give your word when you mean it  
Make promises you can keep  
Don't turn away from challenges  
As you sow - so you shall reap

And as you look ahead  
At all things that you will do  
May it bring you comfort knowing  
We are always here for you

Congratulations - We're proud of you, Blake!

This just about says it all girl,  
I still wake up and can't believe you're really gone.  
So many months and even years have gone by,  
And everyday I just wish I could be sharing it with you.  
In my eyes this year you're graduating, we're seniors.  
I'll never forget all those good memories we had together,  
Whether they be brownie days or tree fort building times.

I love you Lauren, you will forever inspire me  
And I can only hope to see you again someday.

Love, Amanda

Be yourself, one of the most important life lessons I have ever learned. Nobody taught me that better than my best friend, Lauren. Her free spirit and her carefree personality is what will never be forgotten; that and her contagious laughter.- Thanks kid; for all of the memories we made, from Diane's house, we were partners in crime, to the hospital room, where we played Frogger and celebrated the holidays together; I wish we could have shared more great times. You taught me about life, the ups and downs, you made life exciting and showed me no matter what the circumstance you can always be yourself; hair or no hair, yellow eyes or green eyes, through it all you stayed Lauren. I know I could always count on you no matter what; my "blood brother (sister)" and my "BFF." Thanks for showing me what a best friend *really* is. I wish I could have shared these past four years with you, I know it would have been quite the trip. My Concrete Angel and my best friend- I love you and miss you forever.

Love,  
Bri

# Nicholas Rapolla

I could not possibly put into my own words how I feel, so I decided to use words from a story I used to read to you when you were little.

"Congratulations today is your day, you're off to great places, you're off and away. Your mountain is waiting, so get on your way." Your grandmother would be so proud of you. Shoot for the stars.

Love Mom

It is no longer our world, it is now "yours". Enjoy your life and bring others along with you! Love Always,

Nick,

Wow, I can't believe this! You're leaving us already! I'm going to miss you. I don't know what I'm going to do without you. I'm proud of you! I know you will do great things!

In the words of Boys Like Girls:

Tonight will change our lives,  
It's so good to be by your side

But we'll cry

We won't give up the fight.

We'll scream loud at the top of our lungs,  
And they'll think it's just cause we're young  
And we'll feel so alive.

I Love You-

# Kayla Nielsen

Jellybean, look how far you've come!

From a tiny 2 lb baby to a beautiful young woman, it just doesn't seem possible that it's time to graduate already. Only yesterday you were dragging around Berry-Bear and Snowy in your favorite Burt and Ernie slippers.

Time slips by quickly but we will always have our memories: backward dinners, tournament trips, playing second base - "on" second base - 2-broken wrists, fun vacations, forgotten cleats and homework, weekends at campy, your playing in the Cup of Nations tournament in Maryland and being the youngest player there, frustrations with math, doggy kisses, PBH, lots of brotherly love, "killer" shots at ISA, gerbils in your pocket, "cleaning-your-room," Winthrop pool parties, and giggles with friends, just to name a few.

Work hard, be happy and give life everything you have. We're all behind you 100% and with Nanny, Sydnee, and Big Bear watching over you, how can you lose? We are so proud of the wonderful person you have become.

We love you!

TED,

# Courtney Davis

Courtney - We can hardly believe how fast the time has flown by! Yesterday you were on your way to kindergarten with your sunflower dress and matching hair bow. Who can forget you turning around with your sweet confident smile and waving goodbye? To you it was a great adventure, to us it was yet another dose of reality that our baby girl was growing up. Wow, fast forward 13 years and here we are again, only this time you really are all grown up and about to embark on the next great phase of your life. We are so very proud of the kind, smart, and confident young woman you have become. You are a fantastic daughter, a wonderful role model for your sister and brother, and a terrific friend. Follow your dreams, always be kind to yourself and others, and stay true to your values. If you make good choices and do what feels right, your life will be full. The road less traveled may be the most challenging and the most interesting. One experience will lead to your next opportunity. The next opportunity will lead to yet another great experience. Remember, "Life is a succession of moments. To live each one is to succeed."

We love you so much!!

Mom and Dad

Courtney,

Wow, I can't believe you're graduating. Congratulations! I'm so proud of you. You have taught me so much over these past years and I can never thank you enough. You are truly the greatest sister I could ever ask for, and not only that but my best friend. You've always been right in the next room when I needed you. I'm gonna miss you so much, but always remember that you're confident, smart, and you can do anything you set your mind to. I'm always here for you, Court.

Love always, your sister and best friend, Shannon.

Courtney,

You're a really great sister. I have always been able to count on you when I needed advice on anything. You can always make me laugh. Good luck with everything you want to do!

You did it!  
Congratulations.  
I can't believe how time flies. You've grown into a very beautiful young lady. We are all very proud of you. You have a good head on your shoulders and I know you can achieve your dreams. Best of luck, Love the Osgoods.

Well what can I say? The last of the "Sawyer Tribe" is graduating! You did it Becky and I'm very proud of you! I know we have had our differences over the years growing up, but I can't honestly say how proud I am of you! The time flew right by didn't it? You've met a lot of great people and made many memories with friends you'll never replace. You have always done good deeds, and been courteous to people even when others like myself weren't as nice to you, which is a great quality to carry with you through out your life. The things you've learned and the people you've met will always be important so stay in touch with those you truly care about, because it could be the last time you see them. Once again I can't say how proud I am with all the struggles and hard work you've worked through over the past four years! Congrats Becky! I wish you the best in your future and remember I'm always here for you.

## CONGRATULATIONS!

It is hard to believe that 18 years have gone by and that our smiling little boy has grown up to be a handsome, kind, caring and hardworking young man.

It is with great pride and love that we wish you all the best life has to offer

Pursue your dreams, work hard and enjoy life to the fullest.

You will succeed!!!

All our love,  
Mom, Dad and Scott

# Jeremy Randall

Remy,

How do we begin to fathom that the time has come for you to graduate. You must feel like a pro going through this already with your older brothers!

You are the grand finale.

How fortunate we have been. You never cease to amaze us being thoughtful and kind when it counts the most. You have many wonderful qualities that some never acquire, be proud of that.

Time has a way of going by too fast but not without creating lasting memories.

Watching you play hockey and baseball throughout the years has been the best. You've added great joy to our lives in many ways. It has been a pleasure watching you grow and become the fine young man that you are. Continue to do the things that you love and you will go far. Your hard work will see you through.

Always know that we love you. We wish you the best!

Mom, Dad, Tyler & Kurt

# Monique King

Monique,

You have been such a joy since the day you were born. I never imagined the years would fly by so fast. It seems like only yesterday you were playing school with your dolls, being tucked in and singing "you are my sunshine" with me. Thank you for being such an easy child to parent this has allowed us to be friends too. I have loved the talks, sharing secrets and spending time together. I hope I have taught you a fraction of all you have taught me. I am so proud of who you are, and what you have accomplished. You continuously enrich the lives of your family, friends and all those around you with your warm smile, caring ways, intelligence, beauty, sincerity and thoughtfulness. It is hard to let you go to start the next phase of your life, but I know it is your time to fly. I look forward to watching you grow, knowing you will do well in everything you do. Always follow your heart, find something good in everyone, help somebody every chance you get, never stop dreaming, always forgive, never regret and remember things always change - nothing ever stays the same.

**I love you Baby Girl**

**Mom**

Monique,

I cant believe you're a senior. You grew up so fast. Remember if you ever need anything, I will always be there. I love you.

**Alan**

Monique,

I am very proud of you and I love you very much. You are a very smart and caring young lady and I know will go a long way in whatever choices you make.

**Love Nanny**

Monique,

It doesn't seem like any time has passed since you came into my life, Time usually changes things, but your kindness, concern for others and respect for me remains the same. I have no doubt that you will be "the best" at whatever you do.

**Love Bood**

# Shauna Gammons

Well Shauna, here you are.

It seems like just yesterday I was driving you to your first day of kindergarten because I (not you) was too afraid for you to ride the bus. You, of course, ran into the school with the other kids absolutely fearless, turning around for one brief second to smile and wave as you disappeared into the building. I drove home crying, feeling so much pride that you were so strong and happy, yet sadness because I had to let you go.

Fast forward to today, and relive that same moment as I write this through blurry tears of pride for the person you have become; strong, fearless, intelligent, compassionate, and witty; and sadness to have to let go of you once again, to let you grow even further to new heights you have to achieve on your own.

I pray for you to always look for the good in everything and strive to always do what your heart tells you is right, because I know you have learned the skills you need to make good choices and now you can use the most beautiful set of wings to fly away. Just always remember I am here.

Get everything you want sweetheart.

Love you Punky doo-doo! ~Mom

Always Remember

Scared and excited, we carried you home  
Your little mouth open, we kissed your cheeks.  
Pink tights and ribbons, your beauty does shine.  
God gave us an angel, to love through all time.

Childhood brings fun and enlightenment; you never give up  
Perseverance is yours; put to the test.  
Standing up to contempt, never wavering to defeat.  
Kindness and love, is what you give to others.

Older now you're off with your friends.  
Dances, boyfriends, camping, and games.  
We let go of your hand, and hold our breath.  
March to your own beat, you stick to your principles.

Grown up so quickly; very hard to let go.  
A woman emerges, confident and kind.  
The world awaits you; so much to give.  
We will let you fly, so much life to live.

Love you always, here for you always, Mom and Dad.

Our little Atina, you have grown into the most intelligent, loving, beautiful woman. You have brought us nothing but joy. We have so many wonderful memories, from the first time we cried as we chased your bus to kindergarten. Proudly watching you dance on stage, to the exhilaration of watching you on the B-ball court. I love our times laughing, talking, and crying over important and unimportant things. Dad holds dear the father daughter dances and your workouts. And Cory loves his big sister with all his heart. Although you're moving on to a new stage in your life, your father and I and Cory will be here, loving you, supporting you in whatever comes. Remember every step in life is just a beautiful moment in time. Embrace them, as we embrace you. Love Mom, Dad, and Cory. We are so proud of you!

# Chantal & Theo Tijssen

For Theo and Chantal

I was blessed with not one child, but two....

My life complete when I had you.

Theo, born so small, not quite three pounds,  
your cry hardly making a sound.

The doctors said you may not make it,  
that you would never catch up if you did.

Overnight, you proved them all wrong,  
and grew into a grown man kind and strong,  
showing kindness and good character,

a son to be proud of,

always a giver, never a taker.

Chantal, my precious daughter, twin of Theo...  
You were born first, and made the sun grow.

Raised in Bonaire,

you swam with the Dolphins...

and strolled on the seashore without cares.  
Playing with your island friends and brother,  
you were my sweet little girl, unlike any other.  
As you grew older and we all moved to Maine

you continued to shine...

a young woman you became.

High morals, kind heart, loving and smart,  
always caring of others, which is a fine art.

Theo, Chantal, my darling twins,  
how you have grown.

Into the world you now go,

The seeds have been planted and sown.

I wish for your true happiness, courage and grace  
to help make a new life and the world a better place.

As you grow older, be a support and great friend to  
each other

and always know that I am proud to be your mother.

Love, Mom

Dear Chantal and Theo,

What a joy to have the two of you as twins. I am so proud of you.

Born in the Caribbean and moving to the United States at the age of eight years, you impressed me with the ease in which you adjusted to complete different surrounding. I liked and appreciated the way you supported each other, which is, I am sure, one of the reasons that you are what you are, and helped with the adjustment from one culture to another one.

Congratulations with your academic achievement and as a proud parent I wish you all success in your future endeavors.

You can always count on me. I love the two of you very much.

Dad

Congratulations Maria!

It has been a pure joy watching you grow into the beautiful young lady you are today. I am so incredibly PROUD of you. May the patron saints of scholars and academics- Brigit of Ireland, Catherine of Alexandria, Nicholas of Myra and Thomas Aquinas ask the Father of all knowledge to bless you with the love of learning and wisdom. The love and affection of angels be with you. I love you.

Dear Maria,

We are very proud of you! You have chosen the path less traveled and become a stronger person because of it. Bravo to you for participating in gymnastics, swimming, track, riding, pre-college, ski team, even soccer! We hope you have come to appreciate the beauty of the world from all of our travels- even if you didn't like hiking! Do your part to protect it. Always treat others with kindness. Embrace diversity. Do what you love. Have fun! Remember, life shrinks and expands in proportion to one's courage.

Chels,  
From the day I watched you take your first breath in this world I knew you were going to be a very special person. Your great attitude, attention to detail and perserverance will take you far in whatever you decide to pursue. It's hard to put into words the great sense of pride that goes through me whenever your name is mentioned, well at least 99% of the time. Congratulations on completing this high school phase of growth and academics. I'm a little sad knowing these next few years won't leave a lot of time for our adventures; snowmobiling, boating, vacations and just hanging, but very excited to watch you succeed into the future. Don't ever forget, life is what you make of it. Love ya more than words can say

Chel,  
Congrats sissy! I can't believe you graduated! I am so proud of you. You're so beautiful, strong and smart. I hope to be just like you someday. I know I have lots more to learn from you and I look up to you more and more every day. Remember to dream big and I will always be here for you!

CONGRATULATIONS!!!

What a beautiful young woman you have become. You are a sweet girl and have a charming personality that everyone you come in contact with enjoys. You are everybody's friend and tremendously caring. You've grown from the "spaz", princess wave, plies, and shuffles to volleyball, Justin, driving, and prom dresses (even one you designed yourself!) You are creative and extremely talented and I know that you'll excel in whatever you do.

You'll always be my little "Chellybean".

# Kristi Lee Colarusso

It was a cool fall day on October 2nd, 1989 when you came into our lives. It was so unbelievable that 'we' were chosen to be your parents. Even more unbelievable is how quickly time goes by. Our beautiful baby girl has grown into a beautiful young lady and is about to enter this "big world" on her own.

We remember your first day of Preschool and how Miss Marybeth told us you could 'teach' the class. And then onto Cheverus School for Kindergarten through 2nd grade - you and Kayla looked so cute in those uniforms! We moved to Maine the summer before entered 3rd grade. You adjusted almost immediately and made many friends. However, putting you on that school bus and watching it drive away the first time was so hard. Through the years we've enjoyed watching you grow and learning new things like cheering for the Jr. Grizzlies,

playing Field Hockey, riding your dirt bike with Bri, snowboarding at Shawnee Peak, snowmobiling as a family, Dad's annual trip to Warped Tour with you and your friends, our family vacations to Disney World, Disneyland, St. Lucia,

Jamaica, Canada, and our mother/daughter trip to Paris, hanging out at our camp at Kokatosi summer after summer, playing on the girls Varsity Ice Hockey Team, Young life get-togethers and growing in your faith, going for your driver's license, the Prom, and of course the many, many hours a week you dedicated to dance at the Dance Studio of Maine. The world awaits you with so many new things to see and do.

Enjoy each day to the fullest and treasure all the wonderful memories you'll make along the way. We'll be right here to cheer you on in your journey through life! Remember to always be honest, to always be true and most importantly, to always be YOU!

All our love and so much more

Kris, for all the years I've known you (my whole life), these past few years have been the best. I may not have remembered all the times we had when we were little, but the ones I have remembered, have been the best. You're my closest and best friend ever. I don't know what I'll do when you're gone. It's gonna be weird not seeing you in the morning before I leave for school. And I'm not going to have anyone to annoy or yell at when we get into our stupid fights, but I know somewhere deep inside you love me and I love you too. You have been there for me when I needed you and I've been there for you too. I love you and always will! I'll definitely miss you while you're away at college.

## Cassandra Dannielle Walker

Cassie- Congratulations Grad!!! The entire family is so proud of the intelligent, hardworking, and caring young lady you have become. My adoration for you began the moment our eyes met when I held you for the first time, and it will never stop growing. Even when you were a little girl I could see that you were meant to experience great and wonderful things. You have always had the tenacity and strength to start and finish anything that you have wanted to do. I sit back and wait for your next biggest idea so that I can be engulfed in your enthusiasm. I will always cherish the many memories of the family trips we have taken to Busch Gardens, Williamsburg Virginia, Hershey Park, Virginia Beach, and the whale watching in Cape Cod (we were terrified at first with the thought of the whales tipping us over but we did it). Your greatest asset is your sense of humor. You have gotten the family through many boring nights with you retelling scenes from the movie, "Dumb and Dumber". I am so very proud of you and grateful to be the one chosen to be your Mom. My wish for you is to have a fantastic future full of love, hope, and happiness. Love, Mom

It's amazing how unique each child is when you have children. It's amazing how fast time goes by when we look at you now and remember how you were just a few short years ago. When you arrived you had red hair and you looked like Yoda. From the very beginning you made your presence known. The first year was all a blur mostly due to the sleepless nights and days you created as you exercised your vocal cords. You showed us early on that you had a strong will and independent streak. Your first sentence was, "I do it self!" With a firm grip on the handrail, and look of determination on your face, you conquered your first Fun Town amusement ride. Through stitches, pierced ears, and almost broken arms, you met the challenges of growing up head on. You have continually amazed us with your many interests including school, sports, international exchange, and many interesting friends. You've created your own style of handling life's challenges. We still both have to wonder where your fashion sense came from because you've certainly proven that it's not genetic. Corey, you have taught us again that a parent's love can be limitless. We look forward to continuing to grow with you - knowing that our love for you will continue beyond forever.

Hugs and kisses from Mom and Dad
