# In Loving Memory of Timothy Stickney

The saying goes that "The optimist sees the roses and not its thorns; the pessimist stares at the thorns oblivious of the rose." Timothy Stickney was an optimist's dream. Instead of seeing a single rose he saw bushels and gardens full of roses. Being upbeat wasn't just a hobby for my brother, it was a full blown occupation. Often I would wake up early, grouchy and tired and there he would be, happily watching part of his favorite movie, his wide toothy grin splayed across his face. He was always eager to start the day, seeing it as his own adventure. My brother had a love for many things, one of which was school, and there was no better community for Tim than Gorham High School. I've heard horror stories about bullying at other schools, and when he first joined me as a student I was worried that not all our classmates would be accepting. Eleven years of education have long since put these fears to rest. The entire town of Gorham has always been extremely accepting and welcoming of my brother. Despite his autism, he led a normal and happy life. He had friends inside of his classes at school, but he also had many friends outside. One of the most refreshing things I enjoyed about my brother was how quickly he made his friends.

There were so many different facets to my brother it's hard to describe them all in a few simple paragraphs. He loved classic Disney movies, Jimmy Neutron, and computer games. He could skate circles around me on the ice, and if it were possible to survive on a diet of only french fries and chocolate ice cream he would have done it gladly. I don't know if I'll ever be able to paint a perfect picture of him, or instill his essence in the strangers I meet. I don't know if I will ever be able to describe the joy he brought into my life, or the fun we had together. I don't know if words can ever be that strong. However, I know I'll keep trying. My brother's time on this earth ended sooner than any of us wanted, and it is a tragedy that has rocked my world these past few months. To me Timothy was more than my brother, he was one of my best friends. It is painful when I think about not seeing him in the upcoming years, but I know that he will never truly leave me. His memory and his spirit will stay with me as I make my way through life. I love you buddy, you will always be in my thoughts and prayers.

# Remembering Mrs. Dawn York

Although Mrs. York was at Gorham High for less than two years, she made a difference. Most of her time here she was not only teaching, but courageously fighting cancer. Even though she had to miss school for medical treatments, she was always thinking about her students. Often when she was at school she was not feeling well, but still she did a terrific job and maintained an upbeat attitude toward her students.

In her brief time here as a staff member she volunteered her services regularly. She joined the math curriculum committee, offered to speak at the Parents Nights and attended the eighth grade transition meetings. She worked on establishing PLATO as our credit recovery system for math courses, and created assessments for our new standards based reporting system. If there was work to be done, she was the first to volunteer.

From the students perspective, she was caring and consistent. With high expectations for all of her students, she always did her best to help them learn mathematics and to wind their way through life's lessons. She enjoyed her students and wanted them all to shine. She was willing to give one to one assistance to anyone who was struggling with math concepts and time to anyone who needed to talk. She stepped into an advisory group and brought them together like few others. They took turns bringing in snacks and played games, and they actually made t-shirts touting their pride to be in her group.

Prior to arriving here, Mrs. York had worked at Gorham Middle School, and for years before she had taught in Millinocket. She was a three-sport athlete in high school and showed us her stuff at the faculty game during a pep rally just months before we lost her. She projected good health, exercised and did all of the right things to stay well. She adored her family - her husband Andy, a police officer in Westbrook, and her two sons Drew and Alex. Family time meant the world to all of them and their love for each other was palpable.

Those who were lucky enough to know Dawn York will not forget her. We are painting a mural in the math hallway to remind us of her love for mathematics and teaching. Also the Dawn York Memorial Scholarship is in place to reward a student who lives by our school's five guiding principles for an ethical and involved school citizen. Dawn York lived and breathed respect, honesty, courage, compassion and responsibility. We all wish she could still be here so we could thank her for all that she gave us

# Dedication

Mr. Durgin usually refers to himself as a boy from Lovell, a little village in western Maine where he grew up. Gerry hunted, fished and played sports as a young man, and his passion for these activities still exists today. Gerry played football, basketball and baseball at Fryeburg Academy, and he followed his love of athletics to the University of Maine at Farmington where he played soccer, golf and baseball. While at the University of Maine at Farmington, Gerry met his wife, Ellen, and they started a family, which includes their two children, Alisha and Jenny, who are now married with children of their own. If you have seen Mr. Durgin with his family, you know that family life is at the core of his values. Other core values include integrity, hard work, teamwork, professionalism, class and respect of his peers in the state of Maine and around the country. He served as the president of both the Maine Interscholastic Athletic Administrators Association and the National Interscholastic Athletic Administrators Association during his illustrious career. The state and national associations also honored Mr. Durgin with many state, regional and national awards through his career. Not bad for a kid from Lovell. Mr. Durgin rarely mentions these awards or positions, because for Mr. Durgin, the value of his job lies in the contact with students here at Gorham High School and watching students.

Mr. Durgin, your commitment to providing Gorham students with successful opportunities in athletics so that they can grow as young adults is appreciated, and the class of 2011 extends their congratulations on an incredible career, and we appreciate the countless hours that you have provided through the years of students of the Gorham community. Thank YOU, Mr. Durgin.

# Dedication

The Latin term *alma mater* means "nourishing mother". When I think of Tomi Auger and Gorham High School, the term is so fitting. Tomi graduated from Gorham High School in 1977, known back then as Tomi Yager. She followed a traditional path of attending a four-year college majoring in education, and as soon as she returned to her hometown, it didn't take long for the school system to welcome her as a teacher. That was 30 years ago.

Tomi Auger is a well respected special education teacher at Gorham High School. She is a "go-to" member of the faculty. With 30 years of teaching experience in one facility, she knows the drill, and she's always willing to set the record straight. Most of all, she has what it takes to be an excellent educator: compassion, dedication, leadership, and the drive to follow her convictions. Over the years, she has utilized her professional intelligence and expertise to reach students facing adversity. Many of them would be the first ones to express that they would not have made it through high school without her.

Thirty years ago, Tomi Auger made a choice. She could have chosen any career available at that time, and she could have changed her career path along the way. However, Tomi chose education. She chose to serve others, to teach and assist young students through vulnerable periods of their lives. She chose to foster and nurture young minds. As a result of this choice, she has dedicated her life to special education, working on behalf of a wide range of students in need of additional educational instruction and support.

I look to Tomi as a colleague and a friend. We do the same job, we share a classroom, we have plans to follow, deadlines to meet, students to instruct and assess, meetings to attend, and reports to write. We've shared laughs and tears and car rides, and together we've watched our own children grow up. I consider myself lucky to have had the opportunity to spend a good portion of our careers as co-workers, often collaborating ideas, sharing responsibilities, and consulting with each other on what is "best practice" in our field. Collectively, her students have benefitted from her gentle nudges, her advocacy, and her never-ending faith in their abilities. Without fail, Tomi's first thought to any challenge or educational idea is, "What is best for the student?" When one observes Tomi in practice, it is obvious that her entire teaching career has revolved around this very question. That is what makes Tomi Auger one of the best in the field of education.

Tomi, on behalf of Gorham High School's staff and students, we thank you for 3 decades of service. It is with pleasure and gratitude that we all wish you the very best in your retirement.

**Best wishes always,  
Carol Besanko**

## 2010-2011

Dear GHS,

This year has been one of the craziest years of my life. When I was asked to do this last spring I had no idea what I was in for. I have never been so dedicated to something in my life, anyone who knows me will back that up. This book has become a part of me, and hopefully will become a part of you as well. There were things that changed and some that stayed the same, but no matter what this book is a piece of history.

There are a lot of obstacles that have proven to be a challenge, but with the help of my amazing staff we pulled through. I have to make a shoutout to Ellen Wing, our awesome Jostens rep who has done everything in her power to make all our lives easier. To Mrs. Acker-Wolfhagen, you are literally the glue that held us all together with your loud "projectile" voice, and all of your homemade cookies. You were able to put up with us no matter how roudy and off topic we got, and for that I applaud you. When there was a nasty e-mail waiting in my firstclass I knew you would be there to help me brush it off and move forward. There is no way to thank you enough for all the fun, the stressfully long days, advice, and friendship along the way.

This yearbook staff is undeniably the most dedicated group of people I have ever met. Thank you all so much from the bottom of my heart. If you find something you wish to change, do something about it, join the yearbook committee! Good luck to next years editor..You're going to need it.

Thank you once again,

Taylor Hammond (Yearbook Editor 2011)

# **Class of 2011 Advisor's Message**

To the class of 2011,

Congratulations! You have grown and accomplished much in the last four years here at Gorham High School, and soon you will be striking out on your own. New challenges can be frightening, but I have no doubt that you will confront them with the same courage and determination you have shown here at GHS. Recall your first steps through the doors of GHS. It might not seem like such a great challenge at first because you have been doing it mostly without a thought since that first day. After a moment of reflection though, you can see yourself standing in the lobby of GHS nervously wondering what the day would hold and what the next four years would be like. With your first day under your belt you went on to new and greater challenges even if in hindsight they now seem small. You gave a speech in front of the class. You learned to talk to your teachers and ask for help. You signed up for a tough class. You tried out for the school play. You persevered when you didn't get the part, make the team, or get the grade. You said something when others were silent. You took a leadership role. In the end you did more than you thought you could.

It has been a great pleasure for me to work with you and your class officers, and it is my sincere hope that you will continue to meet the challenges, great and small, that confront you. Lastly, if anybody ever offers you the opportunity to dress up like a rock star and sing with the band, take it.

Sincerely, Mr. Panagakos

## President's Message

So...2011 is finally here, and we're finally experiencing what it's like to be "big bad seniors" at Gorham High School. Senioritis is rampant and most of us have more trouble getting up in the morning than ever before, even though now some of us can do it at 9:00. We have trouble doing homework worse than ever before, even if it's a two question physics worksheet that we could in any other year finish in a good 2-3 seconds. We're stressed (or absolutely not) about our future college lives, struggling to finish those supplement essays, or those evil scholarship essays. And most unfortunately, although we're having a BA senior year, many of us have had quite enough of Gorham High School.

This isn't a horrible thing though, because we've been able to have an almost infinite amount of good times over the last 12ish years. From Wackadoo Zoo to The Music man, from Mrs. Baker to Ms. Herlihy, we've been incredibly blessed to have such an amazing school career. We've never had any infamous class vandals or Facebook trolls (with some exceptions), no noticeable class divisions, and only a limited amount of "drama", most of which existing solely on Facebook. We've been a pretty tight knit group for as long as I can remember, even when we got to high school and found out that it was okay to be friends with older and younger people. The most noticeable difference from us and other classes, however, isn't really describable at all. We've just always been a much more mellow group of people; we've always just had fun, and never gone to extremes to get attention. Congrats Class of 2011!

-Don't take life too seriously, it won't be that much fun.

## Emma Alden

There are times I won't remember, people I'll leave behind. There are dances skipped, games lost, auditions bombed. There are those.

But there are people I still like. There are moments when I laughed. These are victories. There are few of these.

I remember surviving on oxygen alone, and how the best things had no connection with this place.

There's one concept I'll need now.

High school, by far not the best time ever, but we made it. I finally get to leave this prison we attend 5 days a week for 6 hours a day. Not that I didn't like all the drama and fighting 24/7, but glad I'm out. Yet through all the tough times I've learned alot. And not just in class, because who pays attention anyways? The greatest lessons I have learned in school and sports are about life. I have learned that no matter how great the odds are stacked against you to never give up. To give everything your all, and when you do get beat, to keep your head up and go at it again. I would like to thank everyone of my football coaches for teaching me how to grow up. But most of all I want to thank my Mom. Thank you for always being there when I needed it and helping me through everything.

## Travis Alves

## Michael Arsenault

I'd like to start off by thanking a few people for making this experience so memorable. Mom and Dad, I couldn't have done it without you. Always there when I wanted you and when not. Steven, you can't explain my experiences with words, you're a brother to me. Rick for all the times spent with me on my golf game. Tammie we always fought but always fun times. Love you all. "A kid grows up a lot faster on the golf course. Golf teaches you how to behave." -Jake Nicklaus. There is no better saying of how the game I loved has changed my character. ## Thomas Bahun

Don't ask for it. Go win it on your own. Do that and you will succeed.

High school pushes your limits, then sends you off on your own. So here we go class of 2011, let's leave here with no regrets. I thank my family. Mom and Dad, I may hate to admit it but I couldn't have done it without you. Alex, Big Bro, I couldn't have asked for a better role model. EB, KG, MC, MT, CB, FH girls. Thanks for everything. El-good luck, I'm always a call away.

## Benjamin Besanko

It's not like my friends helped me with my homework or schoolwork, but all of them made it fun for me. I had such a fun time in high school with all my friends as well as the dances and Friday football games. I would also like to thank my parents for all their help on my homework, and other things that I needed serious help on. Now I am off to college and hopefully everything will turn out great.

## Devin Brann

I look back and think about all the friends I've lost, and gained. The love I found and the lust that hurt me. You can't let one moment spoil a bunch of good ones, and now I'm at the end of a long journey and must start the next phase of life. I'll miss it all, but I know that I'll never forget it. I must thank all my friends and family who have given me the support when things have been rough. For the future seniors, keep this in mind.

## Sydney Butler

These last four years have been the longest years of my life. JK They flew by wicked fast. I wouldn't make it through the summers without my friends. I wouldn't know what lure to use on our fishing adventures without BJ. I wouldn't have the satisfaction of getting orange chicken 5 times a week without MA. I wouldn't have any one to mooch off me for chill-zones without JR (I'm sure BJ thinks the same thing). No friend would be a Yankee with me except ZS, and no one to slam dunk with and vice-versa without SD. I want to thank my mom and dad for supporting me with everything, whether it be athletics or academics. Hopefully your bruises from me heal little bro. Peace.

To my parents and family: I cannot begin to thank you for all your love and support throughout all these years.

To Kyle: Good luck - even if I know you won't need it!

To my teachers: In spite of all the homework, thank you for your guidance.

To my friends: Thank you for not letting me take everything so seriously and always keeping me laughing.

## Brady Buzzell

It's been fun but I'm glad to be out of here. Thanks mom and dad for all the help and Pupa for the truck. Jesse, Luke and Ty for always being there. BD TA EB AH a few good summers.

From bonfires to Mr. Adams class, these past four years have been the craziest, best years of my life so far. Thank you to all my friends & family for all you've done for me. Nolan, Shawn and Haley, I love you guys more than anything. Good luck! KB,JG,JD,JM,CG. xoxo.

Mommy; I miss you more and more everyday. I wish you were here to see me graduate, but I know you're looking down! I love you so much.

Congrats class of 2011!

I finally see what HS is all about. It's not about doing HW or the stress of huge tests, it's about the accomplishment of growing up, maturing, and finding out who we really are. Those are not things we learn in class, those are the things we spend the 4 years finding out. To my parents, and friends thank you for supporting me through all the difficulties in these four years. I would not be here today w/o you. Ryan thanks for leaving a great legacy for me to walk into. Jon, through everything you have been by my side, thank u, I love you! To my friends (RM, JW, BN, KI, TC) you guys are great! SD you will forever be in my heart <3 "Life's a dance you learn as you go, sometimes you lead, sometimes you follow..."

Senior year has finally come; I can't believe it. Gorham High School has been a place I've definitely grown and changed, mainly for the better. The people that have filled my four years have been amazing, each playing their part to make me who I am. I would like to thank all my teachers for helping me through the four years of high school. I would also like to thank all my friends for being there for me, making sure I wasn't getting into trouble, and caring for me through out the four years of high school here. At this school I have supportive friends who care for who I am as a person and for my needs. All of my friends have always been there for me and I want to thank all of you for that. I would like to conclude this message by saying farewell to all the teachers and I wish I didn't have to leave, but that is life and I have to deal with it. Oh yeah, one more thing is that I hope the next class is as successful as our class and they will keep trying their best to succeed in life and school in particular.

Life is something I don't fully understand. To understand life, is to have nothing to live for. If you knew what was around the next corner, if you knew why you were here, if you knew all the secrets that life had in store, then there would be no point in living. The little I know about life is as follows: Love your friends and love your family. They're the ones who really care about you, and you need to return the favor for them. Love somebody. Find someone who cares. You need to find someone out there who will love you as much as you can love them, and hold onto them. I've found that person in my life, and that's really all I need. Lauren, I love you, and I appreciate everything you've done for me. Life is something I don't fully understand, but I intend to live it as if I do. Good bye and good luck to you all.

It's finally come down to this. I'm supposed to fit my entire highschool experience into 21 lines. Everything that has made me who I am today. To me, this is a daunting task, I suppose that is why I have waited until the night before Senior Write Ups are due to write my words of gratitude. All I can do is simply thank my parents, friends, and teachers. I'm a product of everything you've taught me. Mom, Dad, Alek, Werner, S. Reynolds, D. Roy, S. Mulrey, D. Gaudette, S. Baxter, L. Berthiaume, D. York, R. Roy, S. Hatch, S. McCarthy, K. Herlihy, S. Becker, Thank you. This is it. This is life. There is nothing to wait for.

Maybe in the long run, 13 years of living in Gorham isn't much time, but when you're a kid, you think the world will always revolve around poptarts & stuck-in-the-mud. You hope when you graduate, everything will be figured out and answered. Though so many questions are still out there for me to answer, I want to thank GHS for preparing me as much as possible! I want to thank friends who've loved me unconditionally, from my excessive use of sarcasm and corny jokes, to putting up with me during my awkward middle school years! Mom & Dad- Thank you so much for sticking it out as I whined about my Algebra homework, forcing me to go to history museums, and helping me through everything!  
Congrats & Good Luck Class of 2011

I can't believe it's been 4 years since we were freshmen walking into the highschool, clueless. I would just like to thank my parents and sister. Abbie, have fun it goes by too fast. I would also like to thank those few friends that have been there for me through the rough times. MT SD SP you guys have no idea how much you mean to me. And to all my lax bros, SD KN EG NH MS it's been real. I'll never forget you guys. These were the best 4 springs of my life. All I can say is I'll never forget Gorham High School and all the good times it's brought me, all the friends it gave me, Friendships that will last till the day I die.

I look back and four years, really!? I cannot believe it has finally come down to this. I want to say thank you to everyone who helped me get through my short, yet challenging career at GHS. Could not have done it without you Mom, thank you for your 100% dedication and support, we've been through a lot. Where will life bring me next?

## James Lewis

So here I find myself beginning a new chapter in my life. Before I start, however, it's important to remember all who helped get me here this far. I owe thanks to my mother & father who helped shape me into the person I am today. My appreciation for you two goes beyond this test & although I may not show it, one of the best feelings is knowing I have made you two proud. I hope to one day resemble a parent in the same way you have done with me. Erikka, thanks for being the role model that you are. Jon, you're the brother I never had, thanks for being there for me. A big shout out to my "boys" and others who made GHS a memorable 4 years. Now it's our time to enter reality.  
Good luck Class of '11!

## Amy Linscott

Staring @ this blank document before me I can only think of one thing: my time here at GHS is finally over. I have been waiting for this to happen for quite some time now, yet all I can think is what now. Whatever it may be, my plan is to approach it with a bunch of BS and procrastination just like I did here.

I love my friends.  
I thank them for everything.  
We couldn't have made it here alone. The best of the best are the one I need to thank. eak, mma, kls. My sisters and brother banded together to set a good example of where I don't want to be when I get older. So thank you Jeffy, Natasha, and Shawna for indirectly leading me to the right path.

Hmm...let's see:

I'll miss everybody of course, you know, all that "I'll never, ever forget you!" mumbo jumbo. With the formalities of our last year it seems we've all been too busy to really spend time with each other. Each year it gets harder to shift schedules. :/

Wow senior year. Can't believe it's done. Even though it's had its terrible moments, I wouldn't trade these years for anything, they were fantastic. There is no good way to explain my time at GHS, but this song comes close enough.

"So make the best of this test and don't ask why it's not a question but a lesson learned in time. It's something unpredictable but in the end it's right. I hope you had the time of your life."

It all started at the big White Rock we're all friends one awesome flock. Teachers guide and help us know, a place to play a place to grow. I know THAT school song by heart. Then came change, some of which I object-shawl dances to flag football That in exception, we have pursued change. Crayons to oils. Dr. Seuss to Herman Melville. Cubbies to cars. Awesome flock of friends-pink capes, tech-crew-hustling, rhythm section, painting...everything...Teachers to guide, to teach me art, whether the class was History o Espanol. The knowledge that has been poured into me via this community is infinite and invaluable. I can picture that June day already, a culmination of 4 years of hard work that I would've never been able to complete alone, so to all my teachers & coaches I thank you for shaping the person I have become & laying the foundation for the leader I aspire to be. My friends, you know who you are thanks for the memories that I will forever carry with me. But most of all, I will forever love & gratitude to my family; Elliot, I am so proud to have you as a brother, more than you know. Mom, I know you will always be there. Dad, if I am ever half the man you are I will consider myself a success, you and Papa are my inspiration. This chapter may be ending but the book is far from finished.

One of the things I will remember is all the  
teachers in the room. Like Mr. Hart, he has  
always had a sense of humor. Another  
thing I will remember is all of the friends I  
have made here. I will remember  
Mr. Wojital, for helping me at PATHS when  
I needed him. And I will remember going  
on a train ride to Boston. I would like to  
thank my mom for bringing me to this  
school in the first place. I would also like to  
thank my grandmother for listening to me,  
mostly about what goes on here at  
Gorham High. Thank you to all my friends  
I made here and at PATHS.

Mom & Dad, thanks for pushing me to  
always do my best. I could have never  
done it without you. I love you & I'll always  
be your little girl. Andy, you inspire me, I've  
always looked up to you. I'm proud to call  
you my brother. To all my friends that have  
been there throughout everything, I love  
you. Mark Walrath, my best friend. You're  
what keeps me going every day, you  
never fail to make me smile, I love you.

To the class of 2011, we did it!  
Congrats and good luck.

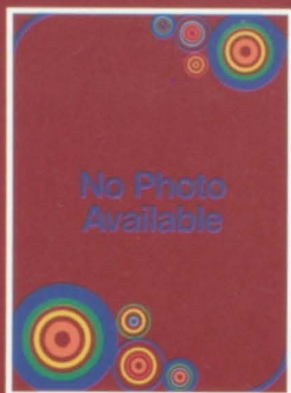

"Thanks everyone!"

I've learned a lot this year. More  
than just random history facts and  
how to write a good essay. I've  
realized that things don't always  
turn out as planned, or the way we  
think they should. I've learned  
that some broken things stay  
broken, and that you can get  
through bad times and keep looking  
for better ones, as long as you  
have people who love you.  
Mia Rapolla, our adventures have  
easily been the highlight of my  
high school career. Thanks for  
being the craziest best friend  
a person can have. Ashley Earl,  
you gave me the greatest gift in  
life. I won't forget that. Thanks  
so much. Congrats 2011. Peace GHS.

I believe this is true, our class will make an impact on the future and the generations to come. That being said, I would like to thank those responsible: Mom&Dad you are very supportive and I love you both. Josh, thanks for clearing the path and making my journey easier. Thanks to my friends, teachers, and coaches, especially Mr. King - you have taught me a great deal about life.

It's been a long four years. Thank you Kurk N., Susan S., and most of all my parents, my girlfriend, and my daughter. I wouldn't have made it this far without all of you.

It does not seem possible that high school is over. Mom and Dad, thank you for everything you have done for me. I would not be the person that I am today without all of your love and support. Thank you to all my friends for the great times and a special thanks to all my teachers for everything you have taught me.

Finally a Senior! It's been pretty tough getting here, but my friends and family were there for my every step of the way. My high school years are FULL of many amazing experiences that I will never forget, but it will be exciting to finally enter the real world. So, I want to say thanks to my mom, dad, sisters, my brother, and especially friends MT, CD, ZM and of course, JT.

"All our dreams can come true, if we have the courage to pursue them." Walt Disney

Becca,

Since the day you were born, you have been our dream come true. You have given us more happiness that we ever thought possible. You are a kind, compassionate and loving individual and we are unbelievably proud of the beautiful young woman you have become. But above all else, you are an inspiration to others with your willingness to always stand up for what is right. As you begin your life's journey, remember that you are destined to make a difference in this world!

Congratulations and much love,  
Mom and Dad

"An individual has not started living until he can rise above the narrow confines of his individualistic concerns to the broader concerns of all humanity."

Martin Luther King, Jr.

# Ashley Grover

It seems like only yesterday that you were a young baby struggling to live and now here you are, a young lady graduating from high school! What an accomplishment for you!!

You have a zest for life, loving the outdoors every season of the year. Swimming, camping, basketball, snowmobiling, four wheeling, or just taking a long walk are all part of what you enjoy the most. And let's not forget all those precious little ones you love to hold and care for.

Your warm, caring spirit enfolds everyone. You bring laughter and joy into everyday life. Our wish for you is an adult life full of new friends, adventures, and accomplishments beyond your imagination. We love you!! Mom, Dad, Rozada and Nana

# Alena Hope Kiel

From day one you were determined to make a mark on the world. Born 11 weeks early and very, very small, you fought hard to live, to grow, and to overcome many obstacles so that you could finally come home from the hospital. Once we got you home, you quickly showed us how special you were. You developed a feisty demeanor, an exuberant smile, and an overwhelmingly charming personality. People were, and still are, immediately drawn to your sweet and loving nature and have a genuine interest in what you have to say. Today you are one of the brightest, most compassionate, sensitive, captivating and fascinating people we are not only so lucky to know, but are so infinitely blessed to have as our daughter as well. Every day we are amazed at what a creative, imaginative, loving, caring person you are and how committed you are to doing the right thing. We are so incredibly proud of the young adult you have become and know you will excel in everything you set your mind to. Thank you for telling stories and creating beautiful pictures through your poetry, and for allowing us to see your world through your precious gift of writing. We pray that you continue to write and express yourself from your heart, because it is your heart that holds the most profound and beautiful thoughts we have ever imagined or read on paper. Every day we learn a bit more from you and are surprised at the depth of your complex and passionate personality. You amaze and humble us with your insight and your very old and wise soul. As you prepare to graduate and go off to college, our advice to you is to make good choices and to stay true to yourself. Continue to be kind and respectful to others, but no matter what, never let people bring you down. When you face adversity, face it proudly, defiantly and confidently. As you grow, don't forget to forget and smell the flowers and enjoy yourself once and awhile. And last but not least, never forget that we are always here fighting for you and cheering for you as your biggest fans. We love you so much and are so very proud of you. Good luck in college and do well. Even though we will be far away from you, we will never be far from your heart. Love, Mom and Dad.

Congratulations Ali for making it through high school! Now you're off to college, where people will be more mature, open-minded, and less annoying. You're an intelligent, funny, and compassionate person who people will be excited to meet and to learn more about. All you have to do is go in with an open mind and a smile on your face and you will flourish. In the words of our cherished headmaster, "And now Harry, let us step out into the night and pursue that flighty temptress, adventure." (Harry Potter, JK Rowling) Good luck! Love, Sissy

Good Luck Ali. I will miss you! Love, Noah

## Colleen Ward

Colleen,

Congratulations! We are so proud of your accomplishments and who you have become. Good luck with your future and remember to approach everyday by "learning something new"!

Love,

Mom, Dad and Jordan

## Aaron LaPorte

Aaron --

In what seems like the blink of an eye, you've gone from being an "ever active" kid to what you are now: a talented, intelligent, and compassionate young man who we are so very proud of. It has been a privilege watching you grow... we can't wait to see what your future brings!

Love,

# Sydney Butler

Sydney

From the first time you smiled, we knew you were special, even though then, you didn't speak any words. Through the years, you have filled our lives with laughter, pride, a sense of accomplishment, intellect (lots of words!) and most of all unconditional love. We would like you to know that you have made one of our dreams come true and you have done that by becoming the amazing person you are. Don't change too much - except to grow; smile often; laugh when the situation calls for it; open your mind and your heart to new things; continue to let people see the kind and compassionate person you are; and keep working to achieve your goals. Most of all keep being you. Love Always, Dad & Mom

Sydney,

You are a joy in our life. Whether cooking, making crafts, attending a play, or visiting a museum, we have fond memories of an exceptional child and young woman. You have always been sweet, kind, compassionate, loving and helpful with a thirst for reading and learning. You have filled us with a sense of wonder. You are special. Love you, Nana and Grandpa Al

Sydney,

I can't believe you are all grown up and are getting ready for college! I am very proud of who you have become and hope for only the very best things for you. Love, Grammy

Sydney,

Let's face it, it's going to be quite boring without you around. Who is going to eat junk food with me while watching "Harry Potter" at 1am? You are a great sister and I am going to miss you. Have a fantastic time while you are away at college. Love, Kiley

# Cori Shaw

Cori:

The time has flown, and my beautiful baby girl is a young adult.

You were a determined child, always keeping up with Patrick, Darin and Nate. An amazing big sister and a wonderful daughter with an infectious laugh!

You have always been strong willed, hard working and responsible. You balance this with a bit of sarcasm, wit and joy in the small things life gives you.

Your compassion and understandings always leave people feeling a little bit better and that dear Cori, is truly one of your greatest gifts.

We are so very proud of you Cori!

Love You,

Mom, Justin, and Cameron

Cori-

You are the best sister we could all ask for. You make us all laugh, smile, and be angry at you for just the little things you do. It will be weird not being able to walk across the house to talk to you. We'll miss riding around in your truck with you singing and dancing like maniacs. We love you, we'll miss you

Caitlin, Dayna, Cameron, & Darin

# Mitchell Perrin

Mitch,

We wish you the best in life  
Life just gets better and better.  
And remember:  
"You don't get harmony when everybody sing  
the same notes."

Doug Floyd

Love you lots! Mom, Dad, Will and Ellie

# Lindsey Charlton

To Lindsey,

From baby to toddler to  
teen to young woman!  
You have made it!  
PAH!! Now the next  
step into a world that  
has all endless  
possibilities for you to  
Dream Big! Congrats!!

Love & Hugs,

Dad & Mom

# Lauren Garrard

To our beloved Number 3:

You've had a cheerful demeanor from day one-

Happy with hand me downs, able to amuse yourself, make friends in any  
situation and go with the flow.

To say you have been a joy to raise from child to young woman would be an  
understatement.

Your infectious laugh, big smile, positive attitude and sunny personality have  
added so much to our family.

We have no doubt you will have a full and happy future, surrounded by  
people who love you, no matter where you are or what you do.

Be true to yourself and always remember we are proud of you!

Love, Mom, Dad, Kelley & Meghan

# Ashley Earl

Ashley,

I can't believe it has been 18 years since I brought you home just under 4 lbs. You have been full of spirit from day one. I never once worried about you being a follower. You are definitely unique, one of a kind and I am so proud to be your mother. You're a leader, someone people including myself look up to.

I see all the choices you have made, all the stands you've taken, your individuality, your faith and the wonderful person you have become and will continue to be. Never doubt yourself Ashley and never settle for less than what you deserve. I could not have asked for a better daughter you are truly the best.

Watching you dance and express yourself has been amazing. I know dance was in the beginning, your escape from emotions that you were unsure how to deal with but your talent is indescribable. Keep that with you if not on stage than in your heart.

I know you think I don't want you to leave on your journey through life, you couldn't be more wrong. Yes it is hard for a mother to let go but I want you to fill your life with everything that makes you happy and know I will always be here for you and I'll always be loving you with all my heart.

Oh, and Ashley, "Where you lead I will follow"

Love, Mom

# Jeremy Earl

Jeremy,

It amazes me you are graduating already. I feel like just yesterday you were my big brown eyed baby boy. Your biggest quality has always been your heart. You have a huge heart. You have always been caring and protective of those you love. I hope you always follow your heart and chase whatever dreams you have. Dream Big! You can achieve anything you want.

When you're on your own and struggling with decisions, I won't worry that you will make the wrong choices. You're strong and if you go with your heart you will be fine.

I have loved watching you grow and every change, physically, mentally, and emotionally. Loved watching every game you played and every race you ran. You're a great athlete because you give it your all! I always knew you'd be well respected, a great friend, a caring person and the most perfect son I could have ever asked for.

Thank you for all you are and all you do. I love you with all my heart.

XOXO Momma

Sarah,

It is difficult, if not impossible, to find words that can adequately describe our respect, admiration, and love for you and the person you have become. You have been, and continue to be, the most important and interesting dimension of our lives.

The changes you have made in our lives and the lessons you have taught us have proven to be invaluable and we will be forever grateful to you. You taught us to slow down, take a deep breath, and start enjoying it all. From you, we learned to see and hear everything around us. We learned to look for the good in each individual and take the time to stay connected to our family and friends. We learned to embrace diversity, sympathize with the unfortunate, and cheer for the underdog. You taught us to readily admit our mistakes and shortcomings. Most of all, you showed us the lighter sides of life and gave us the ability to laugh with each other and at ourselves.

Sarah, you have always made wise choices in your life and we know the future will reward you well with solid accomplishments, an abundance of happiness, and most importantly a strong and healthy mind and body.

Thank you for what you have given back to us.

We love you,

Mom and Dad

# Seth Wing

You have always made us proud to be your parents~ your passion and drive to succeed, your quick wit, and your loyalty to family and friends, are what makes you such a special person! Through the years we have enjoyed so many wonderful family moments~ summer days spent at camp, swimming, tubing, playing volleyball, and countless games of 63. Our many road trips- from Washington D.C. to Cooperstown to Toronto also created special memories. Especially those many soccer weekend tournaments- it's been quite a ride! You have always strived to do the right thing and do your best, whether on the fields or in the books. Your drive and determination have always been impressive. Often, you were the first one on the field, and the last to leave. Success has come from your talent and hard work. Your strong character and love of family and friends makes you special. When given the choice of what to do on a hot, summer day or how to celebrate your birthday, you would always choose to spend it with your family (grandparents, aunts, uncles, and cousins!). For that, we are most grateful, to have spent many wonderful moments with you, watching you grow into a mature, responsible young adult. Seth, we are so proud of you and the way you have always set high standards and expectations for yourself and others. We know you will have a very successful future filled with many great things. Enjoy each moment!  
We love you, Mom and Dad

# Caite Robinson

Here's to you my sweet baby girl! The past 18 years have gone past way too fast. It has been a wonderful journey along side of you, with so many great memories along the way. You are my light. I am so proud of the great human being that you are and the beautiful young woman you have become. I thank you for all that you have taught me, the joy you have brought this family, and for surpassing a mother's dream for what a daughter could be. I look forward to seeing what the next chapter brings. I know you will achieve great things. Dream big, work hard, and don't forget to dance. When life gives you lemons, channel your inner-Sid. Love Mom

Caite, I will miss the hot summer day's swimming round and round the pool, making a whirlpool to see how many laps you could swim without touching. I'll miss going to the volleyball and lacrosse games to watch you spike, block, or stop that striker. The last 18 years have been some of the best times of my life, seeing you grow into such a beautiful woman. I am so proud of what you have become. Love Dad

Congrats Caite, I knew you would make it! We've had good times and bad, hahahaha, but don't worry I still love you. Anyway, I know you will go as far as your dreams will take you. Good luck little sister!

Where did the time go? I could have sworn we just brought you home from the hospital yesterday. You have been such a pride and joy to us, we are truly blessed that God chose us as your parents. We have cherished every moment with you, enjoyed watching you excel in hockey and baseball; and grow up to be the sweet young man you are today. We can't wait to see what the future holds for you!

May you continue to succeed and grow, and enjoy every minute of college life. The "real" world will be here before you know it; so continue to work hard, stay true to yourself, and keep smiling... the best is yet to come.

Riley

It seems like just yesterday you were our Little Sweet Pea. We would love to relive those days again. Whiffleball games, waterskiing, Mount Katahdin, Dominican Republic, Washington D.C., Canada, Baltimore, Florida, they were special times. But now you are a strong young lady with dreams of your own. We are very proud of you as you finish this chapter in your life and move on to follow them. Your wonderful, warm, honest personality will always help you excel in life. It will be no surprise you will achieve whatever you put your mind to. We always knew what a loving, kind daughter you are. We will always be there for you. Follow your heart and you will always be happy. We love you more and more everyday.

Mom and Dad

Riley,

I can't believe how fast the time has gone by. It seems like just yesterday we were playing in your bedroom with our Barbie Dolls, but now you are leaving for college. I am so proud of you! You have done such an amazing job in school. I really do look up to you a lot. We have had so many great times together and there will be many more to come. I am going to miss you while you are away. It is definitely going to be quiet and lonely without you at home. I wish the best for you. I know you will do great things and your future has a lot in store for you. I hope you have the time of your life in college. You are the greatest sister in the whole world. I love you!

# Moira Keahon

Dear Moira,

From the first day we held you and looked into those big beautiful brown eyes, you stole our hearts. We have so many wonderful memories of your childhood. Pine Point, block parties, road trips, Disney, Ireland, watching you play in the Babe Ruth World Series, and simple times at home with our family. You've grown up way too quickly. We are so proud of the young woman you have become. You are smart, thoughtful, sensitive, caring, and always able to see the best in people. Your personality, sense of humor, and demeanor are what make you who you are.

These qualities make others happy to be around you and will open many doors for you. Words alone cannot express how proud we are of your accomplishments, and the way in which you have handled your disappointments. Life is not always fair, but the true judge of a person's character is their ability to persevere. Always stay true to yourself. Live life. Follow your dreams and do what you love! Your greatest strengths live within you. Use those strengths to guide you through life. Know what we will always be here to love and support you.

Mom and Dad

Congratulations on finishing high school. I am very proud of you. You've been a great sister and person to be around. Enjoy the rest of this year and have fun in college.

Abba Dabba - Wow, is it here already? I have so many things to say and not enough room...Raising you as my daughter has been the most amazing gift a mother could have. From the moment I first held you, I knew you and I would be special friends forever. Even though we've had our ups and downs - all mothers and daughters do - I will always be there for you, no matter what - good or bad. We have had so many LAUGHS (and some tears) over the years. I have enjoyed every minute of it! From the days of American Girl dolls, swing sets and Girl Scouts, to long winter afternoons watching Gilmore Girls, to the countless hours of dance lessons, competitions and field hockey games, all those crazy sleepovers in the pop-up, and some off-key singing in the car (Can anyone really hit the high note in "The Climb"?)- my life has been made richer by you and your amazing friends. Watching you grow into the beautiful, independent, level-headed, smart, funny, kind, loving young woman you are today leaves me in absolute awe. You have made the very best of choices in so many situations, and I am so very proud of you for that. One day watching a solo dancer on stage, the next day a fierce defender on the field confirms you have a strong sense of who you are, do not lose that. My advice to you is this: try to always live by the Golden Rule, believe in yourself, remember you have to answer to yourself first, stand up for what you believe is right, and most of all take a risk, make mistakes- be careful- but make them, learning from them is how we grow! ...I love you Munchy! Love, Mom

Zuzu, You have grown up much too quickly. It was just yesterday that I was braiding your hair for school or making a gingerbread house at White Rock School. You have always made me proud. From standing up for something you feel passion for, to the heart I see in you on the playing field, to just making your Dad cry when you're on stage. Never forget that you will get older, but you'll always be my Princess. I love you - Dad

Abby - We are so proud of you! We have so enjoyed watching you grow and going to all your games and dance recitals over the years! Love, Grammy and Papa

T-Man,

As you approach this major milestone in your life I am flooded with so many great memories. A few of my favorite are when you arrived into this world ('93), diving catch at first base ('03), Cal Ripkin baseball championship ('05), nailing the DARE speech ('07) and first basketball game ('09). I am so proud of you. You're the man. You have a big heart, a great mind, and so much potential. I look forward to seeing you make your impact on this world.

Shelbi

You had to fight hard just to come into this world. You and your wonderful Mom did a great job facing adversity and prevailing. Watching you grow to this point has been a special privilege. It was never difficult to be proud of who you were as a person and easy to admire your determination. You never lacked courage and welcomed challenges. Seeing you launch yourself in a crowd of girls to get an air-ball for your team was inspiring. Your runs down the sideline getting past multiple defenders was as much fun for us to watch as it must have been for you to execute. Your Senior Year was a comeback challenge after tearing your MCL twice in eight months.

Life is full of never ending challenges and we have to be versatile yet stoic in our purpose. (Remember Koko and all he had to deal with?) We have to make adjustments and bounce back when life knocks us around. That mind set comes naturally to a champion. Be sure to stay focused on the big picture and don't ever let your dreams die. "You Become What You Think" is the basis for ones life. People who understand this principle early on have a tremendous advantage.

You were lucky to have some great friendships during all of your school years. We hope you maintain them as true friends are rare indeed.

"The world is nothing more than all the tiny things we leave behind."

Go on ahead...leave something special behind.

And remember...NEVER~EVER QUIT

Always stride to be the best. You are a joy and an inspiration to  
everyone that knows you. I love you. Mom

Over the past 18 years watching you grow has been very unique.  
You have behaved and acted extremely different from the people you  
are surrounded by. When most kids were addicted to video games,  
and watching TV you were outside, or playing board games. When  
most tweens were texting and spreading rumors you were running  
around the neighborhood and begging everyone to play 21. When

most teenagers were acting irrational and immature, you were  
leading a team and setting an example for those who follow you. But  
most importantly when most 18 year olds wanted their space from  
their family, you forced us all to get closer. Thank you for making our  
family as close as we are and thank you for always being the best  
sister, and friend I could ask for.

Thank you for being different.

Many things happen to us in a lifetime. Decisions we make shape our  
life. The decision to have your brother and that you will always be  
mine and your mother's grand jewel. The decision you have made to  
live your life to its fullest will always be who you are. Challenge after  
challenge you go through with sheer determination, hard work and a  
smile to keep the room lit. Now you move on to your biggest  
challenge yet. New doors to go through and new walls to break down!

I love your life because it has given us more joy than you can ever  
imagine. Hold your head high and always remember if you need help,  
mom and I will always be there to swing you!!!

It is hard to believe that 18 years have passed since your mom and I brought you home. Since that day, you have made us laugh, cry, happy, and most of all, always very proud. You've always showed determination, skill and thoroughness in all you've done. Your happy, outgoing personality combined with your caring nature and ability, all insure that you'll succeed in whatever you take on. So, as high school moves into your past and you begin your young adult phase, remember all the qualities that have made you successful and continue to put them to good use. I have no doubt I'll always be one of the proudest dads. Good luck with all you choose and remember, you'll always have my love and support.

You didn't think 2011 would ever come, but it did, much too quickly for us it seems. We know you are more than ready to move on to the next stage of life; college, independence, new ideas and a bigger world (probably not as many naps, but you'll get used to it.) Graduating from high school doesn't mean graduating from family and friends, we will be with you every step of the way. We are so proud of who you are, Caroline, it's a pleasure to be a part of it all.

Caroline-

One and a half years apart and people still call us twins.  
Even though I'm an angel and I can't even count all your sins.

And now here we are approaching your graduation day,  
And along come my words of love and inspiration I'm so indebted to say.

You're smart, you're beautiful, you've pretty much got it all,  
When it comes to getting everything you want, I'm sure your hopes won't come up small.

And next year at school, I hope everything goes your way,  
and if not, I'm sure I'll hear about it, because we talk like everyday.

The many sides of Hanna Hamblen

Growing up and learning with Hanna (yes, parents still grow and learn) has never been mundane or boring. Some would say Hanna has been a challenge. Combative one moment, retrospective the next, Hanna has a well stocked range of emotions. When young, Hanna struggled to read, once she learned, she never put a book down. Hanna once struggled with sports and physical activity, now she can't get enough. Struggle, conquer, succeed and move on, is Hanna's approach to the world. When Hanna leaves for college, and begins her life as a young adult, we will no longer have to follow her around turning off lights, picking up dirty dishes, being told what to do. All we will do is miss her.....

We love you Hanna: Mom, Dad, Emily, Madeleine, Grant

Love Always, Mom

Morgan,

We have so many things in common (even though I don't want to admit it). I always say that I never like the things you like. Whenever you try to show me a new Korean Boy Band, or a new lyrical song, graphic tee, or anime, I always tell you that you have weird interests and you like freaky things, but some of my favorite things now, are what you have showed me over the years. Thank you for always being there to laugh with, cry with, and vent to. I love you so much. I can't wait to go to your dorm and crash a party! Love Always - Katie <333

I love you Morgan! You are a great sister and I'm going to miss you! - Tim xoxo

Oh the places you'll go, Morgan. Whenever your heart takes you, our love will always go with you. Congratulations sweetheart! We are so very Proud of you - Nana and Grandpa.

Tyler,

How you have grown and changed through the years. It seems like only yesterday you entered our lives as our baby boy and now you are maturing into a special young man about to enter the world of more serious endeavors. You have accomplished so much and have so much to be proud of. You are caring individual who can and will accomplish whatever you set your mind to. You set goals and you accomplish them! You have proven this many times in the past including your goal of being an Eagle Scout before age 14. You beat this goal by six months! We are sure you will continue to succeed in whatever path you choose. Just know that we are always here for you! We are so very proud to call you our Son and Brother!

Love you... Mom, Dad and Michael

Dear Tyler,

Congratulations, you finally graduated after 13 years of school. Don't forget pre-school. Just think, after all the school you are awarded with even more school. Good luck at college.

Alexis:

Welcome to that stage in your life where you stand at the door to opportunity and prosperity. Even though college seems like an extension somewhat to high school it really isn't. All that we have done as your parents up to this point was to prepare you for this moment in your life. All of the challenges you have had to overcome so far in your life are the building blocks for your future and make no mistake, all of the tough times as well as the exciting times all contributed to that preparation. You have had an abundance of parental figures in your life and we hope that even through the bad times as well as the good times you knew and remembered that we love you so much. Our hopes and dreams were that you would grow up with a purpose in life and become a leader to others. Your life is in your hands mostly now. We say mostly because even as a young adult we will still be there for you to help you along but you are the primary helmsman moving ahead: Listen first before speaking, Learn from what you hear, Be compassionate, Be responsible, Be accountable, Be humble and have humility but most of all, have integrity. Remember that you are a child of God and created by Him so whatever you do in life from this point forward will be a reflection of that relationship and that is a relationship that will save your life and always steer you in the right direction. Trust us, there will be many distractions and opportunity to head down the wrong paths in life but God made you a beautiful, wonderful human being with a limitless ability to learn. Take those gifts and use them for what they were intended for and do whatever you can to do what is right. Family is important and always know we are your family through thick and thin just as we know you will be there for us. Love Mom and Mike

Travis,

Can you believe you are finally graduating from Gorham High School? We know how hard it was for you to stay behind the school walls, then came the wonderful program at Portland Paths!!! We are proud that you have utilized your skills, talents, and compassion in what you enjoy doing. You are a very gifted person in so many ways. As your journey continues after graduation, it will be up to you to choose what is best for your career, life, and dreams. We all have faith in you because of your many talents, strong will, and determination. All of these will benefit you in the future. We know once you put your mind to something, you go for it. We saw that focus and determination when you started playing ice hockey at the age of 5. You were determined that you were going to play, even though you didn't know how to skate at that time. That was one of the most memorable experiences, watching you get back up after falling down every 5 seconds. You became an awesome Hockey goalie... we remember the spectators saying, "who is that kid? He is amazing!" Then, a varsity player in your Freshman year.... what an accomplishment!! Your direction changed in your junior year, which is OK, because we just want you to be happy with the life journey that you choose.

We are so proud to watch you grow up into a young man. You are truly gifted in so many ways. Continue to be yourself, as you are a well grounded, respectful, honest, and caring person.

We all love you very much and will always support you!!

We are so proud of what you have become, a very loving, gracious, and thoughtful young lady!! From Barney to Justin Bieber. From Willie the horse to Sir Galahad. From T ball to High School Softball. From battery operated guitars to piano and electric guitar. From a tricycle to a hick truck!!

We have had so many great memories, stories, and adventures. We look forward to continuing to build upon those as we all step into the next phase of our family's life.

We have had many conversations about how Mom will deal with an empty nest (as we have determined - not well). Mom and Dad have great confidence you will continue to grow and mature and will do great things in your adult life.

Hey Nick,

Though you may have been a pest at times, we've had our moments. There were all those times riding to school blasting the mixed CD you made for us (Thank you for teaching me good taste in music), the times you tried to teach me how to play video games (which we both know required a lot of patience), and the times you stayed on the phone with me in college because I needed someone to talk to while walking back to my dorm in the dark (Thank you, you made it less scary). Even though neither one of us knows what the future will bring, I feel lucky to know that I have an awesome brother who knows how to cheer me up when I am feeling down. I am so proud of the person you have become, and I wish you all the good things in life that anyone could wish for someone.

Love you always,

Lauren,

Congratulations! You have made it through another important step in life and your future. Just as you have done since your first little steps to walk, ride a horse, and so many other things. Your determination to succeed at everything you pursue is so impressive. I know you will continue through life with that same determination. I can't Believe how the years have flown by. It seems like just yesterday I was bringing you to the park to play and hearing that little high pitched voice "daddy, daddy". But here we are.

It's hard to describe the pride I feel to say you are my daughter. I couldn't have asked for any better. I am so proud of the young lady you have become. "Just remember, you can do anything you set your mind to, but it takes action, perseverance, and facing your fears." - Gillian Anderson

Since you were born you have been bringing us laughter, joy and pride. When you were four you raced into the garage on your training wheels and said "Daddy, take these things off, they're slowing me down!" At that moment we knew you could not be stopped. We are so proud of you and all your accomplishments through the years. As we watch you graduate, we are in awe of the wonderful young man you have become. While you think about your future and the path you will travel, keep that smile bright, be true to yourself, laugh and never slow down.

# Samantha Peters

Samantha,  
What an exciting time for you! You are now closing in on 12 years of school; grade school, middle school and high school. You will look back on this wonderful experience many times for the rest of your life. I'm sure these memories will include Mrs. Carlson, playing Snow White in the school play, breaking your collar bone, the 2007 state championship game, your 100% foul shooting season, our family struggles with art class, Larry the bus driver, rides to school with Si, stomp and shake it, and many, many more precious memories. What fun it has been experiencing this with you and, at times, simply watching you.

These years have also been memorable for us. It has been a pleasure watching you grow, learn, experience successes and failures, adopting values you will live by and simply dealing with whatever life throws your way. We enjoy your company and simply love being around you. We value your opinion and love laughing with you. You truly have been our entertainment for 18 years! You are very compassionate and have great passion for many things.

We look forward to being with you as you embark on new endeavors. It was comforting to know you were ready to venture into kindergarten; it was exciting to see you confident as you entered high school. Now - we are full of pride and respect seeing that you are prepared, excited and focused for college and what life has to offer you beyond that. We are proud of you and what you stand for. You are beautiful both inside and out. Dream big, but always remember it's the really little things that matter most. Work hard - play hard.

We love you and are so proud to be your parents! Mom and Dad - xoxo

Sam,

Well I don't really know where to begin, but you are the best sister anyone could ever ask for. I'm so glad I got to spend 3 years of high school with you, you made it so much easier and I'm going to miss seeing you in the halls and hearing you say "hi Sis". I am glad we are so close and know we always will be. You give me advice when I need it and you make me laugh when I'm sad. I always love spending time with you, we have had some of the best times together; taking pictures, car rides, soccer games, sleepovers, gossiping/venting to each other and even doing homework together. Thank you for being there for me through thick and thin. And always remember I'll be here for you no matter what. I know wherever you go and whatever you do in life that you will be successful. Good Luck with everything, I love you!

Congratulations! We finally made it to this day. All our hard work has gotten you to this big day. Now you will be entering college where you will continue to have to work hard with the help of new teachers and friends for the next BIG graduation.

We have been on this exciting journey with you for 18 years, and have watched you grow to be a kind, funny, honest, and compassionate young man. We are very proud of you. Now it's time to drop you out of the tree so don't forget to spread your wings. As you fly out into the world to begin your journey as a young man we will always be here for you; to cheer you on, or be a shoulder to cry on. As you already know we always have good advice to offer whether or not you ask for it. Most important to remember is to always maintain your values and stay true to yourself. Work hard, stand up for yourself and never give up. You have so much to offer the world and the world has so much to offer you. Set your goals high and work hard to reach them. Experience life and enjoy each day to the fullest.

# Alexandra Tracy

Alex,

What a wonderful 18 years we have shared. You are truly a special daughter and we thank you for the memories you have created for all of us to cherish...ice cream, extreme coaster rides, biking the carriage trails, camping and singing American Pie around the campfire with our life-long friends, Dad and the softball bucket, more ice cream, racing up Mt. Katadin, orange (is there any other color?), your many soccer, basketball, and softball games and tournaments.... we would not change a thing. You have touched and shaped our lives forever.

It's been an absolute joy to watch you grow up and we look forward to the years ahead. You have so much to look forward to the years ahead. You have so much to look forward to, many more memories to create, and opportunities to explore.

Be happy, be true to yourself, and know our heart will always be with you wherever the road may take you.

# Brendon Joyce

You worked so hard to reach this goal  
In everything you poured your soul.  
So it arrives...the time is here.  
We are so proud, we hope it's clear.

Growing up, you loved all sports,  
From football fields to tennis courts.  
You'd play in your made up games,  
Imagined opponents put to shame.

But it was baseball that won your heart,  
Younger than six when you got your start,  
The catcher's equipment was way oversized  
But to you, it was a valued prize.

Reeling in bass with style and grace,  
With our two dogs, playing chase.  
Snowboarding at lightning speed  
All the while, growing like a weed.

And now, you're an amazing young man,  
We, your family, you biggest fans...  
Your spirit cheers the darkest gloom.  
And your smile can brighten any room

Congratulations  
Brendon!  
We love you!!!!
