2008 Yearbook Staff

Sitting down to write this, we realize that yearbook has left us completely drained and speechless (us, speechless. That's how draining it is.) It has certainly been an interesting and challenging experience, and being editors was possibly our biggest extracurricular in high school. We appreciate the help of those few that stuck with us for the whole year, and want it to be noted that if you aren't pleased with the outcome of the book this year, do something about it! Join the committee next year and make it the best that it can be. We would like to give one million thank-you's to Michael Percival Wulfric Brian Wojtal, without whom we would probably be crying every single meeting, instead of just half of them. We hope you enjoy it more than we did!

Love to most,
Hannah Marie Lilly and Alexandra Noel Platts!!

Teacher Dedication

Around the halls of Jolly GHS, everyone will agree that Susan McCarthy is a hardworking teacher, friend, and co-worker. She is constantly asking questions and checking in on both the students and co-workers in her life. Regardless of whether she is a current or past teacher, she is always willing to help out with some math homework or to study for a big test. Her door is open not only for math help, but for anything you need to get off your chest.

Mrs. McCarthy is an active teacher that is involved in School Council, has been adviser for Students Taking Action Today, and plays a large role in organizing the Bill Bennett Memorial Art Auction each year. She cares about students, encourages them to get involved, and leads a good example by submitting excellent art work for the auction herself.

She can often be seen in her classroom after school holding study sessions for Precal, or working one on one with students. Her dedication does not go unnoticed, and it's no wonder she is asked every year by multiple students to write college recommendation letters. Mrs. McCarthy accomplishes the nearly impossible task of making math fun by incorporating games and real life applications into her lessons.

It is with great pleasure that we have decided to dedicate this year's yearbook to Susan McCarthy upon her 20th year of teaching.

In Memory Of Nick Townsend

Nick Townsend loved music, Chinese food, tea, and red bandanas. It didn't take much to realize this kid was special. He didn't stick out in a crowd... mostly because he wasn't the tallest kid in the class. You wouldn't see him at lunch with a crowd of people, he would rather take his lunch and eat with his favorite teacher, Mr. Howard. He could take any hard situation and make it seem like it was nothing. We didn't get to spend as much time with him as we wanted, but we can take the times we did spend with him and make them last.

R.I.P. Nick, you will be forever missed.

Retirement

For over 30 years, Mr. Morrow, or "Deege" as he is called by his Chamber Singers, dedicated his life to music. At USM he began his journey, ventured to Massabesic for 20 years teaching Barbershop and training the colorguards to march with uniform precision, then finally returned to Gorham to teach next to his alma mater. In class, Mr. Morrow was like our own Billy Joel. We'd walk in and he would be jamming out on the piano, making his own arrangements of popular songs, or poring over his extensive music library. Music wasn't a chore, it was something to be enjoyed. The music basics class would have their own private rock out sessions to "Brown Eyed Girl" while the chorus belted out "Seasons of Love." To the Chamber Singers, he has truly struck a chord in our hearts, teaching us the love of music and bringing us together to sing in perfect harmony-the most important part being able to sing together. Everything that he has done has never been about himself, it has been for the music, the school, and "for the kids." To that we give our eternal thanks to Mr. Morrow for all of his work, and extend good wishes towards his future endeavors. And so, "To-Morrow," a brand new day.

Advisor's Message

To the class of 2009:

As you read these words for the first time, you are all on the verge of your next steps. Some will head to full or part-time employment, some to further schooling and some to, well, your own, unique next steps. The world is open before you all. However, there is just one catch, you need to reach out and grab the opportunities that await you.

Since the day I met most of you, as freshmen in my Career Technology class, the Class of 2009 has worn the rather unflattering title of, "The Slacker Class". Some of you, in fact, found this a sort of badge of honor. Now, do not be offended if you have worked hard for your class these past four years. I only mean to point out the general perception, if not the general attitude of your class. I watched as waves of class officers attempted fundraisers and events with little or no support of the rest of you. Blame for failure was always easy to assess to the few that tried.

Only until, this, you senior year, did the Class of 2009 finally achieve success, through the guidance of a very dedicated group of class officers. Deserving "Thank You"s, are Mrs. Ryan for coming on board this year as co-advisor and Mr. "Survivor Bob" Crowley for jump-starting the fundraising drive this year with his participation in "Survivor Night".

Back to the catch

The world awaits but, it will not be handed to you. The next several years may be some of the hardest times to succeed since the Great Depression. You will not have people waiting to pick you up if you fall or motivating you out the door. "Close enough" and "Whatever" will not longer be acceptable. So, are you ready, "Slackers"?

I wish you all the very best in the years that stretch before you,

Mr. Palmer

2009 Class History

Senioritis: A crippling disease that strikes high school seniors. Symptoms include: laziness, an over-excessive wearing of track pants, old athletic shirts, sweatpants, athletic shorts and sweatshirts. Also features a lack of studying, repeated absences, and a generally dismissive attitude. The only known cure is a phenomenon known as GRADUATION.

Of course there are the scholars who have yet to show senioritis and continue making our class proud and feel smart. Then there are those who started with this dismissive attitude freshman year. But most of us are throwing our hands up in the air feeling the joy of being a senior. And yes, we love our sweatpants and t-shirts.

But the ride wasn't always this fun. It started at Little Falls with the alphabet people. They do say all you ever need to know, you learn in kindergarten. Then we moved on to elementary school, where they taught us how to write in cursive. Clearly none of us really learned it though, because signing the SAT Registration Form in cursive was a disaster. Village was prime time for recess, but not if you were a bad kid, otherwise, you'd be sent to stand against the wall. Village was when we all discovered we were brilliant spellers and that field day was the coolest day ever. Unfortunately, when moving on to 7th grade, we only got to experience a few months in the quality facility we all know as Shaw. Going to the bathroom and feeling drops of cold water landing on your back was definitely our favorite part. But lucky for us, we were the first class to have our middle school education at the brand new Middle School. Being the first class to venture off to D.C. as a class is a memory we'll never forget, especially spending a day at the zoo, in a torrential downpour. Little did we know, things were going to change drastically as we entered high school. Now at the dances, there would be no line down the middle, boys on one side, and girls on the other. Also, dances would be at night, not 2:30 in the afternoon. We had our graduation and off we went to the high school. It has been here at GHS where we have made our names, ones that will never be forgotten. As a class, we've proven to be extreme procrastinators, (check the superlatives page). We've also learned to be incredible athletes, excellent car paint artists, not to say "sit down" to freshmen, fans of Bob Crowley, and the first class not to be sat down in the auditorium in our final days and asked "So here you are four years later; who are you and what do you stand for?" These are some of the best. As a class we've come together and made senior year the most memorable yet. We've built friendships we'll never forget. We've made memories that many will remember and will enjoy looking back on. Never forget each other and the lessons we've been taught.

You should all be very proud of the accomplishments we've made as a class and as individuals. As we leave Gorham High School, we'll leave lots behind. We've made history. Just make sure you remember that no matter where the future takes you, it's up to you to make success happen. Every single one of you is capable of doing anything you want. So go show the world who you are and make a difference. This is our time.

Do not follow where the path may lead. Go, instead, where there is no path and leave a trail. ~Ralph Waldo Emerson

Thank you class of 2009 for making high school the memorable time it was. You're all just fabulous, and don't worry, I'll be planning an incredible series of reunions for the future!
Good luck. Now go be amazing.

I love you all so very much.
With best wishes,
Nellika Lynn Stirling

Well it has been a long four years of walking up and down the hallways of GHS. Although I am sure that we are all quite ready to get out of high school, we certainly had some great times together over the last four years. Mom and Dad, thank you for all the support that you have given me, and even though I make mistakes you have always given me a second chance, in some cases a third or fourth chance. Kellen, good luck in the rest of your high school years, I hope you finally get those babes you have been talking about. Chelsea, thanks for always being there for me, you have made the last two years great. Good Luck to the class of 2009!

Catrina Aguirre

It's been a long and hard journey the past four years but its finally coming to the end. If I had the opportunity to go back in time and do it all over I wouldn't. I learned so much and grew up a lot. I would like to thank Melissa and Michael because they have helped me become who I am today. They helped me through all the rough times, and the good. They helped me when I was going bad in school even when I was doing good and I really appreciate that. When I first met them they were just like any regular teacher to me, but now they have become two of my close friends, thank you both very much for everything. Also thanks to all my friends, You mean the world to me. CONGRADULATIONS CLASS OF 09 - WE MADE IT!!

"Be who you are and say what you feel because those who mind don't matter and those who matter don't mind." - Dr. Seuss
These last 12 years have been some of the best and the worst so far. I'd like to say that high school has made me into who I am today, however I've learned more about myself outside of these doors than I have inside them.
Mom and Dad, thanks for putting up with everything, I know its been tough at times. You've helped me more than you know. Emma, you're going to do some great things in life. Don't be afraid to participate.

Friends, you all know how you are. Its been good. SR PC EC later.

Desirae Alexander

It seems so long while it's happening But now it feels like it couldn't Have gone slow enough. I'll Remember all the fun times I've had All the inside jokes, the ability to Laugh so easily and the inability To stop. I thank my best friend for All those ab workouts because surely They must be from laughing so hard That it hurts. The best part over The years has been making so many Friends, all with so many Personalities. It's something I'll Miss but I know that I won't get rid Of you. You know who you are and I Hope that your pants will remain dry In the future

"I'd rather be a could-be if I cannot be an are; because a could-be is a maybe who is reaching for a star. Wow, 4 yrs gone already! Remember all the good times (sports, games, AP study groups) and the bad (rushing HW & wanting to bash the computer @ 1 am). I have too many ppl to thank in this short passage. I have to thank my friends the most; I'm gonna miss you all so much! To all my non-senior pals on track, math team, etc, good luck w/ the rest of HS. And to my family, you've all supported me so much; luv u all! Latin buds, we never had a funeral for Quintus. The completion of 12th grade opens the door to a vast amount of possibilities. I can't predict where my life will lead me or what obstacles I will encounter. All I know is that through everything I need to rely on God and allow Him to map out the course of my life. "Commit to the LORD whatever you do, and your plans will succeed."

High school is an experience that to define would be impossible. It is filled with challenging life experiences, ones that might not even matter until you are looking back in your life for help. They are experiences you yourself created and lived through. "A person who never made a mistake never tried anything new." Albert Einstein one who has lived through many mistakes is one who was able to make a difference, just as the class of 2009 has been trying for the last four years and will continue for as long as they can. Together for me with my beloved girls, who have made the biggest difference in the world, and my best friend whom I love, Tyler, we have made these experiences hilarious and memorable. And to those to follow like my amazing sister Jordan, good luck and please enjoy your time at Gorham High School, enjoy your time with the amazing parents we have been blessed to have.

Here's to my friends, the ones that saw past all the people that spread lies about me, the ones that got me through the days when I didn't wanna smile, the ones that told me I was too good for him but most importantly the ones who stayed true in a complicated world. So live each day to the fullest because you never know when your times is going to be up. Always let the people that you care about know what they mean to you and never give up!!!

I started this thing with a thirst for knowledge. With every drink it was like sipping salt water, only increasing my thirst. Now, leaving GHS, parched, I head out into the world to find the means by which to quench this undying thirst. Though soothing this addiction is my goal, I know that discovering how to do so will be the fun part.
Good luck Class of '09. Thank You

School has been very hard for me ever since I can remember, but I have made it through. I have had lots of support and encouragement through my high school years, from my girlfriend Alicia, and my family. However, there is one teacher at Gorham High School who has made a significant difference in my high school life. Miss Baxter has given me help and encouragement. I have had Miss Baxter for 3 out of 4 years. She has been more than than a social studies teacher to me. She has been someone that I could talk to when I was struggling in school. Also Ty and Gl to my friends CW, TH, JW, JL Ect.

Class of '09 we are finally done!

From fall to spring, all of us here
at GHS have traveled a long, rocky
road since 2005. Well it's 2009 and
we're finally graduating and
pursuing a life to experience all
the wonders of the world. It's going
to be hard to leave our quiet little
town and move on to bigger and better
things, but we'll always have the
memories and our friends with us
forever no matter how far we may go.
Dolly Parton once said that
"Paradise is not a goal at the end
of the road, but the road itself...
More important than the road itself
are the people we meet along the
way. That is the real key to life."
I've met some amazing friends along the
way and will remember
them for the rest of my life.

"A moment lasts all of a second, but
the memory lives on forever."

It's amazing to see how fast the years can go by. It's almost scary to think about. I think it's been about 5 years ago since I moved here and look at me now; I became a senior in no time at all. I really don't have much to say but thanks.

"That's something to be proud of." Wow. People keep telling me, "high school is the best time of your life." I can't yet tell you whether this is true, but I can say it's been an incredible journey. All my life I've done nothing but talk and now that it's time to actually say something, no words come out. I have no inside jokes to share because frankly I can't remember them. my mind some rest. Thank you God,
without You I am nothing. It is time for
me to leave this place, and to make a life.
This stage of my life draws to a close,
But that only means the next is starting.
I plan on hitting it in full stride,
Confident that I do not walk my path alone.
The greatest lesson I have learned is that
Love conquers all fear, and without fear,
We are finally set free.

It felt like these last four years would never end, yet here we are. One day, I will look back and ask myself "Wow, why did I make so many stupid choices?" I will also remember all of my friends who stuck by me throughout high school. We share so many memories that I will never forget. I want to thank my family for doing their best to keep me on the right track, no matter how much I protested. After all that time, I'm glad they put the effort in, although I may have never shown it. I'm excited, nervous, and more than ready to finally get out into the real world and get the heck out of here. Here's to the future and whatever life throws at us on our way.

Look, I don't have any idea of who I am or what I stand for. Break it down and think: What have we actually done in the past 18 years? I can honestly say I don't have a clue on where I plan on going with my life. If I've learned anything from the years I've spent here, it's that the world is far greater than we know. I never thought I'd be the one saying how fast the years have gone by and how you should all enjoy it while it lasts. But it's true. Savor the few moments you have. Time stops for nothing. Goodluck.

The people close to me know who they are... Initials in these things are stupid..

Bob Crowley

Mr. Crowley, affectionately known as just Crowley to his students and colleagues, has been a teacher at Gorham High School since 1988. In these many years, hundreds of students have had the privilege of living the Crowley Experience in his physics classroom. Whether it was setting off rockets (sometimes inside his room), building trebuchets, testing the force of car air bags or dragging his old red truck in the parking lot with a single rope, his students have learned the practical applications of physics in an informative and, often, entertaining way. Even more special have been the countless stories Crowley shared with his classes ranging from his exploits with polar bears in Labrador to his encounter with an attic full of snakes. Of course this past year topped off all Crowleys exploits as we shared his ingenuity and intelligence with the entire country, as he became the sole Survivor. What a ride the whole school, community and state had following Runaround Bob as he outwitted, outlasted and outplayed 18 other contestants to become Gorham High Schools greatest celebrity. Congratulations Mr. Crowley on your retirement. Your influence upon your students will be everlasting. Good luck, have fun, and thank you. - John Caterina

Our Sole Survivor

As soon as we saw his full grown beard (in the hot summer weather), we knew it was true: our very own physics teacher would be the reason homework was scarcely given out on Thursday nights. Instead, we'd spend the night in crowds cheering him on through treks around exile island, watching him win extra food for the 'Kota' tribe, and sitting on the edge of our seats as he won his fifth immunity idol in a row... a Survivor record. It was such a thrill to find out all the dirty details that were left off the screen the next morning in class; the stance to stop gorillas from attacking, Kenny's annoying side comments, the amount of time the snake challenge ACTUALLY took... Every week became harder, as the end came near, to bear the outcome of season 17. He had made it so far without spilling any secrets, (well, maybe a few) that by the night of the finale we were shocked that he had kept it from us for so long. Not only was he America's sole survivor, but our very own.

I believe I speak for the entire senior class when I say we are more than proud to announce our famous Survivor Bob won 1.1 million dollars, and deserves it to the full extent. He has been a legend to GHS as the coolest teacher, ever, and not to mention the only reason we are going on a senior class trip. We thank Crowley endless amounts for being the attraction for our most successful fundraiser 'Survivor Night.' We've also enjoyed welcoming him home at the airport, and of course the millions of pictures and videos in the newspapers and on the news stations... our own five minutes of fame. It's safe to say his biggest fans are here at GHS, the senior class of 2009.

We love you Crowley, and wish you the best in your retirement!

Love always,

Abbie Tanguay and The Class of 2009

Marching Band

For many years, students from Gorham High School who are interested in playing in a marching band have participated in the Old Orchard Beach High School Marching Band. OOBHS's band director, Mark Manduca, invites students whose schools do not have marching bands to join his. For all involved, it is an interesting and quirky experience. Marching band is certainly not the typical fall activity!

Gorham members have contributed to OOB's record of four consecutive gold medals won at the marching band finals. Their most recent gold medal was for this fall's show, entitled "Sharks! The Latin Side of West Side Story."

When you were young, between the broken bones, stitches and scars, we wondered if you were going to grow up in one piece. Well, you made it and have grown into a beautiful young woman. We are proud of your hard work and accomplishments in school and softball and are excited to see where you are headed in the future. Have fun, enjoy life, and follow your dreams.

We love you!
Dad, Mom, and Derek

One of the greatest joys in our lives has been having the opportunity to watch and share in your growth from an infant to a poised young woman. We look forward to following you through your college years and beyond. We are proud of you Kelsey, and love you very much.

Wow! Look at you. I can't believe you are all grown up! I seems like just yesterday you were running around singing Barney tunes. I knew from the first moment I held you, "My Little Firecracker," that you would grow up to be an amazing young lady, and you didn't let me down! You have continued to amaze me over the years with your kindness, strength and perseverance! I am so proud of you and the person you've become. I am truly honored to not only have you as my daughter but also my Best Friend! Stay true to yourself and don't stop until you chieve what you've set out to do! I know you can do it!

I love you!

Garrick Adolf

Garrick,

It is a cliché to say that it seems like only yesterday that you came into our lives, but that does not make it any less true. Where did those 18 years go? Just yesterday we were laughing about "fighting emus from the sky". Just yesterday you described yourself as "nice and smat". Just yesterday we taught you how to ride a bike and watched you use the garage door as your brake. You are a wonderful son and we are so proud of you. We can't wait to see what you will do with your life. You have made us happy every day since you were born.

Brit, so many good times have gone by so fast, and some not so good, like loosing your dad freshman year. That put a toll on you. Always remember your Dad is proud of you too, and will always be looking down on you.

Congratulations!

Where has the time gone? Eighteen years ago I was holding a tiny, blonde, blue-eyed baby girl in my arms and I didn't want to let you go. Now I'm preparing for your graduation and I still don't want to let you go but I know I have to. I know as I let you go and you enter adulthood you'll make the right choices in anything you do. You will be faced with challenges but if you fail, I'll be there to pick you up and when you succeed, I'll be the first one to congratulate you. But one thing's for sure, I love you very much and you'll always be that baby girl that I held in my arms eighteen years ago.

It has been a privilege to watch you progress into the mature, disciplined, respectful man that you are today. I have greatly enjoyed the times that we have spent together fishing and vacationing. You should be proud of your accomplishments as you go forward in life. You have brought much happiness to your mother and a sense of pride to our large, extended family. I have no doubt that you will succeed in life and achieve all goals. If I could share one bit of wisdom, it would be to make the time in your schedule to do the things that you enjoy the most. Follow your career path but also take time to enjoy life.

Trips to Montreal, Quebec, Florida. Sleepovers and talks about college and life and making fun of your haircuts from Shi Shi. I will jar those moments with you and open them often when I am an old man. Fortunately, the jar is still only half full. I can't wait to fill the rest with memories of your college graduation, family, and career. It isn't enough to say that I am proud of you. Moreso, I am proud of those qualities that you bring out in others: kindness, laughter, and hope.

It seems only yesterday that you and Adam entered the world- 9 weeks prematurely, and you very sick. Dad and I shed many tears with worry, and prayed a lot. Then you came home 6 weeks later, only to get very sick again. You, however, were a fighter and God had other plans for you! Now, you're 18, graduating from high school and ready to go off to college and make your dreams come true! You have a beautiful gift of humor, while being serious when you must. Already you've dealt with grown-up issues with thoughtful wisdom. You are a very hard worker, and we know that you will do well in your chosen profession. You are kind and sensitive and have everything you need for success-after all- you've achieved it thus far!

We love you very much!

We love you!

But most of all, you have shown us love by being the special person you are. Take these traits and go make your mark on the world. We love you!

Dear Devin,
God gave me a wonderful gift on the day you were born & I thank Him every day. The time has come for you to be making your own path in life and I know you will be a success because you can do anything you put your mind to. Always be positive and respectful to everyone you come in contact with especially the young, defenseless beings and the elderly, but most of all you parents. I'm so proud of you! God Bless you.

Love you forever,
Memere & Pepere

The day you came into this world is still fresh in our minds. You were then, as you are now, the joy of our hearts. It is an honor to know that we had a part in nurturing and guiding you towards the person you have become. Stay on track, remain honest and loyal and never forget that the world is just waiting for you.

Grammy and Bumpa

To Devin; My life, My heart, My soul. For without you I would not be the person I am today.

I wish for you a smile to be shared by many, a tear to make you humble, adventure to keep you alive and love to make you whole

I wish you joy & success to keep you happy, fear and sorrow to keep you "real" & for you to live each day as though it were your last.

Lead with your actions, learn with your head and love with your whole heart. Be true to yourself & follow your moral compass. Let no one tell you that you can't! For as soon as you say you can, you will!

No matter what you do, know that I am proud of you and will ALWAYS be there for you. Live free, keep the rubber on the road & know that my heart is with you through it all!

Love 4-always,

Mom xoxoxo

I am so proud to call you my son and hope, with all my heart, that life presents you with the one most important thing to be treasured --- happiness. Austin,

From the time you could crawl you had an unmistakable quiet, calm, be true to yourself nature. When you were little there were times we wondered if you really could talk to the squirrels and birds. Then there were the goats at Smiling Hill Farm that you calmly fed as your older brother ran for cover. Later, you turned that animal connection to training dogs. The duck stories were some of our favorites! Great memories of "hoo-hoos", Thomas the Tank Engine, Power Rangers, Pokemon, and kitchen towel capes. We enjoyed seeing you play GYSA soccer, tennis, basketball and especially baseball. It was so fun watching you play first base the year Coastal won The Cal Ripken championship. Many good memories of you and dad skiing Shawnee. From dad waiting at the bottom evolving to you waiting for him. And then, of course, there is the barbeque...always the barbeque! You will always be part of our "Happy Thoughts".

We love you,
Mom & Dad

Time flies by so quickly. It's hard to believe you are graduating already. It seems like only yesterday when you were learning to write your name. Look how far you have come- 12 years and you can write your first AND last name. We are so proud of you-Chandra Wilson- LOL!! In all seriousness- words can't express how proud we are of you and your accomplishments. Samantha Schulte

Samantha Joyce,

From the moment we looked at you 18 years ago we knew that you would be an amazing person. You are truly beautiful but you are so much more than a pretty face - you are intelligent, loving, and have a wicked sense of humor. You are fiercely independent but you balance it with your compassion for others and your beliefs. We are so proud of you and the person you have become.

Continue to be kind to others and treasure your time with family and friends. Life is short - so be adventurous and go out into this world with your eyes wide open and your heart full of love. Whatever you do in the future, always remember that one person can change the world and, wherever this world takes you, we will support and love you always.

Sammy, Slammah Jammah,
Congrats on graduating high school! I know that you'll achieve great things in college and in life in general. "That's so like Samantha to succeed in life." Ha ha! But seriously, although I don't know how many times you'll visit, or how frequently you'll call - I do know that there'll be much less laughter, smiles, and sarcasm in the house. I do know that I can always count on the fact that no matter how many times you sing to me, I'll always laugh at the stupidity of the situation. And, I do know that you are an amazingly awesome sister whom I'll love and look up to forever.

Love you, Emily

To my niece,

Congratulations on your graduation! I am so proud of you and love you more than words can describe. This is a special time in your life and you have so many opportunities ahead of you. As you embark on your college adventures I hope that you will remember some of the important life lessons that I have shared with you....1) Why do we make pumpkin pie? 2) What is the secret ingredient? . . . and, 3) Why do we make cranberry sauce when they prefer to eat the stuff out of the can? Remember to laugh. Remember picnics at the NH Liquor Store, Woonsocket, eye-phone, tattoos...and that even as life changes, family is forever and we will always be together to create new traditions and memories.

Love you,

Auntie, Melissa and Steven

You are going to have a great time in college and do extremely well. I am so proud of you and, although not physically, you will always be my little sister! Good luck with everything. I love you!

Robert Edward Marean

Dear Rob, Sounds like a cliché, but where DID the time go? Everyone says that, but it's true... now looking back at your growing up years, we reflect on the joys your arrival to the world has brought us. You are truly a light that shines, Rob. You stand for what you believe; you're a strong, compassionate, caring young man, and we have faith that whatever direction you choose for your life will be done with eloquence. You have made us very proud, and your natural ability to make us laugh has made it easy to be parents. You amaze us with your commitment and determination...you're a true team player. You have played your sports with a thoughtful mind, playing the game the way it is intended. You listen, you hear, you execute with precision.

With that said, remember that it is okay to fail, in fact, it's what shapes our story...if we were all to go through life without error, there'd be no inspiration, nothing to reach for, and no gratitude or reward. Life is hard at times but, you have the skills, the faith, and the strength to persevere and achieve greatness. July of 1990 was by far, the moment we discovered what life was all about...we started our family with you - we are truly blessed...thank you Rob, for all that you are! Believe in YOU, because we do!

Love you much, Mum, Dad, Matt, Dan, and Barley (sis Cara, too!)

Dear Chrissy,

How lucky we are to have you! You found your life's passion early and have pursued it fervently. Now it has you too.

I am still amazed at how your performances - your singing voice - can send shivers up my spine and cause tears to well-up in my eyes. You dance strong and beautifully - with expression in your face and fingers to toes. At a young age you delivered your lines with purpose and power and you constantly grow. One key to your success is that you push yourself to learn more, do better and try new things.

We have watched you grow into a beautiful young woman - inside and out. You're smart, pretty, a great friend, a crazy jet-skier, artistic, fashionable, creative, athletic (soccer), thoughtful, open-minded, fun and more! You're a wonderful daughter who has helped me in many ways.

We are very proud of you! You have a lifetime of opportunities. Go for it! We know you will do well. Stay strong. Be positive. Be happy. God bless you.

We wish you the best and we love you so much - always

We are so proud of you and all of your accomplishments so far in your life! You have kept the light and sunshine in our world with your childish antics. We have watched you grow into a strong, young woman with a mind of her own.

As you enter into this independent world, don't get too caught up in the mundane tasks of everyday.

Take time to...
walk through the leaves, build a snowman,
watch a butterfly escape from its chrysalis,
lay out in the street to catch a shooting star,
smell the flowers,

You are on your way to setting the world on fire. Make your presence known.

Dani-Le Davis

Dani,

One day we are bringing you home from the hospital, the next, you are racing off to kindergarten, and now you are graduating from high school.

I don't know how it got to this point so fast. It might have something to do with all the crazy parties, sleepovers, movie nights, the road trips to see all the bands, and the friends just hanging around after school. And of course, our black Fridays.

Go out there and make all your dreams come true, you're very capable of doing anything you set your mind to. You are beautiful, intelligent, and you have that wise guy attitude. Go follow your dreams and no matter where they take you, always remember that we are here for you, and love you.

So put your big girl pants and go out there kiddo and enjoy your life.

To our other two girls, Kelsey & Heather, all the best to you, you will be missed.

We are very proud of you;

Noah,

Twenty years from now you will be more disappointed by the things you didn't do than by the ones you did. So throw off the bowlines, sail away from the safe harbor. Catch the trade winds in your sails. Explore. Dream. Discover.

As you make a new beginning in your life, Noah,
Be aware of important things you didn't learn in school:

As you pursue your dreams,
Remember to take time to help others
Even if doing so slows you down a little.
As you explore and develop your unique talents,
Remain humble,
Realizing that your special abilities
Are gifts.

As life hands you challenges, welcome them
As ways to become wiser and stronger.

As you aquire material things,
Know that your most important possessions
Are honesty, integrity,
And the desire to make a difference.
Congratulations, Noah.

May your new path take you where you want to go
And also bring you pleasant surprises!

Abby,

I hope you enjoy your summer break between high school and college and do everything you ever wanted with your friends-have fun! Do not work too much or you will regret it. Good luck at college and congratulations on graduation!!

love, Emily

Abby,

We know of no other young woman with your integrity, determination, work ethic, perserverance, moral compass, confidence, independence and athletic ability. It has been an honor and privilage being your parents over the past eighteen years. We know you are well prepared for college and will be a success whatever you decide to pursue in life.

Rachel Fogarty

It doesn't seem so long ago when you and Patrick were in the Diaper Derby at the Clam Festival! That may be the only event you didn't excel at, but back then, blades of grass were more captivating than the finish line. A natural scholar and athlete, we've lost count of how many times we've read your name in the local paper- volleyball, softball, The World Series!! Independent, driven, compassionate, competitive, "the sparkplug." Best of luck as you head off to college. Remember your family and good friends will sustain you when need support. We look forward to your future, and your time back at home. Don't forget Thanksgiving, it wouldn't be the same without you! We love you Rach.

Love,
Uncle Jimmy, Aunt Kathleen, Patrick and Quincy

Wow Rachel, time has flown by! I can't believe I'm writing you in your senior yearbook. I have loved watching you grow into such a beautiful young woman. I know things haven't always been easy for us, but you have been our rock, our foundation. If you weren't a part of our sisterhood, things would have been totally different. We have become closer as the years go by and I can honestly say life wouldn't be the same without you. I love you so much-you have so much to look forward to in your life. You are motivated, determined, intelligent, athletic, beautiful and you have a huge heart. I know you will do amazing things in your life. I am so grateful that you are my sister. Mum would be so proud of the person you have become, I know she is. Thank you for all the great memories, I know there are many more to come. Remember, I will always be here for you.

- Maryann

It's been 12 years
There's been laughs, there's been tears.
Your hard work has made me proud,
Keep it up, live your dreams,
Hear me loud.
So keep it up and follow through
With all the things
You want to do.
Love,
Dad

Rachel -
You are not only my sister but my best friend (and my twin). You are the person that I go to for advice even if it is if I look good or not, which you always say I do. You are my role model. I look up to you so much and can still not wrap myself around the idea that you are leaving and we won't be sharing a bed every night and I won't be wrapping your feet up to make sure that you are warm enough and say goodnight to each other before we go to bed. I strive to be just like you. You are my inspiration. You are the one that keeps me strong and picks me up when I'm down. I will miss you so much and still do not know what I will do without you here. I know that you will succeed in everything that you do. I will miss you.
Love,
Caroline

Kayla Noelle Colarusso

Kayla,

It doesn't seem possible that you're already graduating from high school. You were just our beautiful baby girl and now you're a beautiful 17 year old young lady. We remember dropping you off to Miss Marybeth at Rainbow School and you'd cry at the window. It would break our hearts to drive away. Then we moved to Maine and put you on a school bus and "I" cried as you drove away. Funny how things change. We'll cherish all the wonderful memories we have of the dress-up parades you had with your friends, watching you cheer for the Jr. Grizzlies, learning to ski at Loon, snowboarding at Shawnee Peak, snowmobiling as a family, making smores or doughboys at your annual birthday sleepover at our camp at Kokatosi, seeing our puppy, Shootah, be born, learning to kneeboard and loving it, the 8th grade class trip to Washington, DC with Dad as a chaperone, watching you play ice hockey for the first time ever junior year and then being picked as assistant captain by your teammates for your senior year, your Lacrosse games, hearing all about Young Life Camp and how it changed your life, dance competitions and recitals with DSOM, going to prom, 'finally' getting your drivers permit and watching you and Kristi grow so close. There are so many more memories to come and we can't wait to be a part of them. Enjoy every minute of every day with that easy going personality of yours. You're such a free spirit, happy go lucky, "no care in the world" kind of person. Those silly faces and funny laughs will be missed around our home. It's been a blast watching you grow up! You have a 'huge' heart with sooo much love to give and have blessed so many with your friendship. We certainly were blessed when God chose us to be your parents. We're so proud of you Kayla. the world awaits you. You can do anything you set your heart on. We'll be right beside you to cheer you on in whatever you do. Have fun and have faith!

All our love and so much more

Dear Becky,
Wow, I find it hard to believe that your life as my "little girl" has come to an end. However, I knew from the start that this day would soon come. I've told you many times before, but I'll say it again, "God truly blessed me when he sent you to me!" You have been such a wonderful gift and I cherish the memories we've shared, as I look forward to making new memories with the young lady you've become. Sweetie, I love spending time with you. Our winter weekends/holidays spent at Sugarloaf, swishing side by side down the slopes, heading "off trail" with our cross country skis, relaxing in the hot tub, noshing at Geppeto's, and the many conversations to and from, will always be special. then there's always the spring/summer that we spent so much time at the Samoset Resort that they called us by name. And of course, I will never forget our spur-of-the-moment road trip, where we ended up in Florida but arrived there via the Pocono's. There's no one I would rather get "lost" with than you! After all, we were never lost, we chose to go that way, right?! Oh, I could go on: singing in the car (& we can't forget chair dancing), multiple walks on the beaches that included great long in depth conversations about anything and everything, Broadway shows in NYC, complete with cockroaches and pizza, and the "almost" skating at Rockefeller Plaza! And I can't forget the years spent watching you grow and perfect your dance until you earned your spot in the "company". Well done, Becky! You gave up a lot to focus on your dance, but you achieved much- a "comapny" spot was an enormous accomplishment. You proved that hard work and dedication truly pay off in the end. I love the way you find joy and beauty in the simple things in life, like the full moon on cold winter's night, a rainbow after a brief summer shower, or a simple nightly sunset, with all the colors awash. Dont forget to keep looking Becky. Beauty and joy are all around you. You deserve the best in life, honey. Always remain open and receptive to all God offers you. You are never alone. God is with you and so am I. I'll always be there for you, even if we are separated by difference. Rebecca, I am extremely proud of who you are, a strong, confident, young lady. I admire you. You have the capacity to love deeply and fulfill your dreams. Your talents, compassion, and convictions will take you far. Listen to your heart, and trust your "gut instincts". Remember, you are the author of your own life. You decide how you will live each day. Make sure and include laughter often, and remember to take some time to play. Love, Mom

From the day you took your first steps
We wondered where you would go
You loved to be on adventures
With your Teddy Bear in tow

With ballet and t-ball
You ventured with these a while
And we as parents supported you
To go the extra mile

You became a big sister twice
Which were happy days for you
For this was another adventure
That you were just meant to do

From Barbies, Bratz and Girl Scouts, too
Your Friday nights of fun
What a blast it's been watching you grow
With regrets we have none

From Panther Pond to Rangeley Lake
It's family times like this
Swimming, diving and kayaking, too
Precious moments not to miss

You're driving now and working, too
Your High School days are thinning
Remember who you are and what you've learned
As new adventures are just beginning

We are so proud of you, Michelle
Your graduation day is here
We will always be by your side
And love you oh so dear

"It can't be time yet," Dad said as we drove to the hospital one month before your due date. But it was time, you were ready to see what life was about - it's been a great one so far. 18 years later we are saying those same words, "It can't be time yet," for our boy to graduate from high school. But it is time, to see what life is about, but now through the eyes of the young man you've become. You have never stood still - hours working diligently in the sandbox, you ran quite an operation. Years spent shooting hoops in the driveway, riding snowmobiles, dirt bikes, fishing, to name a few. The wheelies - finding your balance point. You have kept yourself constantly moving, learning, doing. Off to college now and new experiences, your maturity and humor will serve you well. Finding a new balance point will be a challenge, but no doubt you will make it all look easy. You have grown with a fine example of what hard work can return, success is hard earned, so do something you enjoy and do it well. We are blessed to have you as our son, our friend. We are very proud of the person you are and who you choose to be each day. You are always with us, no matter where you are. Remember that we are always with you and a trip to home (and a good meal) is never far away!

Congratulations! Love, Mom & Dad

Patrick-

You've been such a good brother, role model, and friend to me, and I don't think that you have ever failed to make me smile. I think that we've grown closer over the years without even knowing it, and I hope that will continue. I know you will succeed in everything you do because you always have. Best wishes to you.

Love Always,
Quincy

Michelle,

It's amazing how fast the years have gone by, WOW!! From the moment you were born you changed our world and it has been a remarkable experience. As parents we have watched you grow into a beautiful young lady-someone that is incredibly thoughtful, caring of others and has a positive passion for life. With your smile you light up the world, and we encourage you to keep that positive attitude and smile everywhere you go!

We are so happy, proud, and excited for you as you begin to face all the new and exciting opportunities ahead. There is a tint of sadness for us, however, as we are about to let you go out and explore the world from a whole new perspective. Even though we will not be physically with you, always remember that you will remain in our thoughts and close to our heart and soul, regardless of how far away you are.

Keep on smiling and share your positive attitude and knack for finding happiness even in difficult challenges. What we wish for you most is that you find success, satisfaction and happiness in whatever you do. Remember we will always be here for you through good times and the most difficult times.

We love you very much,

Dad, Mom, and Travis

Caron Tanguay

Hey "C"

Our lives consist of many steps and this, graduating from High School, is just one more step. It's funny when you think of it, but when we watched you take your first step as a baby, that was the beginning of your life's journey.

The choices and decisions you have made step by step have brought you to where you are now and will bring you to where you want to be in the future.

So, Caron, we pray that you will continue to step toward where you wish to go. But remember, a step backwards can bring you closer to where you want to be.

Never stop letting your light shine, "C". We love you very much.

Rachele- Where has the time gone? You have grown from being my little baby girl into a beautiful young woman. Your determination, dedication and competitive nature will help you achieve all your dreams. As you transition into life, continue to be the loving, caring and giving little girl that you really are. Remember that no matter where you go or what you do in life, you have a family that loves you and is proud of you. We love you!

Mom, Courtney and Stephen

Rach - Wow! It seems unreal that you are about to go off to college. You have completed a chapter in your life and are ready to start a new one. I'm so proud of all your accomplishments. Just don't forget all the awesome memories that we have had and know that I am always here for you. I will miss you and I love you sooo much! Sisters always and forever,

Allie Platts

Allie,

Well, we did it. We kept our promise. We did not move and you were able to finish high school in one place! We have moved from Portland, to Glenburn, to Rockwall, Texas and to Gorham. With each move there were challenges, but moving and traveling have expanded your world view and developed your strong sense of fairness, equality, and compassion.

As you get ready to move on to a new chapter in your life, and move from the safety of the mundane to the uncertainty of the future, we feel confident that you have the skills to face new challenges as adventures. We have watched you grow into a strong, sensitive, independent person and we are very proud of you!

Our wish for you
is that life becomes all that you want it to.
May your dreams stay big, your worries stay small.
May you never need to carry more than you can haul.
We hope you never look back but never forget
All the ones who love you and the places you left.
We hope you'll always forgive and never regret
And help somebody every chance you get.
May you find God's grace in every mistake
And always give more than you take.
And while you're out there, gettin' where you're going to
We hope you'll always know, we love you.

Frank Smith

Frankie, we almost missed this opportunity to congratulate you in such a public way in front of the world and your peers. This is the kind of stuff parents dream of.

Our "Little Man" is all grown up, (well, almost) and ready to go off to school and leave home. Your father and I are so proud of you, sadly we don't tell you this enough during the course of our everyday lives.

We have very much enjoyed our time listening to music, talking and of course, your sense of humor. Dad and I will miss all this. But I promise. . . I will not call you and ask that you come home during a snowstorm or any kind of storm. We will worry like we always do, only because we love you.

We hope that you get into the college of your choice, keep in touch with your friends and balance play time with study time.

Peace Out Baby,
Mom and Dad

Crystal Doyle

Crystal,

Reflect on the past, contemplate the future but always live in the present. The "glory days" of the past and the dreams of the future distort the present.

When we reflect on your life, we see a child that has always been deep, and very passionate about life. You have impressed us with your openness to diversity, your willingness to tutor others and your exceptional grades. Your love for reading has helped you grow both intellectually and emotionally.

We know that High School is just the beginning for you because you have an insatiable thirst for knowledge. With great pride, we watched as you received numerous awards for excellence in school. No matter what college or career you choose, we are confident you will continue your quest for success. We are saddened and pleased at the same time knowing that you no longer need our help in order to make the right decisions, but please also know that we will always be here to support you.

The future holds many uncertainties, but with your education and a great portfolio, we are confident that you will persist and persevere until you make great things happen. Walk with both eyes open, do not look-see, do not smell-sense, do not taste-savor, do not touch-feel, do not hear-listen. Seek the truth, which lies in your heart, not perfection. Perfection, like tomorrow, is unattainable. It is our wish that you will seek not only knowledge and wealth, but also love, wisdom and health. Only then will you be able to recognize and experience true happiness.

Crystal, our words are cheap in comparison to our love and affection for you.

The youngest in a family is not always the easiest position to be in. Everyone is always faster, stronger, smarter. It is easy to become daunted by the constant struggle, but you have developed strength of character, spirit, heart, and mind. To follow a sister and brother who have done very well could be overwhelming, but you have blazed your own unique trail, as impressive as theirs. Our pride for you is indescribable. Our hearts swell at the man you have become and will be.

Mike,
WOW! this has been an incredible ride!! I've loved every minute of watching you grow into the young man you are today. We have so many great memories: cow poop, pretending you couldn't read so I would read to you, skiing, and boogey boarding, the many times the car battery died, watching you in all of your sporting events...

Mike,
I can't believe how fast my little guy turned into the fine young man I see now. Congratulations on all your great accomplishments, you now know that if you work hard, anything is possible. Enjoy life, believe in yourself, don't be afraid to go for it, and you will go far.

I'm proud of you buddy!!

As you begin your next chapter in life, work hard, take chances, believe in yourself as much as I believe in you, put family first, and HUG like you mean it! I am so proud of you CB.

You just light up my life.

Julianne Farrar

Julianne! Crosby! Farrar! You have given us so many memories. We have loved every version of you that came along, no matter who you were at any particular time. The little girl who tried to keep up with her brother, who entertained us with dress up, who ran away from home (once), who truly believed we couldn't see her just because she couldn't see us with a blanket over her head, has grown into a young woman who challenges her brother to keep up, who asks hard questions and listens to the answer intently, and who stands up for her friends and her opinions no matter what. (And still entertains us with dress up!) You can karate chop with the best of them while wearing a princess gown. You are sometimes daring as you pursue a well-trodden path. You are willing to try new things, but you hang on to the old things you love. You are a study in contrasts, and we are proud of you. The you that we are watching now move to young adulthood is undoubtedly not the you we will encounter even a few months down the road. All the experiences you will have, all the people you will meet, all the places you will go (thanks, Dr. Seuss!), will have a hand in creating the ongoing Julianne - changing, learning, living, feeling the world as you pass through it and leave your mark on it. And leave it you will! You have a sparkle that is hard to miss, and we are looking forward to all that you will be. We love you!

Sanja,
It was like yesterday when our little angel tried to make her first steps. She was only seven years old when she was very responsible taking care of her little brother. Look, our little angel is all grown up. I know, very soon I will miss your "Mom, do you need a hug?" You always made us proud, and no matter what, we will be proud of you. We know that you will be successful at anything you do and can always trust you. Enjoy every moment of your life, always

do your best and remember your best will always be good enough for us. But we know how strong you are, and you make us stronger. No matter what happens, you will always be our little angel and we will always support you.

We are so proud of your athletic and academic achievements and that we have raised a great daughter. It feels like just yesterday that Grammie and Grampie were reading and writing with you. They would have been so proud to know what an outstanding student you have become.

We will always be by your side.

Congratulations Justin!

You have just completed your first journey in life.

You have taken the seeds Grammie and Grampie planted and grown to enormous heights. They would have been so proud.

We will always be there for you.

Abbie Tanguay

To my amazing daughter,

I cannot believe that your time has finally come. Being the youngest in your grade, it was always amazing how you fit in with the "big kids" so well, and it is no surprise what an incredible "grown up" you are. I am so excited to see where life is going to take you, what big adventure you will take on next. You live with so much enthusiasm and love that your successes will be incredibly fulfilling, both for you to have and for me to watch as your mother. I do wonder where your generous heart will take you next, whether it is in our own "back yard," Central America or the other side of the world. Not many people know how to create their own opportunities yet you have seen more in just these past four years than some will have in their lifetime! Nevertheless, you have been the heart of OUR family, and the absolute grace and kindness that is a part of you has taught us everyday. Thank you for being one who (tries) to keep me on time, reminds me to be patient and who has shown me that no matter what we think we lack, we always have enough to share with those who need it more.

I love you, B'gail.

Abb-

You've always been the sensitive sister. When we would argue over the last cookie, you would cry, win and then give it to me because you didn't want me to be sad. Now, when you see sadness, you go across the world trying to help people feel better! Everything you do, you do with your whole heart, all the way, no looking back. You might have been tough to babysit but you're the best babysitter and lucky for me, I always had a friend to play with-Jackie and I got the best deal having you in the middle! You have a kindness that is unlike anyone else and you are truly the most genuine person I know. It's been crazy these past few years, watching you grow up and go through all the milestones. It feels like you should always be that wild, little freshman in high school rather than preparing to be one in college. I admire you for the person you have grown to be and the way you dance with life. More than that, I'm proud of you for everything you have accomplished and all that you're dreaming of. It hasn't always been easy, but there is no one else I would have wanted by my side all these years than you. It doesn't matter how far away we are, or what's going on in our lives, you'll always be my best friend.

Love you, Sister

Aimee St. Germain

How thankful we are Aimee, to have you as our daughter. Since your early "Buddha child" days, you've had an amazing determination that has helped define who you are.

What a journey!...early home schooling, family trips, conquering those rapids (in and out of the canoe!), Harry Potter books, defending soccer goals and seeking out those lacrosse goals, a proud and caring big sister, a focused student, a team player, a girl with heart!

You've worked to be positive, have fun and make good choices.

You've become a leader and role model.

We are VERY proud of you.
Enjoy your journey.
We will always be your biggest fans.

Love,
Mom & Dad

Aimee,

I can't believe how fast these years have gone by. I mean, you are actually graduating! It seemed like this would never come. I am proud to call you my sister. You have been the best role model and a very big part of my life. I am going to miss you the next few years, but I wish you the best of luck ever! Love you sis.

Mia Lorraine Salamone- McGill

Mia,
Looking back on the day you were born all 9 pounds 1oz. of you, we looked at our little porker and thought what will she become, where will life bring her. As you grew, it was obvious that our little girl was going to be petite, this however never slowed you down. You were into sports, dance, soccer, basketball. With basketball you were on the floor more than up, fighting for rebounds, giving it all you had, sometimes too much! We had the pleasure of watching you grow up, as well as all the girls on your summer softball team, into very respectful young ladies. You have learned how to be a part of a team, how to lose with dignity and how to show respect. We are proud of your academic record as well as your sports accomplishments and wish you the same as you enter into the college experience.

Love you Minnie, with all our hearts,
Mom and Dad

Hey Mia,
You've been a great little sister.
We had some great times
together and we will have more.
Good luck in the future.

Lauren,

Where do we begin?! You've been making us laugh and bringing us joy since you were just a baby, (remember your piggy face?). We're so proud of all your accomplishments over the years in academics, softball, soccer, dressage, and most of all your AFS year in The Netherlands. We'll always admire your courage and determination to leave the comfort of your home, family and friends at the age of sixteen to create a new life for yourself in a foreign country, including learning Dutch fluently in such a short time. You're amazing!

It doesn't seem possible you are graduating already . . . time has flown by so quickly. You've developed into an intelligent, confident, and beautiful young woman. Your outgoing personality, ambition and incredible work ethic will take you far in life, no matter where you are or what you pursue. Just never forget, we will be here for you always, and we love you more than words can say.

Love,
Mom & Dad

Lauren,

Love you much Chica, and I will always be here if you need me. -Britt

Myself

I have to live with myself, and so
I want to be fit for myself to know
I want to be able, as days go by,
Always to look myself straight in the eye.
I don't want to stand with the setting sun
And hate myself for the things I've done.

...

I never can hide myself from me;
I see what others may never see.
I know what others may never know;
I never can fool myself, and so,
Whatever happens, I want to be
Self-respecting and conscience free.
